Link the Litamisa to your tractor and collect litter, leaves and grass cuttings from fairways, semi-rough and access roads in one, clean sweep.

The Litamisa **power sweeps** and collects in one operation; clears a six feet wide path and leaves an immaculate surface behind it. One man can operate the Litamisa and empty the 72 cubic feet capacity hopper **without leaving his tractor seat**. Built for year-round operation, the Litamisa can pay for itself in one season.

The Litamisa can be operated by most tractors with hydraulic linkage and power take-off drive. The whole machine is raised for transport between sites by the tractor. The rotary brush is power driven by the PTO; vital to efficient sweeping.
