# Sign Of The Times

The last few weeks have seen a number of greenkeeper conferences staged throughout the UK all the Associations having held successful meetings covering a wide range of topics. It is not surprising that such conferences are popular, for they offer the delegate an opportunity of listening to informative papers and by bringing together large numbers of greenkeepers (there were over 200 at the Elmwood College conference) the exchange of information outside the hall is considerable.

A further sign of progress is the number of greenkeepers delivering well researched papers in a highly articulate manner. In the four years since the first EIGGA residential conference the number of greenkeeper speakers has risen from none to fifteen, who spoke over the three days at Warwick University, and by common consent these were amongst the best presented.

Whilst there will always be a need for expert advice it is gratifying to note the number of greenkeepers who not only have the courage to stand before a large audience but also have the confidence in their ability as professional turf managers to share their experiences with their fellows, mistakes included.

The Warwick conference was a sell-out with several disappointed applicants being turned away. This must bode well for the future of the entire greenkeeping profession when the conference hall is full and no one even thought of slipping away for a round of golf.

## The Course Management Trophy

It is proposed to hold an inaugural meeting of an Open BOWMAKER Competition over 36 holes for the Course Management Trophy at Hankley Common Golf Club on 5th August 1986. The competition will be for club teams consisting of the Course Manager or Head Greenkeeper, Club Secretary and Committee Member responsible for the golf course. The entry fee will be £36 per team covering a snack lunch, dinner and prizes. Entry forms will be made available on application from Mr D. Lee, Secretary, Hankley Common Golf Club, Ilford, Nr. Farnham, Surrey.

The competition is the brainchild of John Harris — a member of the Hankley Common Management Committee — and is aimed at bringing together those responsible for maintaining and improving the golf course for a competitive and social day away from the pressures of their own club environment. It is hoped that the competition will become an annual event in the greenkeeping calendar.

---

## Our Cover

The famous 16th at Cypress Point Golf Club — a timely reminder for all Club Members that even in the United States not every course, has to look like AUGUSTA NATIONAL.

# COMPETITION GREEN

Finding greens which look good and play well is what every member expects, competition day or not. And fertilizers are vital to success. Now, with the new range of Fine Turf Fertilizers from ICI, grass nutrition is simpler and less time consuming.

Some of the products incorporate DIDIN\* a new idea in long-term feeding – some have magnesium and seaweed extract – all of them are formulated as organic-based mini-granules.

We've included the new long-lasting nitrogen stabilizer called DIDIN into 'Spring and Summer Feed' and 'Weed and Feed'. Initial colour response is good without excessive stimulation of leaf growth. But, more importantly, DIDIN

steadily provides nitrogen for up to three months after initial application – long after ordinary fertilizers have stopped working.

Another new idea is 'Nitro-Iron' which contains no phosphates. The 7:0:1 formula is boosted with 3% Iron to provide good green up and efficient moss control.

For winter hardiness there is 'Autumn and Winter Feed'. In this formula the major plant foods are supplemented by both magnesium and iron.

To ensure fertilizer applications meet your requirements, we offer a free soil analysis service for all purchasers of ICI Fine Turf Fertilizers.

All developed especially for fine turf – and busy Greenkeepers.

## “The Specialists”

CDC LANDSCAPE LIMITED, CHAPEL WORKS, WALDRINGFIELD, WOODBRIDGE, SUFFOLK.

A MEMBER OF THE CLARKE DEMOLITION AND CONSTRUCTION GROUP.

Take it from us!  
There's a whole lot more to  
tree surgery than a chain saw  
and a head for heights

## You'll find it all in our free catalogue

First things first; a properly trained and equipped team can save you £££££'s, by not having, or minimizing, horrifying casualties and claims, apart from the moral responsibility. It has recently been reported that chain saw accidents have halved in 3 years! Honey Brothers believe that their

organization has made a significant contribution. Among the 1001 items in our latest well-illustrated Catalogue there is the latest **Protective Clothing, Hand Tools, Climbing & Safety Equipment, Chain Saws, Ladders**, to name but a few. **Honey Brothers** organize regular

arboricultural Safety Training Courses on site in Guildford or with owners (if preferred) on their own land. Ask for details. In the meantime send for your copy of the well-illustrated Catalogue.

The  
**KUBOTA**  
 Challenge

**YOU WON'T FIND A MORE  
 VERSATILE RANGE ON COURSE.**

Keeping a course in condition all year round requires all the greenkeeper's dedication, experience and skill.

It also requires the versatility of the Kubota range of tractors and attachments that enable you to do more than just mow. With the Kubota, you can dig, load, haul, spray and spread.

Take up the Kubota challenge, and compare the Kubota range with the competition. Take into account Kubota's attractive finance packages—up to 100% at just 1¼% for 12 months or longer at very competitive rates, subject to acceptance.

You won't find a more versatile range anywhere on course.

L4150—two or four wheel drive, with a smooth 5 cylinder 45hp engine and finger tip hydraulic shuttle shift. Also two wheel drive available with mechanical shuttle transmission and dual clutch. Perfect for gang mowing.

G3HST—with hydrostatic transmission and 44" mid-mounted mower, that makes short work of light rough. Highly manoeuvrable, with miserly fuel consumption and minimal maintenance.

B7100HST—4 wheel drive has a powerful 16hp diesel engine, controlled by hydrostatic transmission, which includes creep speeds as standard.

B8200—with a 3 cylinder, 19hp engine (and the option of hydrostatic transmission), this is the perfect machine for heavy duty work.

**No-one  
 offers more.**

Please send me full details of your range of tractors.
