Steady Progress at York

At a further meeting between the three green-keeping Associations EIGGA, SIGGA & BGGGA held on April 28th under the Chairmanship of Peter Wilson of the English Golf Union, agreement was reached on a number of points. A constitution for the proposed joint Association was hammered out, clause by clause to the satisfaction of all present. It was also agreed that the base for the Administrator of the new Association would be within the offices of the Sports Turf Research Institute at Bingley. Other matters were only briefly discussed, the meeting having gone into such detail on the constitution. This will now be presented to the three participating Associations for their approval prior to the next meeting at York on June 9th, when it is hoped that the remaining parts of the package will be agreed. It is proposed that the new Association will come into being on January 1st 1987.

Greenkeeper Training Committee

Dr. Peter Hayes Director of the Sports Turf Research Institute and Chairman of the G.T.C. has announced that a donation of £1,500 has been received from the P.G.A. European Tour. This money is to be used to fund better liaison between the colleges which the G.T.C. have selected as their regional greenkeeper training centres. (see April Greenkeeper) The money from the European Tour (a totally separate organisation from the Belfry based Professional Golfers Association) is part of the promotional fee paid by ICI Professional Products to be utilised for greenkeeper training. Commenting on the Tour's move ICI's Keith Cleverley said that he was delighted that the money would benefit all greenkeepers at every level with the improvement in educational opportunities.

This is another welcome boost for the G.T.C. which in the last year has made considerable strides forward in rationalising the formal greenkeeper training opportunities and syllabus in England.

Under a separate agreement the STRI are to carry out trials at Bingley on the ICI range of fine turf fertilisers.

A BETTER START ... A BETTER FINISH

- Quality
- Reliability
- Service

Nothing performs like a Brouwer Fairway mower, even in the early morning dew.

Hydraulic Lift

Track Removal Brush

Floating Head

Some outstanding features:

- Low cost purchase, low cost operation.
- Unique design for successful mowing even in the wet.
- Small tractor low h.p. requirement, less fuel, light weight, less compaction.
- Floating heads that follow the contours.
- P.T.O. driven, excellent maneuverability flexibility and transportability.
- Variable frequency of cut ensures the highest quality of cut.
- Tractor track removal brush available as an option.
- Available in 5 or 7 gang models with a choice of 5,6,7 or 8 bladed reels.

Other models are available to meet your requirements for mowing the roughs.

COMPETITION GREEN.

Finding greens which look good and play well is what every member expects, competition day or not. And fertilizers are vital to success. Now, with the new range of Fine Turf Fertilizers from ICI, grass nutrition is simpler and less time consuming.

We've included a new long-lasting nitrogen stabilizer called DIDIN* into 'Spring and Summer Feed' and 'Weed and Feed'. Initial colour response is good without excessive stimulation of leaf growth. But, more importantly, DIDIN steadily provides nitrogen for up to three months after initial application – long after ordinary fertilizers have stopped working.

Another new idea is 'Nitro-Iron' which contains no phosphates. The 7:0:1 formula is boosted with 3% Iron to provide good green up and efficient moss control.

For winter hardiness there is 'Autumn and Winter Feed'. In this formula the major plant foods are supplemented by both magnesium and iron.

All developed especially for fine turf – and busy Greenkeepers.

Yarrow	97	91
White clover	89	74
Daisy	91	69
Mouse-ear chickweed	86	68

* Turf weed control trial results — Levington Research Station

1st. Test: weed control

Extensive trials by Levington Research Station staff show that Tritox has a faster kill of common turf weeds — and it is effective against 'difficult' weeds such as knotgrass. They're not just knocked out — they're dead.

2nd. Test: value for money

Tritox proves so efficient there is less need for a second application. You use less product, less time, less labour — and save money.

3rd. Test: formulation

Tritox has been approved under the Agricultural Chemical Approvals Scheme, an independent endorsement of product efficacy. The active ingredients are MCPA, Mecoprop and Dicamba.

4th. Test: packaging

Tritox is easy to handle and apply. It comes in sturdy 5-litre and 20-litre polythene containers. We even attach the instruction leaflet so that it's always at hand.

5th. Test: distribution

Tritox is widely available through Fisons national network of stockists.

This is the breakthrough in weed control you've been waiting for.

Put it to the test!

Crowds come, Crowds go, We remain!

When the excitement, the cut and thrust between winner and loser is over, when crowds have drifted away, Toro sprinklers remain - watering the sacred turf in their own quiet, efficient way. Toro, helping Greenkeepers prepare for sporting battles yet to come...

Last year, Toro sprinklers watered the turf which staged 'The Open', the Ryder Cup, the Hennessey, the U.S. Open, U.S. Masters - five good reasons why your club should consider Toro Golf Course Irrigation. Other major Toro sporting occasions included 'Wimbledon', the F.A. Cup, Royal Ascot and the E.B.A. Championships...

For more information, speak to Peter Roberts, personally.

Watermation

FOR ALL SPORTS TURF IRRIGATION

You can't beat us when it comes to first class irrigation. With over 15 years experience behind us, we have installed irrigation systems all over Britain, in all the best places, and our sprinklers pop-up in Ireland, in Europe and in Africa.

But you probably know about our past. In the future we will continue to offer the best automatic irrigation installations but now we are ALSO OFFERING A NEW RANGE OF SPRINKLERS, CONTROLLERS AND OTHER SPECIALIST EQUIPMENT, ALL DESIGNED AND BUILT BY WATERMATION IN ENGLAND.

It isn't all "just grass" to us — sometimes it isn't even grass at all. We also design sprinkler systems for artificial surfaces.

So if you have a golf course, tennis court, bowling green, running track, football pitch . . . or even a whole town to be irrigated and monitored in the Middle East, we can offer you irrigation equipment which is specially designed and suitable for the needs of those areas.

Naturally, we can still supply you with all our usual range of equipment and spares and in fact we now have the most comprehensive range of irrigation equipment in the Country. THE CHOICE IS YOURS.
