

For the
FINE CUTTING
of up to one acre

Ransomes MARQUIS

Mowing with the Ransomes Marquis means mowing with smoothness, precision and control, leaving an excellent finish. The 4-stroke engine has ample power in reserve and a separate clutch allows the machine to continue cutting with the landroll drive disengaged. There are two models, 18" and 20" cut, both have new extra-large grass boxes.

Both are really fine machines

Ask your Ransomes Area Sales and Service Distributor for a demonstration and remember, when you invest in a Ransomes machine you buy from a range of mowers which cover *all* your grass cutting requirements.
