

Woodfibre walkways will connect greens and tees

Dormit, a household name to all those involved in the equestrian world and known as the number one supplier of all-weather riding surfaces, has launched a campaign to make golf clubs aware of its all-weather woodfibre walkways.

Although such walkways have already been installed on a number of courses across the country, Cirencester based Dormit believe that many greenkeepers are unaware of the product and its advantages.

Ideal for preventing or replacing ugly scars, the woodfibre surface provides a suitable means of connecting greens and tees.

The surface offers a clean and soft tread for golfers, blending in naturally with a course's landscape. Dormit has an engineered particle size with a minimal sawdust content, to provide a clean, closeknit, compact and firm surface.
