The British Golf

Greenkeeper

Ransomes

for a cut
ABOVE
the average

Ransomes Marquis is used for the Centre Court at Wimbledon, the Royal and Ancient at St. Andrews and famous pieces of turf all over the world. Ransomes make this superb machine for constant work on large fine lawns of an acre or more in extent. It has all the luxury features one would expect in a mower of this quality, but outstanding amongst them are its 4-stroke engine with power to spare and a separate clutch which allows cutting to continue with land-roll drive disengaged.
