THE VERTIRAKES

P.V.R. (Pedestrian Vertirake)

— for Golf greens, Bowling greens, Cricket pitches and Tennis courts.

J.V.R. (Junior Vertirake)

— for Golf course greens, Bowling turf, Fine lawns etc.

T.V.R. (Tractor Vertirake)

— for Golf course fairways, Municipal Parks, Sports pitches.

These three machines have been designed to remove all the thatch, thus stimulating recovery and growth of strong healthy grasses. You will find that each machine will clear the difficult, dead, matted, fibrous grass that is so often so difficult to get rid of.

We have a machine for every purpose from the small golf green to the largest Municipal playing fields. One great labour saving device we have fitted on our P.V.R. model is the very large glass fibre collecting box which saves an enormous amount of time and energy that would otherwise be wasted in sweeping up afterwards.

The Deckson Rugged Rangers

NEW FROM AUSTRALIA

Two powerful rotary mowers and a versatile mini-tractor, practical, functional, built to last. Packed with the features you professional users are looking for.

The Deckson 26" Heavy Duty Slasher

A self-propelled mower with a robust 8 h.p. engine and a 26" cut. Features the unique Deckson forward and reverse drive.

Instant fingertip control for smooth, easy mowing. Cuts the toughest grass and scrub with a special safety guard for stones and operator protection.

Cutter speed stays constant, even at slow ground speed under heavy conditions.

The Deckson 28" Professional Standard Mini-Tractor

An outstandingly manoeuvrable machine for mowing or other jobs. Powerful 8 h.p. engine and a 28" cut. Unique Deckson forward and reverse drive. Instant one-point height of cut adjustment, from 0-3 1/2". Variable ground speed for heavy conditions. Easy steering, easy driving. Rear mounted engine. Electric start optional.

The Deckson Heavy Duty 22" Rotary Mower

A powerful 5 h.p. engine, an instant one-point height of cut adjustment, from 0-2 1/2", removable stone guards for heavy cutting conditions, an easy spin recoil starter, 8" diameter wheels with double ball races, the Deckson Heavy Duty 22" Rotary Mower is sure to sell!

The unique Deckson Forward & Reverse Drive

Fitted to the Slasher and Mini-tractor. Works by the simple movement of a special cone against the machined surfaces of discs. When the cone makes contact with one disc the result is forward drive. When the cone moves to the other disc the result is reverse drive. Simple. And foolproof.

Dispute makes history

The broken and patched-up window of the greenkeepers' barn at Grange Park golf course, with the wooden span which, say the men, holds up the roof.

Five strikers sacked

THE entire greenkeeping staff were sacked from a Merseyside golf club—five days after they staged the country's first ever greenkeepers' strike. They were told that they had been dismissed on Monday, June 9, after they put in claims for better working conditions and more pay.

But the five men involved feel that they had every right to make the claims on the Grange Park Golf Club in St. Helens, and are now considering taking their sacking to an unfair dismissals tribunal.

Mr. Michael Hudson, aged 32, has been the Head Greenkeeper at the St. Helens club since September. He has been a Head Greenkeeper since the

Story by Iain Stewart Webster

Pictures by G. Griffiths

1960's and his last post was in Port Madoc.

He claims that the old barn which is used as the men's refuge for meals, toilet and wash-place while they are at

[Turn to Page 6]

[Sacked, from Page 5]

work, has prompted him to contact public health officials.

"There are fungicides and paraquat only feet away from where we are expected to eat our lunch," alleged Mr. Hudson, "But that's not all. Another few feet away we are expected to exercise our bodily functions."

Mr. Hudson's assistants, 16 year old David Baines and Mike Hannon aged 17 claim that a wooden spar is wedged on the window ledge of the barn to prevent the roof from falling in.

The five men involved claim that they have been pressing for improvements and a wage rise since Christmas, but that the club haven't taken any action. After fruitless talks with an arbitrator and the club the men decided on strike action.

The men are especially bitter about the sackings because they had been complimented many times on the condition of the greens and fairways.

"The two boys take home under £16 a week and the two other men's take home wages are under £20.

"I take home £29 a week and the club pay rent and rates for my council house at 3, Beth Avenue, St. Helens. But that puts an extra £520 on my tax bill every year," claimed Michael Hudson.

The British Golf Greenkeeper's lay down a wage scale for greenkeepers and their assistants, but it is up to the golf club and the employees to reach an agreement.

"We have contacted the Department of Employment who said they would send a public health inspector down to the club," said Mr. Hudson.

Mr. Tom Purcell, the secretary of the Grange Park Golf Club, St. Helens would not comment on the sackings on the day the men were fired. He said that any comment would come from the Golf Club's council when they had discussed the matter.

Standing Conference formed

THE STANDING CONFERENCE FOR GOLF GREENKEEPING

This new organisation has been inaugurated to deal with the intractable problem of golf greenkeeping. It will be representative of

- The Golf Development Council
- The English Golf Union
- The Scottish Golf Union
- The Welsh Golfing Union
- The Golfing Union of Ireland
- The British Golf Greenkeepers Association
- The Scottish Golf Greenkeepers Association
- The Association of Golf Club Secretaries.

The object of The Standing Conference are:

To initiate, improve and promote the education and training of golf greenkeepers

To act as a link between bodies having similar objects

To collaborate with educational and scientific establishments in defining a common syllabus and standards

To receive, hold and disburse monies in the pursuit of these objects.

The Golf Development Council, which took the initiative in calling together the golfing organisations concerned with these problems, has agreed to accept the administrative responsibility for The Standing Conference during the first two years of its existence.

Mr. C. F. Windrow of The Royal and Ancient Golf Club has been appointed Chairman, Mr. L. D. Warne of The National Golf Clubs' Advisory Association is the Hon. Treasurer and Mr. G. A. McPartlin of The Golf Development Council has been appointed Hon. Secretary.

The Home Unions are backing The Standing Conference financially. Initially The English Golf Union is contributing £5,000, The Scottish Golf Union £1,000, The Golfing Union of Ireland £500 and

The Welsh Golfing Union, while agreeing to make an initial contribution, has not yet decided on the amount.

One of the first tasks for the newly formed Conference will be to appoint a Training Co-ordinator to investigate the various types of training at present being given to greenkeepers; to liaise with golfing and educational bodies and to stimulate the organisation of training courses for greenkeeping at suitable centres throughout the United Kingdom and Ireland. These courses will be conducted to common syllabus, have a uniform standard of examination and provide a recognised professional qualification.

It is hoped that the foundation of The Standing Conference will mark a considerable step forward towards a solution to what is proving to be one of the most serious problems facing golf today.

Thanks for 14 years of dedicated work

ON BEHALF of The Greenkeepers' Association and myself, I would like to thank Mr. Dix for the dedication and hard work that he has given to the Greenkeepers' Association as secretary over the past 14 years. As chairman of the association this past year, I can appreciate the amount of work involved in the position of secretary, and the competent and cheerful way in which Mr. Dix has given of his time and knowledge for our association. We do hope that Mr. and Mrs. Dix will still attend as many of our functions as possible, as we are loth to lose contact with them and we wish them a long and happy retirement.

Eric R. James
Chairman British Golf
Greenkeepers' Association.

Give your roots an airing

When it comes to spiking and slicing you'll have to look a long way to find anything more effective than the Ransomes-Hahn TM Models. The cultivating action of the aerating 'spoons' are the result of patient research into the surest way that the spiking will allow air, water and fertiliser to do most good. This action is unique to Ransomes-Hahn. Turf tearing is prevented by the patented 'Flexi-press' springs which fit over the spoons. Alternatively, the double point spiker blades cut cleanly and quickly. Three point tractor attachment makes the TM models highly manoeuvrable to deal with normally inaccessible areas.

Nothing beats cultivating action

Packed soil now has room to expand into the scooped out holes. The root-zone is opened out to enable air, water and fertiliser to have the most benefit. Strong root formation is made more easily in the surrounding soil.

Point for point you can't do better than employ Ransomes-Hahn turf maintenance equipment, talk it over with your Ransomes dealer.

Check these features

Two models TM140 or TM 80.

Full 6' cultivating width.

140/ 80 spoons of $\frac{3}{4}$ " open or thatch type with Flexi-press springs to match, or 140/ 80 blades

Built in weight rack as standard - also acts as effective safety guard.

Disc weights available as optional extra.

Draught eye as standard to attach drag mats.

Company Profile

No 3: Sisis

SISIS Equipment (Macclesfield) Limited was incorporated on February 11th, 1932 by the late Mr. William Hargreaves, father of the present Chairman, Mr. Derek B. Hargreaves, and commenced trading from premises at Cheadle, Cheshire.

Since their earliest days, the Company's products have been designed and developed to raise the standard of sports turf and recreational areas and, in more recent time, hard porous playing surfaces. The original concept resulted from meetings between the founder and Mr. R. B. Dawson, then Director of The Sports Turf Research Institute at Bingley, Yorkshire. Regular contact with the Institute has been enjoyed and many ideas exchanged.

Since 1932 the Company has designed and continually extended the range and manufacture of their highly specialised management equipment for all types of recreational and amenity areas. The resulting equipment is used by skilled

greenkeepers and groundsmen throughout the world. SISIS is now the leading manufacturer of such products in Europe. Educational Authorities, Parks Departments, Departments of the Environment, H.M. Services and all categories of Sports Clubs, both professional and amateur are regular users of SISIS equipment.

In 1962 the Company moved from their humble premises in Cheadle to a modern factory on the new Industrial Estate in Macclesfield, Cheshire.

The trade name 'SISIS' having become increasingly identified with the Company's products, W. Hargreaves and Company Limited, was re-named SISIS Equipment (Macclesfield) Limited.

Since moving to Macclesfield the Company's sales and production have increased more than five times and in excess of 20% is now exported to all corners of the world where sportsmen demand the finest playing surfaces to

[Turn to Page 10]

The new Shoresclough Works of SISIS Equipment (Macclesfield) Ltd on the Hurdfield Industrial Estate.

[Company Profile, from Page 9]

give of their best. The SISIS export distributorship network covers all Western European countries plus South Africa, Australia and New Zealand and, for the past two years, SISIS have increased exports to the Far East, notably Japan and Singapore.

The company's current premises at Shoresclough Works, Hurdsfield Industrial Estate, Macclesfield was opened on 11th February, 1972 on the 40th anniversary of the incorporation. The development provided 35,000 sq.ft. of factory and office space. A special loading bay facilitates regular use of TIR Containers for direct road deliveries to any of the SISIS European distributors.

Chief Engineer, George Hobbs, heads the research and development team at a separate factory where some engineering components are made and prototypes are built. This factory is located $\frac{1}{4}$ mile or so from the main works.

The present day staff of SISIS Equipment (Macclesfield) Limited, is almost

100 strong and includes two grandsons of the founder, Mr. R. A. Hargreaves a director, and Mr. J. W. Hargreaves. Several members of staff have worked for 25 years or more with the company and SISIS Managing Director, Mr. Eric Staniforth, has now celebrated 40 years of service.

SISIS General Works Manager, Douglas Everett and Sales Office Manager, Gordon Lackford, are both men with more than 30 years service with SISIS, whilst General Sales Manager, Arthur Harrison, is a relative newcomer with only 15 years to boast about!

A separate section of the Sales Department has recently been formed, under the control of Dennis Orme, to administer the ever increasing demand for spare parts and service.

Since adopting a direct selling policy in many areas of the U.K. about 5 years ago, the Company's outside sales team has grown to ten representatives

and three demonstrators, under the control of Keith Vertigant, who was promoted from the outside staff early in 1974, to Direct Sales Manager.

Many of the Company's products will be familiar to most readers, but recent important developments include:—

SISIS Veemo, introduced in 1974, as a fast efficient means of fairway scarification and removal of excess fibre.

The SISIS Autocrat, has brought deeper vertical penetration, at a faster speed than before, to the task of hollow tining of a golf green during the Autumn or maintenance slit tining at other times of the year.

SISIS Rotorakes have regularly had improvements and innovations added, since they were first introduced in the mid 1950's. Thatch removal, thatch control and scarifying reels make the current range usable in all seasons.

Fairway spikers such as the Heavy Duty Aerator, model HA/6 and General Purpose Aerator, model LA/6, have recently been fitted with a new type of soil removal tine for those interested in carrying out such treatment on fairways, in addition to regular treatment with the well established falt bladed, pointed and slitting tines.

SISIS Equipment (Macclesfield) Limited, maintain their policy of regular investment in development and hardly a year passes in which SISIS do not introduce a new product, principle or innovation.

The Bingley Series

Mr. J. Escritt, Director of the Sports Turf Research Institute at Bingley, Yorkshire, has asked us to point out to readers that the series of articles about the work of the Institute published in the Greenkeeper recently (the last was in our June issue) were taken from a paper he gave to the Greenkeepers in October, 1973.

The British Golf Greenkeeper

The Greenkeepers

WALSALL Golf Course is situated at Broadway, Walsall in Staffordshire. It is an 18-hole flat course, open meadow land inclined to be wet as it is built on clay. The club has a total membership of 737 including ladies and juniors.

The Head Greenkeeper is Gilbert Woodward who first started as an assistant at Walsall Golf Club under his father in 1925. After war service in the R.A.F. in India, Ceylon and Burma, Gilbert returned home to be demobbed and went into the transport business until 1954 when he returned to Walsall Golf Club as Head Greenkeeper. For the last ten years he has been an honorary member.

There is a total Greenkeeping staff of six who have done extensive drainage to the course over the years. This has considerably improved the playing conditions, particularly those most affected by the clay subsoil. Trees of various types have been planted and this is a continuing operation.

The club owns a fairly extensive range of equipment. This includes four 18" Auto Certes, a Toro 70, two Atco 24", one Hayter 24", two sets of gang mowers, mark 10 and magnums, two Tractors—one Leyland 154 and one Fordson 2000 with a front bucket, McConnell Power Arm Digger. One

Sisis rotor rake and a spiker slitter, one Neulec shredder, one 3½ h.p. compressor, two electric drills, one Bonsor three wheel truck, two Andrews spreaders, one Foarcans 444 sprayer, two tractor trailers, one set of gang rollers and a Toro Pop Up Sprinkler system.

Cannock grass seed is used as is their spring, summer, autumn and winter fertilisers. May & Baker's Mersil is popular as is their Dicotex weed killer.

The course being on clay; one big problem is the heavy growth of grass in a wet season. Fusarium can be a problem but this winter a great improvement has been achieved by the use of Tecto Systemic. Vandalism is a problem on the more remote parts of the course and yet another is the recruitment of staff in this part of the country.

Quick-change artist

The Ransomes-Hahn Tournament Triplex is a remarkable machine — so remarkable that we call it the world's first Greens Management System. The Tournament Triplex is a 12hp vehicle with hydrostatic drive, which powers four separate turf maintaining operations. Each conversion, from superb greensmowing to utility mowing, to Verti-Cutting, to spiking takes less than a minute — and no spanner!

Greens Units A full 67" cut. Each 23", nine-bladed cylinder can be lifted individually.

Utility Units Heavy-duty cutting cylinders and bottom blades for approach and tee mowing. Grass catchers provided with all units.

Verti-cut Units Patented twin offset blades remove 'thatch', keep greens in play even in difficult conditions.

Vibra-Spiker Now spiking takes even less time than greensmowing. High-frequency vibration penetrates to a depth of 1½" with a minimum of compaction. The combination of this unique quick-change unit feature, full 67" swath for every operation, variable-speed units and individual unit lifts make the Tournament Triplex an investment which no club can ignore. Your local Distributor is keen to impress you with a demonstration. Give him a call.

Greenkeeper 1 and 2.

Whatever the wear and tear on your fine turf, Greenkeeper 1 and Greenkeeper 2 provide the ideal treatment, with fast action and long-lasting effects.

Greenkeeper 1 and Greenkeeper 2 are part of the unique Hi-lite range of products. They are lightweight, so there's less to carry around, and flow smoothly and evenly. They also reduce the danger of scorching.

Greenkeeper 1 contains the correct balance of nutrients for Autumn and Winter application; Greenkeeper 2 for Spring and Summer.

Both are suitable for all types of fine turf and encourage your grass without causing excessive growth at the end of the season.

Conveniently packed in 62½lb poly-bags, they are ideal for both indoor and outdoor storage.

Greenkeeper 1 and Greenkeeper 2. The ideal treatment for your fine turf – all year round.

GOLF COURSE CONSTRUCTION
ENVIRONMENTAL ENGINEERING

V.E.B. International Ltd

GREENKEEPER
SOUTH OF FRANCE

The construction of a 27-hole golf complex at St. Cyprien in the south of France is at its completion stage and the client, Golf St. Cyprien S.A., has retained this company in association with Donald Harradine of Switzerland to maintain the course for a period of three years. A French greenkeeper is at present on the site, however we are seeking a replacement greenkeeper to work under Donald Harradine in this challenging and exciting post.

Single men preferred, however accommodation is available for married men if necessary and limited transport will be provided. Candidates should be time-served greenkeepers with experience in Jacobsen equipment, impeccable turf maintenance, fertilizers, fungicides and horticulture.

Relocation expenses will be considered for the right candidate who should be free to commence work during 1975 and an attractive salary is offered.

This is an ideal opportunity for a British greenkeeper to add to his experience under one of the leading turf experts in Europe.

Write with your curriculum vitae stating whether you speak any French to:

SECTION NEWS

South Coast Section

Chairman:
E. R. JAMES

Hon. Secretary:
MRS. J. STIMSON
North Wilts, G.C.
Devizes.

THE FOURTH Annual General Meeting of the South Coast Section was held at Stoneham Golf Club on Thursday 8th May 1975 at 8.10 p.m. The meeting was very well attended. In the absence of the President, Mr. James took the Chair.

The minutes of the Third Annual General Meeting held at Ampfield Par Three Golf and Country Club on 16th May 1974 were taken as read and duly adopted and signed. A report on the activities of the past year was submitted by the Hon. Secretary and she also presented the Financial Statement for the year ending 30th April 1975; both reports were considered to be very satisfactory and were duly adopted.

The following officers were re-elected en bloc:—

President: J. H. Fry; Chairman: E. R. James; Vice-Chairman: E. Brown; Committee: E. Fox, P. Marsh, J. Payne, T. Smith, J. Stimson, E. West and W. Young. Hon. Secretary: Mrs. J. Stimson.

The Tournament Organiser outlined the details of a Knockout Competition which he hoped to introduce in the coming year and members were given the opportunity to express their views.

The Hon. Secretary reported that the Section's first dinner/dance held at Hythe last Christmas had been a great success and she was instructed to make the necessary arrangements for a similar evening this year. Members were invited to suggest possible venues and dates for the 1976 Spring and Autumn Meetings and the Hon. Secretary was instructed to approach Bramshott Hill and Blackmoor Golf Clubs respectively.

A vote of thanks was given to Jim Fry, Eric James, Eddie Fox, Eddie West and Nita Stimson for their efforts during the past years; the Section had found its feet again, a 100 per cent increase in membership had been achieved and all the events organised had been a success thanks to the active support of the members. The trade representatives were also thanked for their support during the year and for the generous contributions to our prize funds and also for helping at the Isle of Purbeck Tournament. Their assistance at the meetings had been invaluable. Special thanks were also expressed to the Secretary, Captain and Bar Steward at Alresford Golf Club for giving us the courtesy of their clubhouse for our winter meetings and also to Mr. J. Smellie who had audited the accounts. Eddie Fox was presented with half a dozen golf balls in appreciation of his hard work during the year.

Two points were raised under "any other business" and it was resolved firstly that the Committee should continue to invite special guests to take part in the Autumn Tournament and for prizes to be awarded when merited (the Cup to be awarded to the best Member player as before) and secondly that, in an attempt to keep postage costs down, circular letters be sent to head greenkeepers only (where appropriate) instead

FAST, EFFICIENT TURF FIBRE REMOVAL

with the

sisis VEEMO

Those who have striven to improve standards with only drag rakes, chain-harrows and other improvisations will surely welcome the SISIS Veemo, of British design and manufacture. The Veemo provides a fast, efficient means of turf fibre removal and of cutting horizontal growth, economically on large areas such as golf fairways, cricket outfields, parkland, etc., which have perhaps deteriorated over a period of years.

A single Veemo unit, containing wheel driven, vertically cutting blades can be towed by the SISIS Auto-Trac or similar small tractors. Gangs of three or five units can be towed by bigger tractors on larger areas. Patents applied for.

of to each individual greenkeeper member.

Before declaring the meeting closed, the Chairman proposed a special vote of thanks to the Secretary and Members expressed their appreciation in the usual way.

We are pleased to welcome a new member to the Section, Mr. S. Barker of Parkstone Golf Club, and hope his association with us will be a long and happy one.

Please note that the Christmas Dinner/Dance referred to in the AGM Report above has been arranged for Friday, 12th December 1975 at the West Cliff Hall Hotel, Hythe.

It is regretted that several subscriptions are still outstanding despite the many reminders and honorary members and greenkeepers are requested to send the necessary remittance to me immediately.

Southern Section

Chairman:

F. W. FORD
(South Herts.)

Hon. Secretary:

F. W. FORD
68 Salcombe Gardens,
Mill Hill, London, NW7
Tel: 959 2847

DETAILS of the A.G.M. 18 holes Medal played at the West Essex Golf Club on Wednesday 11th June are as follows:—

1st. A. Morton (West Byfleet) 72 net—President's Cup and travelling bag; 2nd. J. C. Morgan (Barnehurst) 72 net—association badge and tie; 3rd. F. W. Ford (South Herts) 72 net—coffee set; 4th. R. Tempest (Darenth Valley) 73 net—sun glasses.

The weather was good, the food first class and the course in excellent condition. Thanks, David, and for the very welcome beer tent at the 8th. Chairman of Greens, Mr. Gilford paid

for the beer, proceeds going to the Section Benevolent Fund. We also have to thank Mr. Gilford for the wine on the table.

Continuing with the thanks: Mr. Goss, captain of the club for presenting the prizes and those members of the trade we cannot do without on these occasions: John Field, Phil Marshall, Maurice Emm and George Nurton. The bottles of whisky raffled were donated by Bob Plain, Flymo and Huxleys.

A very enjoyable day marred only by the absence of David Craig who has recently suffered an ankle injury. Best wishes, Dave, and a speedy recovery from us all.

A.G.M. details. Before reading the minutes of the last meeting the Chairman asked everyone to stand in silence for a few moments in memory of our late President, Jack Wallis-Arthur. The minutes were read, signed as correct and in answering a question arising from those minutes the Chairman said that although there had been about 20 members interested in the New Orleans trip the costs had proved too high.

Following the Secretary's and Treasurer's report on the Section and Benevolent Fund accounts they were adopted on the proposal of E. Johnson, seconded by C. E. Ryan. Election of Officers. President. J. K. Glass. Vice Presidents. D. M. Craig, F. W. Hawtree, G. P. Simpson, P. A. Marshall, K. J. Hemingway, F. Brittin, V. L. Waeland, J. M. Thomas and J. Varney. Chairman. F. W. Ford. Vice Chairman. D. S. Gould. Committee. D. S. Gould, D. H. Major, C. E. Ryan, R. Tempest, J. Kirkpatrick, E. W. Johnson, H. Brown and D. Jones. Executive Representative. D. H. Major. Hon. Secretary and Treasurer. F. W. Ford.

John Field congratulated the Chairman on the way he had conducted the meeting and there being no other business the Chairman called for a vote of thanks to the President and declared the 1975 A.G.M. closed.

The 1975 Autumn Tournament will be played at the Walton-Heath Golf Club, Tadworth, Surrey, on Tuesday

9th September. For the benefit of new members, the competition will be a 36 hole Stableford—4 Ball A.M., Green-some P.M. Members wishing to play should write to me stating Name, Partner's Name, Club and Handicap in Block Letters. Partners MUST be a Member of their own golf club.

Closing Date Monday 25th August.

A warm welcome is extended to new members whose names are listed below:—D. Walsh (South Beds), J. F. Knight (Rye), M. O'Brien (Boyce Hill) and S. R. Groves, D. H. Lucas, and N. S. Weller of the Addington Court Golf Club. Welcome also to First Assistant P. E. Taylor, now at Home Park, and First Assistant A. P. Burge now at Ellesborough. Both are from the Northern Section.

Best wishes to J. Donald who is now Head Greenkeeper to Wanstead G.C. and A. E. Hill at Ruislip G.C. and to Ivor Bunting who has taken over St. Nazaire in France.

"Tailored" to your needs—

A COMPLETE RANGE OF TURF DRESSINGS

TAYLOR'S SUPER FERTILISER

Spring/Summer Grade

This fertiliser has no equal for fine turf areas, and is widely used by parks departments and other authorities for bowling and golf greens. It is a scientific blend of organic and inorganic materials, and is a complete balanced grass food which may be applied from March to August. First dressing at 2 oz. per sq. yd., subsequently 1 oz. per sq. yd.

TAYLOR'S COMBINED FERTILISER AND SELECTIVE WEEDKILLER

may also be applied now at 3 oz. per sq. yd.
(about 8 cwts. per acre).

'GOLD-N' the fertilizer to last the season

Slow release nitrogen fertilizer from **ICI** (32% N)

This 32% N Fertilizer is an absolute boon to everyone concerned with superb grass, whether it be for a sportsfield or for general amenity areas.

It gives an initial boost within a few days, then a steady supply of nitrogen for up to 5 months. It keeps the turf lush and green all season and minimises leaching and scorching.

So you need only apply it once, by hand or machine. That's a great saving on time and labour.

'GOLD-N' is a highly efficient source of nitrogen—it goes further. And virtually all the nitrogen is usable, even at low soil temperatures.

It flows easily and is free from dust and there are no disease risks.

You can use it indoors on glass-house crops, or outdoors on vegetables, pot plants, fruit and shrubs as well as on grass.

It's another great winner from ICI.

Sheffield Section

President:
S. K. ARNOLD

Hon. Secretary:
B. V. LAX
153 Kilton Road,
Worksop, Notts.

OUR first golf competition of the year was held at Abbeydale Golf Club on June the 11th.

The competition was our President, Mr. Arnold's prize, 30 members took part in the 18 hole Stapleford competition.

The weather was glorious, and we found Abbeydale in really fine condition. "Well done, Eric!" The scores reflected the fine conditions, and the winner, R. Whitehead, scored 39 points, second also with 39 points was D. Chappell, but Ron took the first prize on the first 9 holes. The other prize winners were B. Lunn and A. Spencer.

Many thanks to our President, Mr. Arnold, for his generosity in providing the really fine prizes.

A GOLF match between a combined greenkeepers' and Vice-Presidents' team representing Handsworth Golf Club was held on the evening of the 12th June at the Handsworth Golf Club. On this wonderful summer's evening a pleasant game of golf was enjoyed by all, the Handsworth team eventually won the honours with a margin of 8 games to 4. The golf was followed by an excellent meal provided by the Handsworth G.C., the wine with the meal was kindly donated for the evening by the Golf Club Stewards' Association. After all had wined and dined we came to that part of evening which provides representatives from each side with the chance to express their thoughts and gratitudes.

E. Ballinger, the Captain of Handsworth G.C., welcomed the Midland Greenkeepers and the Vice-Presidents of the Midland Section of B.G.G.A. He

Mark envelope "Groundsman".

Just like your club, your turf needs a professional.

For expert help and advice with their game, most club members have a professional to turn to.

But who can a green keeper turn to for help in keeping his turf up to par?

His own professional: SAI TURF FOOD

Courses like Carnoustie and Muirfield use SAI Turf Foods. It works wonders with grass.

It comes in the form of mini-crumb granules which makes it easy to spread.

It also stays where it's put, releasing its goodness slowly into the soil to strengthen grass growth.

For stronger, greener, cleaner, healthier turf, try SAI.

was able to tell us that Carl Bretherton who had for many years organised this event had asked Handsworth G.C. to take over the organising and running of this popular event. Mr. Bretherton sent his regrets for not being able to attend. Mr. Ballinger informed us that the Handsworth team consisted of all the Officers and Committee Members of the club and also the club's 1st and 2nd team Captains and that this showed the respect the Handsworth G.C. held for the Midland Greenkeepers. To finalise his speech Mr. Ballinger congratulated Vic Smith on becoming the next Chairman of the British Golf Greenkeepers Association.

Speaking on behalf of the greenkeepers team, Vic Smith thanked the Handsworth Golf Club for their hospitality during the evening and for their generosity in providing such a fine meal which was paid for by the club. Vic also praised Mr. and Mrs. Randell, the steward and stewardess, and the rest of the indoor staff who had contributed

so much to making the evening a success. Vic apologised for the greenkeepers who had failed to turn up and said that he would be having words with the people involved at a later date. Mr. N. Russell said that he and the other Vice-Presidents who had been invited to play would like to express their gratitude to both the Handsworth G.C. and the Greenkeepers Association.

The Autumn Tournament will be held at the Druids Heath Golf Club, Stonnall Road, Aldridge, Staffs, on September 25, 1975, by kind permission of the directors of the club. Please be at the club by 9.30 a.m. at the latest. The closing date for the tournament is September 7.

Tender loving care. That's what grassmanship is all about. Treat your grass with kindness and consideration and it will respond with healthy growth, consistent development. And what's the kindest thing you can do for your grass? Treat it to Neal's Kettering Loam (Neal's prepared Top Dressing or Neal's 1/4in screened loam). It introduces the essential humus, encourages the production of 'tillers', protects roots from extremes of weather and the effects of close mowing, and maintains a 'true' lawn surface. Use Neal's Kettering Loam. And show that you care.

IT IS with regret I have to report the death of Mr. R. E. Kirk. Mr. Kirk was a vice-president of long standing he was formerly Head Greenkeeper at Horsforth G.C. and later a representative of Thomas Greens, the mower firm.

Mr. Kirk was in his seventies and only a fortnight earlier had attended the Northern Section Spring Tournament at Moor Allerton G.C.

Presidents Day was held on 26th June at West Bowling G.C. on a wonderful sunny day when 50 greenkeepers and other guests took part.

The absence of rain had made the fairways tricky, but the greens were in

very good order thanks to Donald Roberts and his staff who must have worked very hard to produce these conditions for this popular tournament.

Many thanks are due to our President, W. Mountain, for organising the day, and providing the wonderful array of prizes, which were presented by the captain of West Bowling G.C., Mr. J. McGrath.

Prizewinners were as follows: **1st Division** 1. J. Storey Net 67, 2. D. Roberts Net 68.

2nd Division. 1. R. Smith Net 57, 2. C. Garnett Net 65, 3. A. Ling Net 67.

Visitors. 1. D. Meeham Net 62, 2. J. McGrath Net 64. **Booby** A. E. Boyes with a gross 115.

Mr. Stephen Heaton, an assistant at Ilkley G.C., has broken a leg. It could be ten weeks before he recovers sufficiently to return to work.

Mr. Peter Blacker, Head Greenkeeper at Woodsome Hall G.C. has been appointed Yorkshire representative for Rigby Taylors, the Bolton-based firm.
