

Hard work, and how to avoid it.

A little light reading of this booklet can actually help boost your work output, and save you from the heaviest of tasks.

It details the tough new Series 20 Compact Tractors from Ford New Holland. Six superbly-styled and engineered tractors ranging from 14.5 to 41.3 hp.

All with class-leading hydraulic capacity. Quieter, more fuel-efficient engines. And most with 4 wheel drive either as standard or optional.

You'll learn how clever ergonomic design makes them easier, more comfortable machines to operate; and how Ford New Holland back-up will keep the new Series 20 working hard for years to come.

And you'll read about the all-new deluxe cab available on the larger machines (ideal for those who like a really easy time of it).

So don't just sit there. To get the brochure and name of your nearest dealer, please write to Ford New Holland, PO Box 193, Sudbury, Suffolk, CO10 6GZ.

— The New 20 Series —
Compact Tractors

**The Force
for the Future**

A quality company. A strong dealer

Most compact tractors demand that you make your tools fit the way they are designed. With Ford Series 20, it is the other way around.

We shaped our new tractors to fit the requirements of their human operators. They are the only compact tractors that measure up to high ISO standards for consistent ease of operation.

You will find that Series 20 controls are not just "reachable". They are all within easy, natural reach. The main shift lever and

hand throttle are up in the dash, conveniently close to the steering wheel.

The high-backed enclosed seat adjusts fore and aft on an inclined track. That puts you in just the right position to reach the pedals and controls, whether you are tall, short or in between.

The deck is large and enclosed, so it gives you room to stretch and contributes to the comfortable overall level of these tractors.

Quiet plus.

The Series 20 cab is a really comfortable cab available for all Series 20 tractors from 13.1 hp to 40 hp. This deluxe cab shields the operator from excessive weather, noise and vibration.

Wide expanses of tough safety glass ensure excellent visibility. A large clear protective visor across and the surrounding side and rear windows can be locked in open or closed positions. Standard cab equipment includes a 3-speed brake and divider.

The new roomier 20 cab looks better.
