Appeal for Seaweed Experience

Has anyone tried seaweed? Frank Ford has sent us a leaflet concerning S.M.3 which claims notable improvement of structure of clay soils and several marginal benefits. Horticultural journals also are mostly carrying advertisements for seaweed derivative products which seem on the face of them to provide the answer to the clay course greenkeeper's prayer. Can we hear from someone who has tried one of these seaweed products?

Putter	Flat-faced unreliable club.
Water Hazard	Large number of golf balls covered with water to prevent recovery by anybody but the Pro shop."
