

HON. SECRETARY'S NOTES

1967 Annual Tournament

AN ENTRY FORM FOR THE above tournament is enclosed in this Journal. Do not delay in returning it to me if you are coming to Walton Heath.

Annual Draw

Tickets are now in the hands of section secretaries and it is hoped that all members will make a great effort to ensure the financial success of this draw.

Open Championship

The Secretary of the Royal and Ancient Golf Club has again kindly forwarded 12 passes for the "Open" at Hoylake. Any member who would like to make use of one should apply to me as soon as possible—first come first served.

FOR HIRE

SISIS AUTOTUREMAN Aerator for hire, £25 per week — Do it yourself. J. B. Burnell, 2 Clarence Road, Eaglescliffe, Stockton on Tees.

Old Course St. Andrews 8a.m. All greens watered automatically by 4a.m.

"Feel that", says John Campbell, "plenty of 'hold' for a dropping ball, and wonderfully accurate for putting too — even in the driest of weather!" That's because all eighteen greens at St. Andrews are watered evenly, regularly, by pop-up sprinklers. All watering now takes place at night, so that by the time John Campbell or the earliest of enthusiasts arrive the greens are ready for play! Pop-up sprinklers are the modern way to water greens, once installed (there's no interference with play) they improve greens tremendously, they also save time and labour costs. Want to know more about pop-up sprinklers? Then ask John Campbell, Links Supervisor, what he thinks about them. For a second opinion, ask us!
