ADASStand No. A3

Nobel House, 17 Smith Square, London SW1P 3JR
Tel: 071-238-5782 Fax: 071-238-5732

Contact: Chris Stansfield

The ADAS exhibit at the BIGGA Turf Management Exhibition 1992 will focus on the very topical subject of water management for turf areas.

Reflecting the importance of adequate drainage and irrigation ADAS provides comprehensive diagnostic and design services for both, from initial problem identification through to contract management and future maintenance programmes. All design work and management recommendations utilise the very latest scientific and technical information, while taking full account of environmental and economic considerations.

With locally based consultants supported by in house specialists, diagnostic and analytical laboratories, ADAS is ideally placed to respond quickly and effectively to turf management problems as and when they arise.

Askham Bryan College is the centre approved by the Greenkeepers Training Committee for the North East and East Midlands areas. A series of courses have been developed in consultation with the County Golf Unions and Greenkeepers Association in the region. The courses are therefore designed to fit career training at all levels, from new entrants to aspiring managers. The courses are offered on a "block release" basis, with accommodation if required. Each course consists of a series of one week blocks spread over the year. The College also offers courses in Agriculture, Horticulture, Gamekeeping, Floristry, Tourism, Business Management and Forestry.

ATTERTON & ELLISStand No. A17

Iron Works, Hamley Road, Haverhill, Suffolk CB9 8QH
Tel: 0440-702312 Fax: 0440-712138

Contact: David Smith

The EXPRESS DUAL will be shown, which is capable of not only conventional plain cylinder grinding with the cylinder removed, but also in-situ grinding of the cylinder when still mounted in the machine - a particularly useful feature when resharpening during mid-season. A 'Professional' kit will be included which allows a larger range of cutting units to be sharpened.

The ANGLEMASTER heavy duty bottom blade grinding machine will also be shown and will include a power traverse feature. Both machines are well proven and carry the Atterton hallmark of quality and reliability and may be seen in use in many of the leading golf courses throughout the country as well as many other parts of the world.

BARENBRUG UKStand No. A95B

PO Box 2, Rougham Industrial Estate, Bury St Edmunds, Suffolk IP30 9NW

Tel: 0359-70766 Fax: 0359-71021

Contact: Carol Abbotts

BARENBRUG, Europe's leading grass seed company, is able to provide greenkeepers with the top varieties on the STRI, Bingley list. BARDOT, browntop; BARCROWN slender creeping red fescue; BARUBA chewing fescue; all of these varieties, specially developed for greens, tees and fairways - are constituents of the BARENBRUG's amenity brand mixtures: the "BAR" range. To ensure that you are able to create the best course, not only in the UK, but especially in the eyes of your members, come to the BARENBRUG stand A95B in Hall A.

BECKER-UNDERWOOD, INCStand No. B9/11

801 Dayton Avenue, Ames, Iowa 50010, USA

Tel: 515-232-5907 Fax: 515-232-5961

Contact: Roger Underwood

Becker-Underwood is a U.S. based supplier of speciality colourants and spray pattern indicators. Turf Mark blue spray indicator is available as a Water Soluble Packet (WSP) or a convenient Tablet for CDA and small hand-held sprayers. The WSP's each treat 200 litres of spray. No plastic container remains following use for disposal. The tablet quickly dissolves when dropped in the spray solution to easily mark the spray application. Green Lawngrer is a sports turf permanent grass colour for dormant or discoloured turf. Lake Colourant WSP is the fast, easy way to colour lakes and ponds.

BETTER METHODS-EUROPEStand No. A87

Brantwood House, Kimberley Road, Parkstone, Poole, Dorset BH14 8SQ

Tel: 0202-740142 Fax: 0202-722300

Better MethodS are again showing a wide range of their turf care hand tools and golf course accessories. These include two new items recently introduced. The B.M.S. Soil Profiler, which allows easy examination of soil strata and root growth etc. and the B.M.S. Turf Stripper, which can be supplied with various blades to provide varying widths and depths of cut. Also on show, the U.S.G.A. STIMPMETER. Better MethodS are the U.K. distributors for this well known tool for measuring green speeds. Several American Eagle products will be exhibited including the new 16ft. Dew Switch which is proving very popular. Products of B.M.S. manufacture shown include the Turfmaster Golf Hole Cutter, Turf Doctors, Levelawns and many other firm favourites.

BIGGA welcomes all visitors to Harrogate once again. The Association is delighted to be organising the event which shows every indication of developing into the largest indoor Exhibition and Educational Seminar Programme throughout Europe.

At the BIGGA stand you will be able to obtain all current BIGGA literature and be updated on developments within the Association. Details of membership of the Association will be available and for those so wishing there will be the opportunity to complete applications for membership whilst visiting the stand. Visitors should particularly note details of the Master Greenkeeper Certificate. The award of this certificate will indicate that recipients have achieved the highest standard of excellence within the profession of green-keeping.

Please ensure that you take a copy of the programme for the National Education Conference to be held at the Royal Agricultural College, Cirencester from 27-29 March, 1992. An eminent panel of speakers has been assembled with a wealth of greenkeeping knowledge and experience and delegates will greatly benefit by attending at this major three day educational event.

The full range of BIGGA merchandise will be on sale and also details of the TRIMS Computer Software Package will be available - fast becoming a vital management aid for the progressive course manager.

Please take a copy of 'Greenkeeper International' - essential reading for greenkeepers, golf clubs and the industry.

The Association's staff look forward to meeting you on the Stand, where much lively and informed discussion can be assured.

HOWARD EVANS FINANCIAL SERVICES LTD
.....Stand No. C5

13 The Rainbow Business Centre, Phoenix Way, Swansea Enterprise Park, Morriston, Swansea SA7 9EH

Tel: 0792-791179 Fax: 0792-797748

Contact: Howard Evans

Howard Evans Financial Services was set up on 1st November 1990, specifically to offer financial advice to all BIGGA members on pensions, mortgages and other related financial topics. As you probably know, Howard Evans has been offering financial advice to the BIGGA membership since August 1989 but the initiative has proved so successful that Howard has reorganised his activities to give even more time to answering the financial questions posed by BIGGA members. Howard Evans Financial Services is an Appointed Representative of Standard Life, possibly the UK's most respected investment, pensions and life assurance office and certainly the European Community's largest mutual life assurance company. Howard Evans Financial Services offers all BIGGA members free advice on the full range of financial topics, but retains a primary interest in ensuring that all members are making adequate contributions to an appropriate Pension Plan. In the last 18 months many greenkeepers have started contributing to a BIGGA Personal Pension Plan. Some are making contributions entirely on

their own whilst others are having contributions made on their behalf by their Golf Club.

Either way, we all know sensible financial planning for the future makes sense.

Call and see Howard Evans on Stand C5.

ICI PROFESSIONAL PRODUCTSStand No. B61

Fernhurst, Haslemere, Surrey GU27 3JE

Tel: 0428-645454

Contact: Roger Mossop

ICI Professional Products will be featuring the highly successful 'Longlife' range of fertilizers, which includes a number of products incorporating the slow release molecule 'Didin'. The incorporation of 'Didin' helps to create a more even growth pattern by reducing the initial flush experienced with conventional fertilizers and is available as soon as the plant starts to grow. The display will also concentrate on the range of well known ICI turf care pesticides, including the fungicide 'Daconil' turf, and the ever popular herbicide Super 'Verdone'. The ICI range goes beyond the maintenance of turf, and we can offer a number of products to use in the landscaping and general maintenance of the golf course and club house area. The most versatile of these products being 'Casoron' G, which can be used for selective weed control in shrubberies, total weed control around buildings or even weed control in water hazards. Call on the ICI stand No. B61 and see the new applicators for use with this popular product.

*REMEMBER TO ASK FOR DETAILS OF THE 1992 "ICI PREMIER GREENKEEPER AWARD", specially organised for BIGGA members.

Tel: 0462-683031 Fax: 0462-481964
Contact: Derek Haley

The theme on the Lloyds of Letchworth's stand at BTME will be the importance of maintaining and servicing equipment. Lloyds has built a reputation for quality after-sales-service through its own specialist department in Letchworth, and is now able to extend this facility to embrace Customer Choice Maintenance. New for 1992, the Vertical Rake attachment for 21" Paladins comprises twenty-six specially hardened steel, ten-bladed discs, each set 19 mm apart. Easy to fit, the Vertical Rake has height adjustment and debris collection facility. Whether purchasing outright or leasing, Lloyds' finance scheme through Barclays Mercantile Highland Finance will help to spread the load.

"Blazon" is a totally water soluble, non-toxic, non-staining colourant which when added to spray solutions indicates at a glance where the operator has or has not sprayed. "Blazon" can be added to the spray solution of insecticides, fungicides, weedkillers, wormkillers, wetting agents, liquid fertilisers and grass growth retardants. "Blazon", when mixed with spray solutions produces a temporary blue/green colour which dissipates by rainfall, dew or even sunlight alone. "Blazon" is safe to use, indicates at a glance blocked spray nozzles and can be easily washed from hands and clothing.

The National Turfgrass Council is the national organisation concerned with all outdoor amenity grass and non-grass surfaces used for sport or recreation. We link together 23 Member Organisations, 40 Patrons and a widespread Associate Membership. Our display shows our current activities on behalf of the industry, our forthcoming events, and our range of publications.

NETLON LIMITEDStand No. A65
 Kelly Street, Blackburn, Lancs BB2 4PJ
 Tel: 0254-262431 Fax: 0254-680008
 Contact: Peter Langley

Netlon Advanced Turf Systems provide natural turf with inbuilt resilience, durability and a unique *self-cultivating* action. The result is turf which not only withstands extensive use but demands less maintenance. Reducing divot size, halving recovery time and resisting soil compaction makes Netlon Advanced Turf ideal for tees and greens. Grassed parking areas and trolley paths also become more hard wearing. The secret is thousands of 100 mm x 50 mm polypropylene mesh elements blended into a selected rootzone medium. These flex during play and maintenance to create voids that ensure that the surface always drains quickly and the turf remains healthy.

OTTERBINE AERATORS.....Stand No. A21

3840 Main Road East, Emmaus, Pennsylvania 18049, USA

Tel: 215-965-6018 Fax: 215-965-6050

Contact: Charlie Barebo

Otterbine Aerators can help keep irrigation waters clean. This full-time management tool reduces bottom sludge, algae, aquatic weeds and foul aquatic odours through a process called Aeration. Mechanical aerators pull cold dense bottom waters upward and throw them into the air where they collect atmospheric oxygen. This circulation and oxygenation helps speed biological clean-up process. Mechanical aerators are effective when the stress on the aquatic ecosystem is greatest during calm, still and cloudy days. Otterbine supplies a self-contained compact system with over 100,000 installations throughout the world. Contact Golf Course Services, our exclusive English distributor at 0858-410085 for more details.

Ransomes position as a world leader in the production of grass cutting and turf care machinery will be illustrated at the exhibition, where the company will be showing a range of machines. The recently launched Greenspro 56, a highly sophisticated machine designed for precision cutting of fine turf, will be alongside the GT classic which has been developed from the popular Greens Triple Mower and offers high standards of finish with precise hand operated hydraulic controls and a choice of cutting units. Also on show will be one of a range of sweepers available from Ransomes. The Ransomes 250 Pedestrian Sweeper, with three brushes and a sweeping width of 30ins (76cm) will pick up leaves, grass, litter and cores from all areas of the golf course. Also on show will be a three wheel diesel Cushman Turf Truckster, the multi purpose system vehicle available with a range of attachments for all aspects of turf care.

RHONE-POULENC ENVIRONMENTAL PRODUCTS

.....Stand No. A15

Regent House, Hubert Road, Brentwood, Essex CM14 4TZ
 Tel: 0277-261414 Fax: 0277-260621

Contact: Sion Price

Rhone-Poulenc Environmental Products has a lot on show at BTME '92 on Stand A15. TWISTER is a carbaryl product giving fast control of worms, and is recommended for use on all turf areas. CAST-AWAY PLUS, an established worm and leatherjacket control product is now also available as a CDA formulation. CDA CAST-AWAY PLUS gives an effective answer to the problem of casting worms at a total spray volume of only 10L/Ha. The extensive range of CDA products available from Rhone-Poulenc now totals seven including fungicides, selective herbicides, total herbicides and of course an insecticide/wormkiller. Following the development of a novel bleed valve system, the blue LANCELOT CDA lance can now be used to apply the range of CDA products directly from the bottles in which they are supplied. DATACHEM is a computer software programme to aid the amenity spray operator. Calibrations, costings, product volume requirements, conversions, data storage, legislative information and much, much more! Come and see all the beneficial features of DATACHEM for yourself.

RIGBY TAYLOR LIMITEDStand No. A97

Rigby Taylor House, Garside Street, Bolton, Lancs BL1 4AE
 Tel: 0204-394888 Fax: 0204-385276

Contact: Clive Williams

Rigby Taylor will be featuring a product which is proving invaluable to all those involved in the management of sports turf and amenity grassland areas. Mascot Absorb 500 flowable charcoal deactivator can be used to de-activate hydraulic fluid, petroleum

product and pesticide spills. It is your insurance against spills and over-application of pesticides, and can be applied to turf areas that have been treated with herbicides, whenever re-seeding is needed earlier than planned. When early germination and grass cover is needed, Absorb 500 can enhance the germination of seed and is also suitable for sprayer cleaning after pesticide use. Visit the Rigby Taylor stand to see another new product!

ROLAWN (TURF GROWERS) LTD.....Stand No. A61

Elvington, York YO4 5AR

Tel: 0904-608661 Fax: 0904-608272

Supaturf will launch their new reformulated spreadable soil wetting agent – Aqua-Gro 20:S, a more concentrated product that costs less to use. Restructured and with a higher active content, Aqua-Gro 20:S now offers a spreadable Aqua-Gro as effective as Aqua-Gro liquid at equivalent rates, with the added convenience of applying through a spreader, or by hand for spot treatment. The product is supplied in easy to open weatherproof 20kg bags. View also the Aqua-Gro Advantage system, using Aqua-Gro in a pellet form through a conventional hose pipe, and Cyto-Turf, a solution for the treatment of thatch and the promotion of healthy growth in turf, greens and tees.

SUPREME MOWING.....Stand No. A71

Wet Moor Lane, Wath-upon-Deerne, Rotherham S63 7LR

Tel: 0709-873436 Fax: 0709-878005

Contact: Linda Adams

Supreme Mowing supply high quality replacement cutting cylinders and bottom blades. Continuing their efforts to further improve the quality of grass care products, Supreme Mowing laid down plans to design and manufacture a range of new grinding machines with emphasis on accuracy and operator safety. After lengthy tests, the company launched their own 'Leader' range of grinding machines. Built around a modular concept, the 'Leader' enables the smallest of workshops to purchase a 'state of the art' grinding machine, assisting them to build up a good reputation. It is built around a solid free standing frame fitted with easily adjustable anti-vibration mounts, which when used in conjunction with the built-in spirit level enables quick and easy installation and the ability to re-site the machine without worry. Supreme Mowing claim to provide a machine to suit every size of operation, with the facility to upgrade the machine as needs dictate.

NATIONAL EDUCATION CONFERENCE

27-29 March 1992
The Royal Agricultural College
Cirencester

For the fourth consecutive year, BIGGA's National Education Conference next spring will feature a programme of international speakers. The event is to be sponsored, once again, by **Lindum Turf and Associates**. The Conference programme will be available at the BTME from either the BIGGA or Lindum Turf stands.

Some of the speakers and their topics are:

Tom Cook, Associate Professor, Dept of Horticulture, Oregon State University: Maintaining Pure Bentgrass Greens: Is it possible in cool temperate climates?

Neil Baldwin, STRI: Green Pest and Disease Control

Derek Green, Course Manager, Royal Liverpool Golf Club: Dry Patch

Tor Senstadt, Secretary, Norwegian Greenkeepers Association: Greenkeeping in Norway

Patrick O'Brien, South Eastern Director, USGA Green Section: Bentgrass Management in the South Eastern USA

Jon Allbutt: Using Chemicals on the Golf Course and Complying with the Law

William R Roberts, President, Golf Course Superintendents Association of America: The Development of Education Programmes for the Greenkeeping Profession

Carol Borthwick, Senior Lecturer in Greenkeeping, Elmwood College: Where do we go from Here?

Laurence Pithie, Master Greenkeeper, Course Manager, Minchinhampton Golf Club: Golf Course Development - a Greenkeeper's Viewpoint

Barry Cooper: Golf Course Drainage Consultant: Golf Course Drainage - Before and After Construction

Jonathan Gaunt, Golf Course Architect: Project Management - How does it compare to normal Golf Course Construction Contracts?

Jim Arthur, Golf Course Agronomist: Sound Traditional Greenkeeping Practices versus Gimmicks

Gordon Jaaback, Agronomist, Conservation and Land Development Specialist: Limitations in Rootzone Design

Bernard Findlay, Course Manager, Portstewart Golf Club: Can you Build a Seaside Links or is that Nature's Job?

The programme including application form will be available soon from BIGGA Headquarters Telephone 03473 581/2 • Fax 03473 8864

provide ample power for all mowing conditions. Key improvements include faster transport speed and better engine access for serviceability along with increased fuel capacity and operating economy. An addition to the greenmaster range is the new lightweight GR3100 which features a patented hydraulic oil leak detection system. Other features are power steering and adjustable steering arm which combined with Toro's excellent quality of cut make the Greensmaster range the leader in greens mowing.

Exhibiting for the first time Turfcare will be showing some products including the TOURNAMENT range of top dressings. These superb dressings feature the highly rated new Platt Wood sands and they will complement the TURFCARE TOURNAMENT range of fertilizers and grass seeds. The stand will also display the range of BOYD golf course accessories. The ergonomic ELETE hole cutter in conjunction with BOYD hole cups and the unique puller setter trimmer make the chore of changing the holes a pleasure. Ask for a demonstration on your own course. The staff of TURFCARE will be pleased to discuss vertidrainning Coremaster hollowtining with customers old and new.

TURFMECH MACHINERY LTDStand No. A51
Butts Farm, Great Haywood, Staffs ST18 0TF
Tel: 0889-881611 Fax: 0889-882819. Contact: Clive Carter

Turfmech will be showing for the first time in the U.K. the new 1 metre Rotadairon Soil finisher and stone burier. This new addition to the stone burying machine range gives the 18 hp compact tractor operator the ultimate seedbed preparation tool. By burying stones, clods and surface debris, and placing the fine soil particles on the surface, the new RD130 leaves an unbelievably fine level seedbed in one pass. Turfmech staff will also be available to discuss other machines from their range of debris vacuums and blowers, high capacity fine finish tri-deck rotary mowers, and their unique fairway scarification service.

UNIVERSAL MATERIALS.....Stand No. C21/23
5/7 High Street, Dorchester-on-Thames, Oxon OX9 8HH
Tel: 0865-341580 Fax: 0865-341575. Contact: Geoff Russell

We are showing the original and only authentic AstroTurf golf mat which is ideal for use on both golf courses and ranges. The easy Picker Range Ball Harvesters and Washers have unquestionably proved their reliability and performance and remain outstanding value. Midgley Nicholls Ball Dispensers, manufactured in Britain by Heritage Fairway, are designed in modular form which allows customers to add on as demand grows for extra capacity. Fully programmable electronic coin mechanisms allow for flexible pricing with any denomination of coin or token. The Club Car Carryall vehicle is a general purpose, petrol driven utility vehicle available with a number of optional extras and is an ideal power source for the Easy Picker Range Ball Harvester.

VITAX.....Stand No. A55
Owen Street, Coalville, Leicester LE6 2DE
Tel: 0530-51-60 Fax: 0530-510299. Contact: Trevor Holmes

VITAX Gro-Cover has proved to be the ideal product for today's turf manager, whether it is used to cover newly seeded or oversown areas of sport and amenity grass, where it has been proved to increase the speed and percentage of germination by 4 to 7 days, or regenerate growth on golf course walkways or other areas of stressed existing grass. Two new sizes of Gro-Cover are now available. Featured alongside Gro-Cover will be Vitax Weedblock, a highly porous landscape mulch fabric, plus the full range of Vitax Sport Amenity Chemicals and Key Range fertilisers.

WATERMATION.....Stand No. B59A
Tongham Road, Aldershot, Hants GU12 4AA
Tel: 0252-336838 Fax: 0252-336808
Contact: Eileen Hawthorn

Watermation - Remote Control Watering. Don't miss the opportunity to see the new Watermation Remote Control. This clever piece of equipment is a handset the size of an average portable telephone, capable of turning the TW2 controller on and off at any given location on the course. This gives greenkeepers the opportunity to observe and run the irrigation at any station and at any distance, without interfering with the pre-set programme - something wanted by greenkeepers for a long time. Two other new innovations for Watermation are the Aquater soil moisture meter. This gives an accurate reading of the irrigation penetration, and the Aqua-Master range of beautiful aerators and pumps to keep your lake both lovely and free of algae build up.
