Dedication ~ ~ ~

To Our Advertisers

and to the Negro Consumer, who are purchasing goods and services from our various merchants, and who expect, and are due, the best in quality merchandise, prompt, courteous and efficient service. Let us not forget to love and help one another; perchance, we may succeed in reaching a definite and outstanding goal.

Of all the peoples of the Earth
Few men are great because of birth
Far more are great for what they do
Or for the course that they pursue.

Introduction

Why, you may ask, have we published a directory of Negro Businesses, Professions and Churches for Detroit and Environs? Without a doubt we can say that a directory of this kind is of paramount importance for two reasons. First, there are many Negro Businesses, Professions, and Churches in Detroit and Environs. Secondly, it is a fact that the very existence of these businesses, professions and churches, and their success is dependent upon the Negro Consumer. If the Negro people do not believe in Negro businesses, Negro businesses will not last. For the forementioned reasons the Associates Advertisers' have made every effort to present a good directory, which will serve as a guide for the Negro consumer.

Compiling all the information which appears in this directory was by no means a simple task, and required many hours of work for the members of the Associates Advertisers' Service. However, if it serves the community in arousing them to realize the many advantages of unified trading, the members will feel well rewarded for their efforts.

This Directory was delivered to you without charge by the Associates Advertisers' Service as a public service rendered by this organization. It contains a lot of valuable information which we hope will help you in realizing the need for a stronger bond between the Negro consumer and the Negro business and professional men. It is suggested that you keep this Directory where it can be reached by you and your family whenever information of this type is desired. Examine the pages carefully so as to better understand how it can best serve you until the next edition. In so doing you should be convinced that it deserves a worthy place in your home. Comments, either good or bad are welcomed, and will be gladly accepted by the Associates Advertisers' Service.

from Soup to Nuts

We mean exactly that—"soup to nuts"—when you have our organization handle your advertising or printing of ANY description. The members and employees of The Associated Advertisers' Service take pride in the accomplishment of a job well done. A project that is planned completely from selling advertising in a program for your church or organization, laying out the different pages, planning the program for the proper presentation of the thoughts and ideas you wish presented to the distribution of the printed book. When your church or organization is planning such a project why not call in the services of an experienced organization that will take all the care and responsibility from your shoulders and do a job that will be a credit to your name. In the final analysis you will be much further ahead financially than if you tried to do the job yourself. Just call us and we will send a representative to your committee and explain all the details of our service. There is no obligation, of course!
