TEST MATCH

SCORE CARD

Tests show that new Tritox scores in every match.*
% weed control 4 weeks after application.

	Tritox	Brand leader
Plantain	89	74
Yarrow	97	91
White clover	89	74
Daisy	91	69
Mouse-ear chickweed	86	68

* Turf weed control trial results — Levington Research Station

1st. Test: weed control

Extensive trials by Levington Research Station staff show that Tritox has a faster kill of common turf weeds — and it is effective against 'difficult' weeds such as knotgrass. They're not just knocked out — they're dead.

2nd. Test: value for money

Tritox proves so efficient there is less need for a second application. You use less product, less time, less labour — and save money.

3rd. Test: formulation

Tritox has been approved under the Agricultural Chemical Approvals Scheme, an independent endorsement of product efficacy. The active ingredients are MCPA, Mecoprop and Dicamba.

4th. Test: packaging

Tritox is easy to handle and apply. It comes in sturdy 5-litre and 20-litre polythene containers. We even attach the instruction leaflet so that it's always at hand.

5th. Test: distribution

Tritox is widely available through Fisons national network of stockists. This is the breakthrough in weed control you've been waiting for. Put it to the test!

TRITOX

SELECTIVE TURF HERBICIDE
Proved better in the field

Walkover Declared

With sales of soluble and liquid products on the increase, there is a need for equipment other than watering cans and hose-end dilutors to apply these products quickly and accurately over medium to large areas.

The new Walkover Whippet at £48 (plus VAT) is now on the garden market following field trials in the amenity turf sector, where its 24in big brother has provided the country's professional groundsman with a cost-saving piece of spray equipment.

The Whippet, with its 12in spray pattern, has a light but durable chassis plus a ten litre container mounted on wheels. It is capable of covering 100 square yards in five minutes.

Full details from Walkover, 21 London Road, Great Shelford, Cambridge CB2 5DF. ☎ 0223 842726/844288.

New Amenity Grass Seed Mixtures Now Available

Hunters of Chester is now offering two lawn seeds, Supreme and Sovereign, which are also suitable for golf and bowling greens and cricket squares. Supreme is made up of 70 per cent Frida chewings fescue and 30 per cent Highland brown top bent, while Sovereign contains 50 per cent Dawson slender creeping red fescue, 30 per cent Waldorf chewings fescue and 20 per cent Highland brown top bent.

Other mixtures in the range include Sports lawn seed (golf tees, tennis courts, hockey fields and cricket outfields), Outfields mixture and Sportsfield renovation mixture

Four More For You

Supaturf Products has launched four new products.

Fertiliser SSP/SR (15-4-4) is formulated to reduce frequency of application and, by containing part of its nitrogen content in the form of IBDU, gives slow-release properties and resistance to leaching. The nutrient-release pattern is geared to the nutritional needs of the turf and makes optimum use of available plant foods. Phosphate and potash are included in a balanced ratio to encourage healthy and even turf growth.

Supaturf No 7 Grass Seed is recommended for heavily worn fine turf areas. Fescues and Browntop combine to form a compact fine-leaved sward with good drought tolerance. The inclusion of turf-type ryegrass perennials gives rapid establishment, high-wear tolerance and strong root structure.

Regulox K offers up to 14 weeks control of all grasses including Ryegrass. The new improved formulation controls production of grass seed heads and promotes production of finer grasses in sward. If required, it can be mixed with selective weedkiller. Regulox K gives five to seven weeks control for the following spring when sprayed during autumn.

Finally, Atrinal Plant Growth Regulators for pot plants, hedges, ground cover plants and ornamental shrubs cuts maintenance costs by reducing mechanical trimming of hedges and shrubs, promotes branching and improves shape by enhancing foliar cover on lower, often stripped parts. ☎ 0733 68384.

(soccer and rugby pitches).

Completing the line-up is Wasteland general mixture, which provides a quick green cover and can be grazed or mown.

With this mixture, it is recommended that Hunters' Fix 'n' Grow clover inoculant be used to ensure good clover establishment.

Prices range from 73p/lb for Wasteland general mixture to £1.40/lb for Supreme lawn seed and quantity discounts of up to 20 per cent are allowed on orders of more than 110lb.

For further information, contact Brian Hunter on 0422 823787 or Peter Hunter on 0244 47574.

Channel News

A cross-section of the new ditch channel from Wener And Longstaffe.

A new bowling green ditch channel, designed to comply with the laws of the game, has a high-backed gully made from glass reinforced cement. This two metre unit, weighing about 37 kilos, is quickly installed and easy to handle compared to the normal two foot precast concrete sections. Four corner units are available to complete the set.

From Wener and Longstaffe Amenity Landscaping, the ditch channel gives a 235mm difference in height from the top of the green to the top of the bank. This allows for turf to be placed over the low side and, so, protects the woods as they fall into the gully.

It is available as part of a package enabling clubs to buy the channel complete with synthetic grass backing (to further protect the woods), adhesive and infill. Low-backed gullies are also available in glass reinforced cement.

Prices and further information from Wener And Longstaffe, Amenity Landscaping, First Floor, 33 High Street, Barnet, Herts EN5 5UW. ☎ 01-441 0189.

For Safety's Sake

The Health and Safety Executive has published a new guide to the Poisonous Substances in Agriculture Regulations, which came into operation last August. Clearly illustrated, it provides advice for all who work and distribute pesticides, whether self-employed, an employer or an employee.

A Guide To The Poisonous Substances In Agriculture Regulations 1984, from HM Stationery Office or booksellers, costs £4.20.

HYDRAULIC HY-RANGER
Triple (7 ft.) & Quintuple (11 ft. 6 ins.)

RANGER TRAILED & HY-RANGER MOUNTED GANGS
30 ins. & 42½ ins. gangs to give large choice of cutting widths

In the battle to maintain fine grassed areas, there is no finer weapon than a GREEN'S mower. Every machine is built to cut in even the worst conditions and built to last.

Every machine is designed for minimum maintenance and when that seasonal maintenance is required our watchword is accessibility.

When a spare part is needed our central stores pride themselves on being able to deliver that part within 24 hours (often for machines much older than their operators!).

We can help make your task easier, and more cost effective. Call us for information and advice, and the address of your nearest stockist.

An aerial photograph of a golf course. At the top, there is a large, irregularly shaped sand trap. Below it, a person wearing a bright yellow protective suit is walking on a green, holding a long-handled tool. A red flag on a pole is also visible on the green. The background is a vast expanse of green grass.

Q. If one man needs 70 litres of herbicide solution to spray seven 600 sq.yd.golf greens with a conventional sprayer, how many litres of Verdone will he need to spray them with a Nimbus sprayer?

A. 5 litres. How do you make that out?

Well, it's quite simple really: the Nimbus is vastly more efficient, quicker, cheaper and easier to use than any other spray system.

It has a battery driven atomiser disc that distributes droplets of oil based herbicide of exactly the right dimensions – 200-300 microns (at maximum spray width).

That makes the Nimbus far more efficient simply because less of the spray drifts away or drips off the plant.

In fact it uses the herbicide so sparingly that 5 litres can cover up to half a hectare of ground. That's how it manages to work out so much cheaper.

And because one back-pack full of herbicide goes so far the chap using it doesn't have to continually stop and refill. That's the main reason why the Nimbus works out so much quicker.

Even when he does stop and refill the task's a lot easier than usual: the three controlled droplet application (c.d.a.) herbicides for the Nimbus come pre-packed and ready for use straight from the pack. There's no need to cart large volumes of water around, no measuring and mixing and no need to carry a large tiring back-pack of diluted herbicide.

Bullseye c.d.a. is a total herbicide ideal for early season application to roads, footpaths and uncropped land.

Snapper c.d.a. is a total herbicide ideal for use from April onwards on the same sort of ground.

Verdone c.d.a. is a selective weedkiller ideal for late spring and summer use on established greens and other turf areas.

(All three will be available from January '85.)

Which just about covers everything from the club car park to the 18th hole.

Q: What should you do next if you think that all sounds like a rather neat idea?

A: Get in touch with ICI and find out where your nearest Nimbus dealer is.

Contact: Farnham
(0252) 724525.

Professional Products

Appointments

GARESFIELD GOLF CLUB

invite applications for the post of

HEAD GREENKEEPER

from persons of proven ability and experience in all aspects of course maintenance, who have a thorough knowledge of machinery maintenance and the ability to direct and motivate staff.

Salary circa £6,300. Rented accommodation may be available.

Applicants should apply in writing, giving brief details of prior experience to:-

**THE HONORARY SECRETARY,
GARESFIELD GOLF CLUB,
CHOPWELL,
TYNE & WEAR. NE17 7AP**

CHESTERFIELD GOLF CLUB

invite applications for the position of

HEAD GREENKEEPER

Applicants must be fully qualified, experienced, able to show proven ability in all aspects of golf course maintenance in addition to being capable of supervising staff.

Preference will be given to persons holding the National Diploma in Turf Culture or the relevant City & Guilds Certificate.

The successful applicant will be offered a service tenancy of a detached house located on the site.

Salary negotiable.

Applications in writing to:-

**The Honorary Secretary,
Chesterfield Golf Club,
Walton,
Chesterfield S42 7LA.**

THE NORTH WORCESTERSHIRE GOLF CLUB LIMITED

Applications are invited for the position
of

HEAD GREENKEEPER

Assistance will be given in locating suitable accommodation. Salary negotiable. Apply in writing giving details of Age, Qualifications and Experience to:

**THE SECRETARY,
NORTH WORCESTERSHIRE
GOLF CLUB LIMITED,
FRANKLEY BEECHES ROAD,
NORTHFIELD,
BIRMINGHAM B31 5LP**

HEAD GREENKEEPER

required by

REDDITCH GOLF CLUB

Applicants must be fully experienced in all aspects of turf management including the use of greenkeeping machinery, and possess the ability to motivate and direct staff.

Accommodation

Good Salary

Apply in writing giving full details of experience to:-

**The Secretary,
Redditch Golf Club,
Green Lane,
