

# The 100,000 Hole Golf Course

Better aeration  
means  
better golf

Aeration, properly carried out, creates conditions which will produce a better sward and consequently a better playing surface. Proper aeration allows air to circulate more freely around the roots thus assisting respiration.

In addition it also \* ENCOURAGES BACTERIAL ACTIVITY \* PROMOTES A VIGOROUS ROOT GROWTH \* IMPROVES SURFACE DRAINAGE \* RELIEVES COMPACTION \* AIDS ARTIFICIAL WATERING \* ASSISTS FERTILISERS TO REACH THE ROOTS \* ENABLES TOP DRESSING MATERIALS TO BECOME INTEGRATED WITH TOP SOIL.

Remember, however, it must be *proper* aeration.

There are many aerating machines on the market but not all of them perform the function adequately.

There must be *maximum penetration* combined with *minimum surface disturbance*.

For FREE advice on the best machine for your area why not consult us - we are the acknowledged experts on all types of aerators, turf maintenance machinery and allied products.

*From sowing to mowing*
