

F. G. Hawtree Memorial Fund

Three Greenkeepers attended the Sports Turf Research Institute under the auspices of the F. G. Hawtree Memorial Fund during the year, and our thanks are due to the Clubs for their financial assistance with the expenses of these courses.

Sports Turf Research Institute

Once again we say thank you to the S.T.R.I. for their continued assistance to members when necessary.

In memoriam

We record with sorrow the death of the following members announced in the British Golf Greenkeeper.

Tom Auld, One time Chairman, North East Section; H. G. Dixon, Southern Section; Wally Drewitt, Southern Section; Jock Drummond, Southern Section; Harry Fry, Chairman, Welsh Section; John Parker, One time Hon. Sec./Treas. Northern Section; W. Roberts, East Midland Section.

Special Prize 2nd 9 Holes, Andrews “Cyclone” Tankard...D. Summerell		31½

BOMFORD BANDIT FLAIL MOWER

Unchallenged on golf courses, parks and sports ground outfields. The Bomford Bandit mows and mulches in one pass, cutting a broad swath 67 inches wide and covering 2/3 acres per hour under normal conditions. Fits any tractor over 30 b.h.p.

Flail Knife cutters – are robust and do not require sharpening. Mulching action swiftly rots material – avoiding after collection problems and grass lumps affecting ball play.

BANDIT 2500 model available with a big 8' 3" cutting width.

New Products

NEW SPRAYER

Cooper, Pegler and Co. Ltd., the well-known manufacturers of agricultural and horticultural spraying equipment and pumps, exhibited at the Institute of Groundsmanship Machinery Exhibition, Motpur Park, 18th-20th September.

An entirely new concept in lawn treatment, however was represented by the **Trundle Sprayer**. This is a new combination: the CP3 4-gallon Knapsack Sprayer mounted on a trolley, the pump being powered by the wheels for application of weedicide, etc. Also specially featured were: **The Mini-Trailer Unit** comprising a 20-gallon tank and diaphragm pump, powered by a 2-stroke petrol engine, which is capable of delivering up to 200 lbs. pressure and three gallons per minute. The unit can be adapted by fitting different booms to spray selective weedkillers on lawns, total weedkillers, etc: up to 100 feet of hose can be employed for fruit tree washing and general tree spraying.

The Allen Chanedrane '4' suits my existing team to a tee! . . .

. . . says John Eaton, Managing Director of John N. Eaton, Agricultural and Land Drainage Contractors of Stanton Harcourt, Oxford, at present engaged on drainage work for two new 18 hole golf courses at the Fox Hills Golf and Country Club, Chertsey.

The job is to lay approximately a quarter of a million feet of drainage tiles on the two courses being constructed by main contractors Golf Landscapes Ltd., of Brentwood.

Tee Signs—A new Service

A new sign-making service for golf clubs is being launched by British Building & Engineering Appliances Ltd. (BB&EA) of Sandy, Bedfordshire.

The move follows the LGU ruling concerning the display of information at ladies' tees on Britain's club golf-courses.

BB&EA has been quick to design a weather-resistant 'Tee-Sign' which meets the LGU recommendations in layout and colours used. The 'Tee-Signs' measure 14 in. across by 8 in. high and have Post Office red characters on a brilliant white background. The message is heavily embossed on to the sign to ensure legibility from as far as possible. At top centre the initials LGU are shown with the hole

Keep turf at its best -all season

with a single feed from new Gold-N

Gold-N is completely different from conventional turf fertilizers. Following an initial boost of nitrogen, it supplies this vital nutrient slowly and continuously over a period of 3 to 6 months. All from a single application!

Constant Quality

This steady supply maintains turf at its best. Keeps it thick and green. There isn't the intermittent "too lush, too little" effect of more soluble fertilizers. And because Gold-N resists leaching in wet weather, grass vigour is maintained even on free-draining soils, golf courses, public open spaces and reclaimed derelict sites.

It's Consistent

Gold-N minimises scorching, tolerates variations in temperature and moisture. And because it's made to rigid specifications, every bag is as good as the next. It's easy to handle and spread - by hand or machine. And it's hygienic so there's no danger of the diseases associated with organics like hoof and horn. What's more the nitrogen content is virtually all usable.

Superior Performance

Gold-N saves money by eliminating leaching and other wastage. It works economically in situations where perhaps five or six dressings of the usual fertilizer would be required - keeping time and spreading costs to a minimum and increasing playing time. It will help to transform sparse growth areas to lush swards in one or two seasons and after only one application per season.

For full details of Gold-N, contact:
England & Wales - Chipman Chemical Co., Horsham, Sussex EH6 7EN.
Tel: Horsham 60341

Scotland - SAI Horticulture Ltd., Hortus House, 3 John's Place, Edinburgh. Tel: 031 554 5451/6

N. Ireland - Richardsons (Ulster) Ltd., 1 Short Strand, Belfast BT5 4BS.
Tel: Belfast 57424/5/6

Eire - ICI (Ireland) Ltd., 5/9 South Frederick Street, Dublin 2.
Tel: Dublin 771831

NEW
Gold-N
keeps grass lush
and green 

number beneath them. The tee to green distance is shown below the number in both metres and yards.

The reverse of the sign, which stands on a spike, is painted Grass Green.

Because every 'Tee-Sign' will be different, they will be sold by the course in sets of 9 or 18 at £38.25 and £76.50 (VAT exclusive) per course.

BB&EA is based at 63/65 London Road, Sandy, Bedfordshire. Telephone: Sandy (0767) 80291.

Thomas Green & Son Ltd - Old and New

Following the acquisition of Thomas Green and Son Limited by the Industrial & Commercial Finance Corporation Limited, a plan was implemented 18 months ago to revitalize Greens Mowing Equipment business. At Motspur Park in September the first evidence of Greens new developments was displayed in the form of a new motor mower.

Greens also exhibited variations on their well established Ranger Gang Mower series, and interesting developments in this field can be seen.

In support of these new exhibits will be their well known Zephyr and Greensmaster range of motor mowers and traditional style trailed and triple mounted Gang Mowers.

Penncross Creeping Bentgrass

Twyfords have recently introduced a new Creeping Bentgrass called PENNCROSS. This fine leafed bent is ideal for use on golf greens and ornamental turf, as it establishes very quickly, giving a closely knit, uniform putting surface in a matter of months. PENNCROSS can be used for over-seeding bare areas, to thicken up the sward. The seed is so fine that it should only

be sown at 1/5th oz. per sq. yard. The greens of several new golf courses have been sown down with PENNCROSS during the last two years, which are giving excellent results.

Warren's Turf Nursery will be exhibiting their outstanding A.34 Kentucky Bluegrass in conjunction with their European distributors Hurst Gunson Cooper Taber Ltd., at the Institute of Groundsmanship Exhibition, Motspur Park, this year.

Samples of turf from the first crop of A.34 to be grown in this country will be on show and one of the franchise growers will be in attendance to discuss all matters relating to commercial turf production.

A.34 is rated first by leading Universities doing turf research in the U.S.A. and it is used extensively in that country on golf courses and sportsfields because of its ability to recover quickly from injury. No lawn grass will survive in all shade but A.34 is the only Bluegrass yet released that will tolerate shade up to 65 per cent of the time.

GREEN GRASS GROWS ALL AROUND

Anyone can show you lush green grass—on someone else's course.
RainBird sprinkler features let you grow your own.

- * The highest pop (2 $\frac{5}{8}$ in). Grass can not distort the distribution pattern so there is uniform application.
- * Nozzle features ensure a tight, wind-resistant stream for longer throw plus efficient close-in watering.
- * Positive retraction spring prevents head sticking up.
- * Positive seals ensure maximum pressure through nozzles, and ease servicing.
