PARKAMATIC
 TRAVELLING
SPRINKLER from
PARKER

This Sprinkler has been developed in conjunction with Mr A. McTaggart, the Ground Superintendent of the famous Motspur Park Athletic Grounds.

Designed to provide the Professional user with a completely Automatic method of even watering. Cricket Squares, Bowling Greens, Tennis Courts, All Weather Surfaces and Running Tracks all come within the scope of this machine which represents a break through in high speed efficient and even watering.

No staking, wires or other elaborate preparations are necessary with the "PARKAMATIC" simply lay out hose pipe on a pre-determined course and the "PARKAMATIC" will do the rest, straight travel and curved all come within its scope.

The machine travels 140 ft. per hour pulling 3/4" Alkathene Tubing at pressures of 40 lb. p.s.i.
