## An indispensable hand tool for all Groundsmen and Greenkeepers . . .

The "SISIS" TRULUTE has the following uses:

- SPREADING** Top dressings quickly spread, and finished level.
- LEVELLING** Top dressings are spread so that the hollows are raised to true ground level.
- RUBBING-IN** Dressings are quickly luted into the base of the grass after spreading, also worked into pierced holes after aerating.
- SURFACING** Hard surfaces of cinder or of shale paths can be readily resurfaced, using cutting side to remove "proud" areas and the smooth side to spread loose and newly applied dressing.
- TILTHING** Invaluable when levelling seed beds or prior to sowing. After levelling, will produce a fine tilth—without waviness—ideal for reception of seed.
