

green. One man was operating the machine, two were sweeping behind him and 21 were draped round their brooms in earnest conversation. But there was nothing they could do even if they had wished to take a more active part in the operations. But while there is handweeding of undesirable grasses to be done this situation has its advantages.

The rough can be very impressive especially in higher rainfall areas near the coast. Palms, tree ferns, tree heathers, tall reeds add to the spectacle beside flowering trees and shrubs. It is reported that the following conversation took place within earshot but not within sight of a fairway.

“Where are you caddie?”
 “I’m here, master.”
 “What are you doing caddie?”
 “Looking for your ball, master.”
 “Well stop worrying about the ball. Come and look for me!”

**PARKAMATIC
 TRAVELLING
 SPRINKLER** from

PARKER

This Sprinkler has been developed in conjunction with Mr A. McTaggart, the Ground Superintendent of the famous Motspur Park Athletic Grounds.

Designed to provide the Professional user with a completely Automatic method of even watering. Cricket Squares, Bowling Greens, Tennis Courts, All Weather Surfaces and Running Tracks all come within the scope of this machine which represents a break through in high speed efficient and even watering.

No staking, wires or other elaborate preparations are necessary with the "PARKAMATIC" simply lay out hose pipe on a pre-determined course and the "PARKAMATIC" will do the rest, straight travel and curved all come within its scope.

The machine travels 140 ft. per hour pulling 3/4" Alkathene Tubing at pressures of 40 lb. p.s.i.
