

Kubota Tractors for Turnberry

When George Brown arrived at Turnberry two years ago from Broom Park in Kent, he was faced with the situation of taking over a championship course which needed an equipment update.

The new owners – NITTO KOGYO of Tokyo were positive in their forward planning. Turnberry had to be, and remain, a major course and a con-

tinuing venue for the Open Championship.

Budget plans were agreed and a schedule of investment drawn up to meet the new owners commitment to the future of golf in Scotland.

Included in the schedule of investment was a requirement for two new tractors.

After looking at all available tractors and many

years of practical experience, George was convinced that the ideal golf course tractor was in the 30-35hp mark, four-wheel drive, power steering and low PSI.

At SCOTSTURF '87 at Ingliston, George took the opportunity to take a close look at various tractors on the market. Attracted to the overall package Kubota had to offer, an

appraisal was made of the Company, its product range, and Dealer back-up. Subsequently, a demonstration was arranged at Turnberry of Kubota products suitable for the course requirements.

These demonstrations led to the purchase of two Kubota L2850 tractors, one fitted with a back-hoe and loader.
