

VERDANT

All the technical resources and experience of Parker's has gone into the development of the Verdant range of seeds and compound fertilizers. Their economical application means a great saving in cost and 12 different mixtures of Verdant Grass Seeds coupled with seven Compound Fertilizers are available to suit your exacting requirements. Verdant products are available for immediate delivery. Whatever the season be sure to order from Parker's the correct seed or compound for use on the finest turf or outfields.
