Viscount Whitelaw will open exhibition

Wednesday morning, January 22nd, brings the official opening by the Rt. Hon. William Whitelaw, President of BIGGA, of a wondrous display of products and services, aimed exclusively at our industry and presented by a larger number of exhibitors than ever before. Many exhibitors have hinted that BTME will be their launching pad for introducing new products and services to such an

exclusively greenkeeper orientated audience, and with such a large and varied display accessible under cover and on a single floor, visitors can be assured of evaluating the very latest equipment.

Quality speaker

An unmistakable air of excitement is erupting from those associated with the greenkeeping industry's greatest annual event, the BIGGA Turf Management Exhibition and Seminar Programme, to be held in Harrogate during January 20th-24th 1992. As the day draws near a large number of registrations have flooded into the Association's headquarters at Aldwark Manor, ensuring a spirited pool of participants for the biggest and most ambitious workshop, seminar and exhibition programme ever staged by the Association.

Looking at the schedule of events, one cannot fail to be impressed by both the substance and the quality of speakers chosen and the fascinating subjects they will present to audiences eager for learned information.

The educational seminar programme brings together speakers who will not just educate but also stimulate debate within the halls of Harrogate. Four workshops take place on the Monday and Tuesday.

Among the speakers are:

Graham Phillips:
Keynote speeches will help delegates handle green committees

■ **Dr Norman W Hummel**, Associate Professor of Turfgrass Science at Cornell University, currently on leave of absence to work for the USGA Green Section on a project relating to USGA Specifications, and on methods for testing construction mixes. Dr Hummel has operated a laboratory at Cornell for testing construction mixes for some years and has worked closely with architects, contractors and superintendents on sand and peat selection. In his Educational Workshop, which he will present with Stanley Zontek, various options for constructing golf course greens will be covered, including the USGA Specifications for greens
