Developing and maintaining sports grounds and leisure amenities

The finest opportunity to see a whole range of developments, discuss services and techniques with experts, and check-test the latest in machinery and equipment.

Venue:

**The Royal Windsor Racecourse, Maidenhead Road, Windsor,
Berkshire.**

Dates:

17th, 18th and 19th September 1985

Times:

10 am till 5 pm daily.

Entrance:

By Catalogue £1.50. Complimentary admission to loG Members.

How to get there: (Windsor is just 22 miles west of London.)

By Road: A few minutes off the M4 Motorway (Junction 6) on the Windsor-Maidenhead road (A308). Ample car parking facilities available at £1.50 per vehicle. Coaches free.

By Rail: Frequent services to Windsor from Waterloo, Reading and Paddington with connections to all parts of the country. A complimentary coach service direct to the Exhibition grounds will operate each morning and afternoon from Windsor & Eton Central and Riverside stations.

By Air: Close to London Heathrow and convenient also for London Gatwick airports.

Organised by
The Institute of Groundsmanship,
The Pavilion · Woughton-on-the-Green ·
Milton Keynes · Buckinghamshire MK6 3EA
Telephone: Milton Keynes (0908) 676064

The main event
for the Professional
Groundsman, Greenskeeper,
Landscape Architect, Estate Owner
and Manager, Site Operator
and Local Authority
Employee.

The 41st Annual Exhibition will be held at
the Royal Windsor Racecourse on the 16th, 17th and 18th September 1986

Reasons to be a Greenkeeper reader

● *Greenkeeper* has risen to, and stays at, the top of its market sector because an 'open door' policy encourages the expression of all shades of opinion, dialogue between greenkeepers and course managers, an exchange of views between the trade, agronomists, course builders, architects, golf club members and all who are involved in course management.

● *Greenkeeper* features more independent editorial than any other publication in the industry — educational articles and association news always feature prominently.

● *Greenkeeper* carries informative advertising from suppliers large and small and there is **no** other publication that offers the job opportunities to be found in every issue of the magazine.

● *Greenkeeper* is received by an increasing number of readers and is the only publication to be mailed regularly to the expanding European market, with the German and French editions of *The International Greenkeeper*.

So, whether you are a greenkeeper or an advertiser, use your magazine, covering your industry.

Remember, it's got to be *Greenkeeper* for you!

In this month's bumper issue...

NEW

CASTAWAY

Marti Sean FarnPo

ELIMINATES THE PROBLEM!

CASTAWAY KILLS CASTING WORMS AND SETS NEW STANDARDS FOR:

EASE OF USE

Castaway is applied as a spray. No heavy drenching is needed.

EFFICIENCY

Castaway is ingested by the worms and so is effective at a lower rate of application than contact wormkillers.

SELECTIVITY

Castaway controls the problem worms feeding close to the surface, leaving those below unharmed and continuing to benefit the soil structure.

SAFETY

Castaway is safe to use on all turf and is no hazard to the operator, other people and animals when used as directed.

Sandwich setting

EIGGA's hospitality marquee at the Open Championship was a resounding success. Our picture sequence shows (below) Mr and Mrs Joe McKean and SIGGA and EIGGA members admiring the association and Greenkeeper flags; storm clouds gathering and Michael Coffey (Greenkeeper), David Jones (Ipswich) and Bill Lawson (Heswall) in conversation.

Sussex

The branch was greeted by rain for its Farmura Trophy fixture at West Hove. However, things brightened up and, half way round, we were entertained by a display of the Red Arrows over Brighton.

The result was a win for R Tingey (Holtye) on the back nine over A Barnett (Pyecombe) on 39 points, while D Lumbey, representing SISIS, finished third with 38 points. The best guest was B Ayling on 40 points.

Haywards Heath was the venue for the Sussex Cup and Tony had the course in great shape. Victory went to A Hale (17) with a net 65, followed by M Butrymowicz (24) on 70 and R Tingey (12) three shots further adrift. The best gross score was A Mackay's 84, while D Nicol (12) was the leading guest on 75.

For the third year running, Sussex lost the county match against Surrey. Played at Ifield, Surrey amassed

384 points against Sussex's 319. D Lenham and C McMillan (both Sunningdale) scored 80 points each for the visitors. As usual, Lionel had the course in immaculate condition.

The autumn tournament, for members only, takes place at Willingdon on September 22 – the closing date for entries is September 12.

Further information about the Sussex branch can be obtained from Ron Jobson on 0403 60525.

ROYAL PORTHCAWL GOLF CLUB ASSISTANT HEAD GREENKEEPER

Required for this Championship Links Course. Must be experienced in all aspects of turf management, modern machinery and watering systems. Attractive Salary. No accommodation.

Ransomes Grass Machinery

Ransomes Sims & Jefferies PLC

Ipswich IP3 9QG

Telephone: Ipswich (0473) 712222

Telex: 98174

At Ransomes we make no secret of the return you can expect, when you invest in a **Mounted Hydraulic 5**—we don't need to.

It will give you a high output—up to 7,200 acres a year. Then there's the low maintenance bill. And taking all costs into consideration, an outlay per acre of as little as £1.60.

As for performance you'll be able to judge for yourself, especially on fairways and semi-rough, where undulations make normal mowing difficult.

So with Ransomes we make no bones about our guarantee either. A full 12 months for professional usage.

Ransomes build mowers as carefully as you choose them.

CARPETITION LTD.

THE 'TUFTURF' TEE MAT —
Like a piece of firm, well sprung fairway

FOR TEE SHOTS

AND FAIRWAY SHOTS

"A British made prous hardwearing all weather tee 1.5m x 1m. Synthetic grass, bonded to reconstituted rubber underlay shock pad with 30 tee inserts, combine to give a superb playing surface. Its use is highly beneficial as a WINTER TEE, or when re-turfing tees in the playing season. Also ideal for DRIVING RANGES and PRACTICE GROUNDS both indoor and outdoor.

SHOW TIME!

The Institute Of Groundsmanship International Exhibition 1985 takes place at Royal Windsor Racecourse from September 17-19. At the time of going to Press, some 280 exhibitors had confirmed their attendance. This year will be the 40th anniversary of the event, which will be the biggest in its history with more exhibition space and demonstration areas than ever before.

Each year it seems the organisers launch a new venture at Windsor to improve the services available to exhibitors and the latest innovation is a closed pavilion adjacent to the institute's central HQ.

It was recently announced that the IOG is to adopt a new national exhibition policy, organising three national exhibitions annually. As well as the international exhibition and the indoor Scotsturf at Ingliston, Edinburgh in November, an inaugural spring show is to be staged at Victoria Park, Southport from May 13-14 1986.

A full range of literature and case histories will be available covering the use of Alginure products over a wide range of landscaping, reclamation, planting and turf-care projects. The products will include Aliginure Soil Improver, Alginure Root Dip, Essbinder Soil Stabiliser and Comtec Terraseal Process. Managing director Ben Simpson and marketing manager Malcolm Pettit will be in attendance at Windsor.

Axleline Eastern will be showing some of the wide range of tyres and wheels it stocks for the turf

and leisure industry. These will include tyres from the Bridgestone Agricultural range, a quality tyre that fits Japanese-made tractors, and also the Carlisle, well-known for mower and ATV tyres. The 18x4 Gangmower tyre will also be shown.

BASF has now become involved in the amenity market as a result of introducing the Floranid range of slow-release fertilisers and the company will be present

Bourgeins of Oxford is exhibiting the TF700 Trencher, a 34hp model

that can be fitted with a variety of attachments including a Backhoe, Backfill blade, standard or HiLift conveyors and a range of dig chain configurations. The VariDrainer, a multi-width sand splitter and a HiLift conveyor with maximum trailer fill facility, designed and manufactured by the company, will be on display. Borgeins supplies a range of trenchers from 7 to 72hp, mounted on tracks or rubber tyres. The TF700 is perhaps most suited to sports-field drainage, but the range includes vibratory ploughs for cable and pipe laying.
