

THE NEW FORCE IN GROUND SUPPORT

McCONEL
DABRO

Two powerful names unite and immediately there is a muscular new range of ground control equipment you simply must not ignore if quality, dependability and operational reliability are your needs.

McConnel Dabro combines McConnel's engineering excellence with Dabro's innovative approach to Ground Support and Maintenance.

The result is Britain's widest range of implements for the Ground Support market from 14hp to 100hp. Tailored for all power sources including turf maintenance vehicles and other specialist units.

Backed by top-class local dealerships and a solid 12 months' warranty.

Call now for details of your nearest dealer.
