

# The professional power source

Whether you're mowing, loading or cleaning up, a John Deere Hydrostatic Tractor makes the task quick, easy and efficient.

Quick, because the excellent John Deere attachment system lets you change implements in minutes. And in many cases without tools.

Easy, because hydrostatic drive means there are no gears to shift.

And efficient, because John Deere gives you separate or simultaneous control over both mid and rear PTOs.

Find out all the facts on John Deere's four liquid-cooled diesel models from 11.9 to 24.6-kW. See your dealer for the proper power source for your profession.

# There's nothing to beat a **TORO** Reelmaster 216

Lightweight and extremely agile, the Reelmaster 216 guarantees a truly superb quality of cut ... fast and efficiently. Compare this triplex mower with any 'so-called' competitive model and it's easy to see why the Reelmaster leads the field.

Large grass baskets are simple to attach and remove. Controls are a 'joy' to operate and with TORO's exclusive single knob (no tools required) adjustment, the operator can quickly achieve precision bedknife to reel contact. With the addition of the new three wheel drive model there's no stopping the best in the business.

For added performance and versatility, the Reelmaster 216 features 3-wheel drive. And a 3-wheel drive kit is available for earlier models, too.

For all the facts and demo details, have a word with your nearest TORO dealer or contact
