

# Let's get down to Grass Roots

Hydrowet® Wetting Agent improves the quality of your turf even after only a few applications.

Hydrowet® is an advanced product which modifies the surface tension of water and enhances its ability to penetrate hard soil and dense thatch. It allows water to percolate down to grass roots. It also disperses rainfall more evenly through the soil and helps to avoid problems of standing water.

Hydrowet® is available from Rigby Taylor in 9.5 litre containers to cover 3,800 sq.m.
