

BIGGA TURF MANAGEMENT EXHIBITION

BTME

1994

& EDUCATIONAL SEMINAR PROGRAMME

Catalogue

17-21 January 1994 at the Harrogate International Centre, Harrogate, North Yorkshire

**The BIGGA Turf Management Exhibition is open from 9am on all three days.
It closes at 5.30pm on Wednesday and Thursday and 1.30pm on Friday.**

Entry to the Exhibition is free but unless you have pre-registered, you will need to complete a registration card.
Visitors who have pre-registered will be handed their identification badges at the door.

Organisers' / Press office is on the left hand side of the entrance hall.

Workshop sessions will be held in the Old Swan Hotel whilst the general seminar programme, running concurrently with the Exhibition, will be held in the Royal Hall – entrance from Hall C.

FROM THE CHAIRMAN

The 1994 BTME is even bigger than the record-breaking 1993 event.

Almost a year's worth of work by many people has made it possible for me to make that simple statement and whilst the BTME has certainly caught the imagination of exhibitors and delegates, let no-one assume that the show's organisation happened by itself.

As we look forward to a great week in Harrogate, I want to pay tribute to everyone in BIGGA, especially Louise Lunn, for sterling efforts in achieving what many thought would be impossible – to create a show of even more industry importance than in 1993. Thanks also to the BTME Steering Committee, staff, Board of Management, Regional Administrators, Section Secretaries, everyone in the industry and all the members – thank you for working together to build a brighter future for us all.

New for 1994 is the inclusion of BIGGA's annual general meeting, at 5.15pm on Wednesday 19 January at the Old Swan Hotel, which hopefully will allow more members to participate and make some constructive input. The move to using BTME as a suitable venue for the AGM is specifically designed to gain

wider response from a wider spectrum of members. Don't forget, you will need your membership card to gain admission.

The BTME is an occasion to meet up with old friends, make new ones and enjoy a camaraderie unique to our profession and our industry. Exhibitors – as you will read in the following pages – have lined up an almost overwhelming display of equipment and services. Speakers in the seminar programme come from different backgrounds of experience, indeed from different countries, but have come together with the common aim of enriching your job and your life.

Enjoy yourself!

JOHN CRAWFORD, Chairman, BIGGA

Since 1970
Watermation irrigation
systems have helped to
create and maintain the top
championship golf courses
around Britain, Ireland,
Europe and worldwide.

SPEAKER PROFILES

Frank Newberry is a lively and popular trainer with clients all over the UK. He combines down-to-earth knowledge and experience with great energy to provide stimulating and practical presentations.

Frank's talk is about the art of influence and persuasion at work. This topic is a sensitive and difficult one for many people and Frank has said that he is keen to quickly get the right atmosphere in the conference room. He has requested that the doors be closed at 2.10pm sharp on Wednesday and that there be no late admittance or re-entry to the conference hall until he ends his presentation.

How to get your own way at work... every time by Frank Newberry is presented at 2.10pm, Wednesday 19 January in the Royal Hall.

John Hacker and David Stansfield combine their talents and experience to present Grasses on the golf course, in the two-day educational workshops.

John Hacker is a consultant agronomist with Professional Sportsturf Design (North West) Ltd. Prior to going into full-time consultancy work, John was senior lecturer at

Myerscough College where he developed the National Diploma in Turf Science and Sports Ground Management. For three years he was examiner for the City & Guilds Phase II Greenkeeping and Sport Ground Management Course.

David Stansfield has been a golf course agronomist since 1978. For many years David was a senior agronomist with the Sports Turf Research Institute and acted as consultant agronomist to the R&A championship courses in England on their behalf.

Grasses on golf courses by John Hacker and David Stansfield, Workshop One, Monday-Tuesday, 17-18 January at the Old Swan Hotel.

With 24 years as a head greenkeeper and an ambition to achieve the Master Greenkeeper status, Ian MacMillan is an ideal candidate to present The History of Golf and Greenkeeping.

The course manager at Balbirnie Park Golf Club started his greenkeeping experience when as a junior member of Cambuslang Golf Club in Glasgow, he was more often to be

found helping the greenstaff than playing golf. Ian's been with Balbirnie Park, in Fife, for over ten years and appreciates their support in his quest for knowledge. "Education plays an important part in my life," he says. Ian spent five years at Elmwood College and is now back there in the second year of a HNC in golf course management - a qualification he hopes will lead to HND.

The History of Golf and Greenkeeping by Ian MacMillan is presented at 11.40am, Thursday 20 January in the Royal Hall.

Huw Parry has been a member of the BIGGA Education Sub-Committee for three years and Chairman for the past two years.

Huw has been course manager at Bristol and Clifton Golf Club for

three years. Previously he was course manager at Caerphilly Golf Club.

As Chairman of BIGGA's Education Sub-Committee, Huw has close involvement with college liaison committees and is a member of the Working Group that has written the new GTC Training Manual.

Education has always been a major part of Huw's involvement with BIGGA and his aim is to create excellence in greenkeeping and golf course management through education and training.

Education - where do we go from here? by Huw Parry is presented at 1.40pm, Wednesday 19 January in the Royal Hall.

Stuart Ormondroyd joined the STRI staff as an agronomist in 1982. His advisory work has involved all sports in the regions of Scotland, Wales and the north of England until 1986, when he joined the newly formed golf unit.

For the last seven years Stuart has specialised in advising golf courses in the north of England, the Midlands and Ireland.

Earthworm control by Stuart Ormondroyd is presented at 11am, Friday 21 January at the Royal Hall.

- Meets current Health and Safety regulations
- Mounted/trailed/demountable units
- Choice of tank sizes 200-1500 ltr
- Choice of boom width 4m-12m with optional 3m walk boom

It's the results that count at BTME

SPEAKER PROFILES

Jayne Leyland's presentation, *Initiation of the Innocent* is designed to reflect the experiences felt – and sometimes endured – by those people new to the industry.

Thirty four year old Jayne turned to greenkeeping when it seemed logical to her to combine her two passions of sport and horticulture. She gained a distinction with her National Certificate in Horticulture at Reaseheath College 1992/93.

The subject matter of Jayne's paper is an introduction to the first year of studies for the new BTEC Higher National Diploma in Golf Course Management held at Reaseheath College in Cheshire. Content will include brief details of the relevant theoretical and practical subject areas covered, together with other experiences encountered during the first year – for example, a very rewarding study tour to Scotland.

Initiation of the Innocent by Jayne Leyland is presented at 1.40pm, Thursday 20 January in the Royal Hall.

The people Terry Buchen, golf course superintendent from Ohio, has worked with make up a veritable who's who in golf.

Terry – who collects his Master Greenkeeper Certificate at this year's BTME – has grown-in 11 golf courses across the United States alongside Jack Nicklaus, Tom Weiskopf and Jay Morrish, Tom Fazio, Pete Dye and Ted Robinson.

Terry comes from a family of golf course professionals is a former PGA Tour agronomist and advancement on the regular US Tour. He will speak in Harrogate on growing in philosophies on a new golf course.

Forty six year old Terry is also a contributing editor to an American golf course news magazine and writes a column 'the savvy superintendent'.

Growing in Philosophies on a New Golf Course by Terry Buchen MGC is presented at 3.20pm, Wednesday 19 January in the Royal Hall.

Mike Sheehan has been in greenkeeping for 22 years. He spent a short time as an assistant professional before returning to greenkeeping.

Mike started his career at Child-

wall Golf Club in Liverpool before being promoted to deputy head greenkeeper at the age of 21. At 23, he left Childwall to become head greenkeeper at West Derby Golf Club in Liverpool, where he spent four years at this beautiful parkland course.

In April 1983 Mike then moved to Mere Golf and Country Club working for Hawkstone Park Hotel Group as golf course manager. In January 1984 Mere was bought by entrepreneur Stephen Boler and since then there have been many major developments at Mere both on and off the course. Mike has been involved in all the changes, which have all been carried out in-house, including tee and green construction and pond construction.

Let's put a pond in, by Mike Sheehan is presented at 3.20pm, Thursday 20 January in the Royal Hall.

You can't know it all, reckons Andrew Boyd, and the best way forward is to keep on learning.

Andrew will be applying his knowledge as head greenkeeper at Bridlington Golf Club to his chosen subject when he asks, do trolleys really damage our golf courses?

Andrew's love of the land started at a very early age and he went straight into greenkeeping when he left school. He moved to a firm of horticultural engineers but it wasn't long before the lure of the golf course brought him back to where he belonged. Andrew, aged 36, is committed to his education and has attended a variety of BIGGA courses.

Trolleys – Do They Really Damage our Golf Courses? by Andrew Boyd is presented at 3.50pm, Wednesday 19 January in the Royal Hall.

Speaking in Harrogate will be something completely different from the time Peter Greenhough took to the stage in 1988: then he was lecturing in India, Singapore, Indonesia and Thailand.

Peter, a former Yorkshire County Player and member of the Royal & Ancient Rules of Golf Committee, will speak on *The Greenkeeper and the Rules of Golf*.

The joint managing director of an insurance group and present captain of Brough Golf Club, has a

extensive knowledge of his subject for the educational seminar programme. He was guest lecturer at the Royal Canadian Golf Association Rules Seminar and Examinations in 1988 and is presently serving on the R&A's championship committee.

The Greenkeeper and the Rules of Golf by Peter Greenhough is presented at 9.30am, Thursday 20 January in the Royal Hall.

Peter Dickens, chief surveyor with the Ordnance Survey Office, brings his experience to bear in his presentation *Ord-*

nance Survey – More than Coarse Maps. Hear Peter at 10.30am, Friday 24 January in the Royal Hall.

With a degree in botany, Tim Lodge carried out plant physiology research for two years and worked for 18 months as a botanical surveyor for the Suffolk Wildlife Trust before taking up his present post, in 1989, of golf research officer with the STRI.

After six months study of pure sand golf greens, Tim took responsibility for a research programme investigating the construction, irrigation and fertiliser nutrition of UK golf greens, funded by the R&A.

He is currently engaged in a survey of golf greens from golf clubs throughout the UK, in order to identify the range and forms of greens encountered and to establish standards of performance.

Standards for golf greens by Tim Lodge is presented at 2.10pm, Thursday 20 January at the Royal Hall.

ADAS offers a comprehensive consultancy service for the management of golf courses and other sports turf facilities. At BTME this year we will be featuring the ADAS Golf Course Management Scheme, the objectives of which are:

- (i) to place golf course maintenance on a sound scientific basis;
 - (ii) to give complete technical support to greenkeepers;
 - (iii) to provide full information for decision making;
 - (iv) to maximise golfer satisfaction with the course.
- Membership of the scheme is open to all golf courses in the UK. A vital component is the ADAS Greenkeeper's Record Book. Greenkeepers also have a direct link to an agronomist for help and advice through the ADAS Turfline.

Several models form the wide range of tractors and power units designed exclusively for turf and grass maintenance applications giving wide track stability for hillside work, hydro-mechanical transmissions for control, reversability for front mounted mowers and attachments. To complete the range diesel, 4x4 transporters give many low cost transport facilities. All Antonio Carraro tractors and transporters have low ground pressure features which allow damage free travel on golf greens.

AQUAPLAST IRRIGATION

Stand No. B27

109 Chapel Road, Hesketh Bank, Preston,

Lancashire PR4 6RU

Tel: 0772 813571 Fax: 0772 815885

Contact: Wendy Penny

Aquaplast Irrigation's manufacturing partners Revaho b.v produce highly competitively priced PE pipes for irrigation systems. Offering both a 6 bar and 10 bar range from 20mm to 110mm the pipe you want is available with quick despatch direct to site.

Aquaplast Irrigation offer complete systems which are powerful yet friendly and each is designed to meet a customer's own specific irrigation requirements.

Our installation teams are fully equipped and experienced to install to your instructions.

Aquaplast can offer installation flexibility with either partial or total schemes.

Experience in all aspects of applied water control and exposure to the latest technology – control panels, sprinkler heads, pumps and ancillary equipment – allows us to give our customers the most effective irrigation systems available today. Quickly responding to customer calls and providing fast service keeps them coming back.

When it comes right down to it, you'll need to protect your investment – even if your budget is tight – so the supply of quality water in sufficient quantity becomes a top priority.

With our 12 years in the irrigation business Aquaplast has the expertise necessary to see that your investment is thoroughly protected and secure.

Sports turf dressing manufacturers. Suppliers of Norfolk Fen Soils, sterilised Loams sands and Cockleshell.

BARENBRUG UK LTD

Stand No. A44

PO Box 2, Rougham Industrial Estate,

Bury St Edmunds, Suffolk IP30 9NW

Tel: 0359 70766 Fax: 0359 71021

Contact: Michel Mulder

Michel Mulder, newly appointed managing director of Barenbrug UK, will display the company's vast array of seeds for fine turfgrasses on Stand A44.

Greenkeepers are invited to discuss the future of the fescue, an area where Barenbrug revolutionised seed breeding for golf course requirements. Michel considers that fescues have been maligned due to incorrect selection, often on price. Barenbrug's programme tests new varieties under stress of drought, low fertility etc., mirroring the greenkeeper's problems.

The resulting varieties dominate the STRI lists. Barcrown, Bargreen, Baruba, Bardot and Heriot – amongst the most highly rated cultivars for fine turf – are found in Barenbrug's BAR 2, the most widely used golf mixture.

Also on display will be Barenbrug's latest sensation. Heriot, a new *agrostis tenuis* cultivar with up to 60% improvement in compactness and disease resistance, compared with *A.castellana* Highland. Heriot is the highest rating Brown-top bent with a massive 7.1 for short growth and 7.7 for shoot density.

E.P. Barrus Ltd took over the UK distribution for Victa mowers in April 1991. In 1992 we introduced a complete range of brushcutters and hedgetrimmers to complement the Victa range. For the 1994 season, we have two new additions to the professional range. The new PRO500 is an 18" steel deck mower which comes complete with grass box at 90 degree side discharge chute and we have introduced the Victa Vac 200, a 27" wide leaf and rubbish collector. Both of these machines are powered by the ever popular Victa 160cc power torque engine. Also new for the 1994 season is the extension to the warranty period on all professional machines which goes from 90 days to a full 12 months. We look forward to showing you the complete Victa range in Hall C.

BLAZON EUROPE

Stand No. B23

c/o Marketing Links Associates, 24 Badgers

Court, Langdon Hills, Basildon, Essex SS16 6AU

Tel: 0268 413798 Fax: 0268 416434

Contact: Richard Fry

Blazon is a non-staining spray pattern indicator selected for use in the BIGGA turf management training video "Setting the Standard". Blazon is not like any other spray colourant and has totally different chemistry to those dyes sold for this purpose. Blazon is also the only spray pattern indicator that is available in both liquid form measured from its container and as a pre-measured liquid concentrate enclosed within a water soluble sachet. All visitors to the stand can take the opportunity to win one of the 25 free BIGGA training videos being given away each day of the Exhibition. In addition golf greenkeepers can hear how they can win for their club a brand new item of machinery which will be launched at the Exhibition.

**BRITISH ASSOCIATION OF GOLF COURSE CONSTRUCTORS**

Stand No. A16

3 Angel Court, Dairy Yard, High Street,

Market Harborough, Leics LE16 7NL

Tel: 0858 464346 Fax: 0858 434734

Contact: Tim Banks

The Association has a code of ethics with stringent qualifications for membership which are designed to ensure that only well qualified bona fide organisations and individuals with a genuine interest in the development of the golf industry are admitted. These objectives ensure that a high standard of workmanship is obtained by adherence to contractual procedures and codes of practice.

Members of the Association have been responsible for the construction of over 200 courses both in the UK and in Europe and will undertake the construction of major as well as smaller golf projects using qualified management which will ensure that the course is not only built on time but to a strict budget. Ask for more details from the professionals.

BRITISH AND INTERNATIONAL**GOLF GREENKEEPERS ASSOCIATION**

Stand No. C15

Tel: 0347 838581 Fax: 0347 838864

Contact: Neil Thomas, John Pemberton, Debbie

Savage, Samantha Flint, Clare Douglas, Samantha

Collins and Pauline Thompson.

Greenkeeper International: Bill Lynch, Carol Dutton and Louise Lunn.

BIGGA welcomes all visitors to Harrogate once again. The Association is delighted to be organising the event which in its sixth year shows every indication of developing into the largest indoor exhibition and educational seminar programme throughout Europe. At the BIGGA stand you will be able to obtain all current BIGGA literature and be updated on developments within the Association. Details of membership of the Association will be available and for those so wishing there will be the opportunity to complete applications whilst visiting the stand. Information will be available on the National Education Conference to be held at the University of Warwick April 8-10, 1994. The full range of BIGGA merchandise will be on sale and also

details of the TRIMS computer software package will be available. Be sure to pick up your copy of 'Greenkeeper International' which has a circulation of over 8,500 worldwide - essential reading for greenkeepers, golf clubs and the industry. The Association's staff look forward to meeting you on the stand, where much lively and informed discussion can be assured.

Contact: Mick Moss

CMW will be showing a wide range of golf course equipment, work and safety wear, selected specifically with the greenkeeper in mind.

Featured this year will be examples of our custom made signs which we can produce economically in the computerised system we have invested in.

We look forward to seeing you on stand A40 where a warm welcome awaits you.

D & E TURF MAINTENANCE LTD

Stand No. A11

St John's Schoolhouse, Central Parade, Shildon,

County Durham D14 1DL

Tel & Fax: 0388 608620 Mobile: 0836 376944

Contact: David Stephenson

D & E Turf Maintenance Ltd are exhibiting their contractor services for the third year running at BTME. The specialist nature of their aeration and drainage services, coupled with their background in engineering brings a new dimension to greenkeepers.

High capital cost machinery is not always within the scope of many clubs, so the capacity to hire top quality coring, verti-draining, hydrojecting and trenching equipment for one day or one month, has its place within greenkeepers' budgets.

We are introducing a full range of fairway maintenance equipment to supplement our greens range as a company policy, to bring the best aeration machinery in the market within the reach of all greenkeepers.

DAVID HEMSTOCK ASSOCIATES

Stand No. B7

1 Brookhill Street, Stapleford,

Nottingham NG9 7BQ

Tel: 0602 499080 Fax: 0327 79464

ERIC HUNTER GRINDERS LTD

Stand No. C20

Hobson Industrial Estate, Burnopfield,

Newcastle Upon Tyne NE16 6EB

Tel: 0207 70316 Fax: 0207 70312

Contact: Eric Hunter

Australia - Algarve - Alcoa. Apart from the obvious 'A' connection, there is one other association of the above place. They are all areas which have recently taken delivery of a Hunter mower grinding machine.

The fame of their rugged construction (which makes them heirlooms!) together with simplicity of use and accurate results, make them very attractive to golf courses who are keen to cut repair bills and simultaneously improve course standards.

See how to properly grind reels and bed knives. Experience how relief angle grinding can better your mowing machines performance and economy.

Get yourself on the 'A' team by visiting Hunter Grinders at BTME.

FARM AND GARDEN MACHINERY LTD

Stand No. C18

Swinton Mill Cottages, Coldstream,

Berwickshire TD12 4JS

Fisons Horticulture will be exhibiting their comprehensive range of quality turfcare products to suit the needs of the turf manager.

On show will be Greenmaster fine turf fertilisers as used at Wentworth featuring Fisons' unique granular presentation for superb year round results. For outfield use the Sports-master PS range will also be presented. Greenmaster liquid fertilizer and Seafeed soil and turf tonic are also available for those who prefer liquids.

Chemicals, Turfclear for the control of turf diseases and worm cast and Tritox a powerful selective herbicide, will be on show.

Tufex wetting agent and the new Topmaster turf dressings produced to the latest United States Golf Association specification will also be featured.

FRASER GROWN LAWN PROFESSIONAL LTD

Stand No. C8

Woodside Farm, Sandy Lane, High Kinnerton,

Chester CH4 9BS

Tel: 0244 660901 Fax: 0244 660468

Contact: Fred Trim

Fraser Grown Lawn Professional Ltd, are pleased to announce the opening, in March 1994, of our new turf nursery at Sealand Farm, Chester, which is specifically for the production of sports turf especially for the golf industry. This is probably one of the most suitable sites in Britain for turf growing - light sandy soil which gives free draining and the correct PH. We have a reputation built on quality, reliability and value for money.

Dealing with a family-run company like Frasers, together with their team of experienced sales, transport and field staff, means that our customers are always assured of personal service at all times.

GARFITS INTERNATIONAL LTD

Stand No. B46

106 John Street, Sheffield S2 4QU

Tel: 0742 726240 Fax: 0742 728459

Contact: D Cooper/A Brooks

Garfitts International Ltd is a name now synonymous with quality and service, catering solely for the grasscutting industry. A short time spent visiting the stand at the show could prove to be most interesting and profitable. In these days of financial restrictions the saving of money is a high priority, however, standards still have to be maintained and improved. Garfitts can assist you to achieve that objective. A visit to our stand and seeing the quality of our range of products and the comprehensive selection available will be time well spent and our representatives will be there to welcome and discuss your requirements. Garfitts' principle activities are the manufacturing of high quality cylinders and bottom blades, tines, rotary blades and many other small components, but in order to offer a complete service they also distribute many other popular spares for most makes of machinery, such as tyres, filters, cables, batteries etc. A comprehensive catalogue is available on request. We look forward to seeing you at Harrogate.

GEM PROFESSIONAL**Stand No. B38**

Brookside Lane, Oswaldtwistle, Accrington,
Lancashire BB5 3NY

Tel: 0254 393321 Fax: 0254 236775

Contact: Patrick Dyer

Gem Professional, the largest privately owned manufacturer of fertilisers and turf dressings in the UK, are launching their new premier range of turf dressings. Recognising the need for high quality and continuity of supply, Gem Professional have purchased a 50 acre quarry on some of the best sand deposits in the north of England. Furnished with the most modern equipment and centrally located, customers can now enjoy national distribution on all quality turf dressings, rootzones and bunker sands. In addition Gem Professional will be exhibiting their full range of superior fertilisers together with the full range of liquid products.

GLEN HEAT & IRRIGATION LTD**Stand No. C40**

Spalding Road, Pinchbeck, Spalding,
Lincolnshire PE11 3UE

Tel: 0775 722327 Fax: 0775 725444

GHI of Spalding have added the Rainbird range of sophisticated pop-up computerised sprinkler systems to its already comprehensive equipment line up for sports and leisure watering schemes.

On display will be a formidable array of products that have enabled the company to keep at the forefront of the industry. With fully trained staff to design, install and maintain each tailor-made system, a wide spectrum of products can be undertaken. These include golf courses, bowling greens, football and cricket grounds, tennis courts as well as municipal parks and gardens.

Visitors will also see a photographic record of some of the prestigious schemes GHI have completed over the past 21 years since the company was formed in 1972.

THE GOLF SIGN COMPANY**Stand No. B39**

The Golf Sign Company manufacture high quality bespoke signs together with the greenkeeper range of standard signs.

Manufactured from stove enamelled aluminium with the text being sub-surface laminated, providing a durable, vandal-proof and maintenance free product. Our product range include tee markers to any shape, size and colour, main entrance signs complete with full colour crests, car parking and road signs, tournament and information boards. In fact, a full signage service to the golf industry, now supplying over 350 private and public courses throughout the UK and Europe.

Quotations, site visits, samples and computer drafts are all part of our free of charge design service.

Phone David Frances on 051 647 8081 for colour brochure.

We are now registered BS57501 Part 1 Quality Assurance Manufacturer.

GRACE SIERRA**Stand No. A48**

61 Loughborough Road, West Bridgford,
Nottingham NG2 7LA

Tel: 0602 455100 Fax: 0602 455311

Mobile: 0850 789492

Contact: Mark Hunt

Constant nutrient availability over an unrivalled longevity is the key to the continuing success of Grace Sierra controlled release fertilisers in the UK turf market.

In new course construction where grass swards can be rapidly established over a short period with only one application of the unique resin coated granules.

Tees, fairways, surrounds and approaches are also ideally suited to the 5 to 6 month release Osmocote N-39.0.0 Sierrablen, Turfmix-28.5.7+Fe and Sierrablen NK-15.0.22+Fe.

The temperature controlled release mechanism ensures that the grass receives the nutrient as and when it requires and if soil temperatures drop, nutrient will not be wasted by harmful leaching.

GRASSHOPPER COMPANY**Stand No. C43**

Haddlesey, Selby, North Yorkshire YO8 8QF

Hadlow College in West Kent offers Day Release courses in golf greenkeeping at NVQ Level 2. The courses involve one day per week during the autumn and spring together with two periods of 3-day mini block spread over a two year period for additional practical instruction.

The courses are held at both Hadlow College and the Horticultural Unit, Canterbury.

Students gain knowledge and practical competences concerning the management of grass for greens and golf courses. The subjects covered are those contained within the training scheme offered by the Greenkeepers Training Committee.

HARDI LTD**Stand No. A31**

4-5 Watling Close, Sketchley Meadows Ind. Est,
Hinckley, Leicestershire LE10 3EX

Tel: 0455 233811 Fax: 0455 233815

Contact: Peter Clarke

On show from Hardi Ltd will be a representative range of the most technically advanced sprayers produced for the amenity market. Whether you are interested in 15 litre knapsack, or an 1500 litre fully hydraulic machine, Hardi has them all. Tractor mounted from 200 to 800 litres, trailed from 200 to 1500 litres, demount sprayers for utility vehicles from 200 to 800 litres. Whatever style of sprayer a variety of boom widths and types can be fitted, these are available in sizes of up to 12 metres, either manual or hydraulic folding. Hardi makes the sprayer to suit your particular job, and with a plethora of optional extras available, a sprayer can be designed and built for any task.

HARTPURY COLLEGE**Stand No. C21A**

Hartpury, Gloucester GL19 3BE

Tel: 0452 700283 Fax: 0452 700629

Contact: Stefan Drew

Full time and short courses in horticulture, greenkeeping and sportsturf management.

HAYTERS PLC**Stand No. C12**

Spellbrook, Bishop's Stortford, Herts CM23 4BU

Tel: 0279 600919 Fax: 0279 600338

Contact: Kim Macfie

Visitors to Hayters' stand at the show will be the first to view the company's latest range of grass cutting machinery for 1994.

Designed especially for golf courses, Hayter's new lightweight TM520 hydraulic five-gang mower offers an economical method of cutting. Its overall width of cut is 3.55 metre. For fairways, the TM729, seven-gang mower has either 25cm high output fixed cutterheads, or 20cm fixed of floating cutterheads.

Hayter's latest hydraulic triple ride-on mower is the T224 - a rugged and highly manoeuvrable machine. Features include high output, plus 2- or 4-wheel drive options.

Also seen for the first time at the BIGGA Exhibition, a three-wheel version of Hayter's T93 fully hydrostatic greens triple mower.

HOLE-IN-WHITE (EUROPE)**Stand No. A4**

Skinnars Farm, Epping Lane, Stapleford Tawney,
Romford, Essex RM4 1ST

Tel: 0708 688435

Contact: R D Paterson

Hole-in-White will be showing again the only successful golf hole turf whitener on the European market now being used for most major professional and amateur golf tournaments throughout Europe today. Come along and see for yourself how Hole-in-White makes this task so simple, don't miss this opportunity - look in on Stand A4 where our staff will be only too pleased to demonstrate Hole-in-White and answer any questions you may have. Don't be left behind, move with the times.

HUXLEYS GRASS MACHINERY LIMITED**Stand No. A25**

The Dean, New Alresford, Hampshire SO24 9BL

Tel: 0962 733222 Fax: 0962 734702

Contact: Martin Cooke

Huxleys Grass Machinery will be showing British equipment designed and built at their new Alresford works. On show will be the Huxtrak turf maintenance vehicle with all-weather cab and large capacity top-dresser. The latest Huxley 358 greensmower and other machines from Huxleys' range of heavy duty reel mowers, reel mowers for compact tractors, turf care implements, Turf Blazer rotary mowers, the Little David stump remover and Royer shredders and powerscreens will also be displayed.

ICI PROFESSIONAL PRODUCTS**Stand No. B21**

Fernhurst, Haslemere, Surrey GU27 3JE

Tel: 0428 645454 Fax: 0428 657222

Contact: Roger Mossop

The ICI Professional Products stand at BTME '94 will feature the full range of quality fertilisers and turf care chemicals manufactured with the greenkeeper in mind. Displays will feature the recent addition to the Longlife range, Mini-Gold sulphur coated urea mini-prill, a 31% nitrogenous fertilizer in a slow release form with one application lasting up to 14 weeks.

'Ultra-Green' water soluble fertilisers have been an immediate success with the innovative packaging and formulations making application simplicity itself. Formulations are the key to success, and nothing highlights this better than the new improved spray dye indicator 'Turf Mark', available as dose measured water soluble sachets for conventional sprayers or in tablet form for knapsacks. Both products will be featured heavily alongside ICI's established turf products and free customer service.

Full details of the free ICI Soil Analysis Service and Empty Pesticide Container Disposal Scheme will be available from the stand.

If that isn't enough to attract your attention, we may have even more good news for you greenkeepers. Call on stand B21 for a warm welcome.

INDEPENDENT FINANCIAL ADVISORS**Stand No. C2**

Ranmoor House, 237 Graham Road,
Sheffield S10 3GS

Tel: 0742 305305 Fax: 0742 309494

Contact: Bob Dudgeon

Through the services of Peter Hoare & Co (Insurance Brokers) Ltd BIGGA have created a panel of local independent financial advisors to cover the UK. Individual firms are available to provide members with impartial advice on important matters such as pensions, life cover and investments. Contact should be made via BIGGA Headquarters in the first instance.

INDUSTRIAL POWER UNITS LTD

Stand No. A2

Sutherland Avenue, Wolverhampton, West Midlands WV2 2RA

Tel: 0902 452138 Fax: 0902 454159

Contact: Karen Davies

IPU had a very successful BIGGA show in 1993, especially for Ferris products.

IPU have distributed specialist 18"-61" rotaries for six years now, and offer an unsurpassed range of professional rotaries.

The latest which will be of interest to golf courses is the 61" Rider outfront rotary. This features two independent hydraulic motors, giving immense manoeuvrability and strength.

To complement this machine, IPU are introducing a new range of small Dori rotaries to be used in inaccessible and difficult areas. The mowers will be in the 18"-21" range.

Dave Ferris, owner and managing director of Ferris USA is a very keen golfer and golf course related machines are now under development.

INSTITUTE OF GROUNDSMANSHIP

Stand No. C36

19-23 Church Street, The Agora, Wolverton,

Milton Keynes MK12 5LG

Tel: 0908 312511 Fax: 0908 311140

Contact: Chris Costello

For nearly 60 years the Institute of Groundsmanship has fought continuously to raise the status of groundsmen and regularise the standards of their work, and so it was with great pleasure that we launched our training manual successfully at Peterborough in 1993. The manual has recently received ILB approval and copies will be available for perusal and purchase.

Full details of the IOG examinations, courses, exhibition, membership and our 60th anniversary conference will also be available.

INTER SEEDS LTD

Stand No. C6

Thorn Farm, Evesham Road, Inkberrow,

Worcs WR7 4LJ

Tel: 0386 793135 Fax: 0386 792715

Contact: Derek J Smith

The Pro range of amenity grass mixtures continue to represent the best value available. Top varieties have been formulated into 20 specialist Pro mixtures, in addition mixtures can be tailored to suit individual projects.

In line with the continued interest in conservation 11 Pro Flora wild flower mixtures have been designed to suit specific soil types, using only native British species.

Also available, a new series of pre-germinated grass blends for rapid establishment, 10 Pro Fert fertiliser blends and a range of biodegradable erosion control matting for establishment of vegetation on difficult and steep sites. Technical staff will be available to answer enquiries.

Come and say hello to

SAMANTHA FLINT

at the BIGGA stand at Harrogate. Meet the team on C15!

INTURF LTD

Stand No. A34

Regent Street, Pocklington, York YO4 2QN

Tel: 0759 304101 Fax: 0759 305229

Contact: Jane Edwards

Greenkeepers will be interested to see the complete range of Inturf's mature golf green turf and golf tee turf which is available in all agrostis, all fescue, fescue/bent and, specifically for tees, with added smooth stalked meadow grass or dwarf perennial ryegrass. All mixtures are offered in seed sourced from four leading seedhouses and all turf is grown

on stone-free sand land and is harvested in either one square yard rolls, 25 square yard rolls or 3 inch thick Lay 'n' Play turf tiles.

A full turf installation service is available operated by qualified greenkeepers all year round and anywhere throughout the country.

Inturf were first with the Big Roll, first with turf tiles and first with BS 5750 Quality Assurance and their proud boast is that they can offer the most advanced and comprehensive range of turf and turf laying systems anywhere. Ask for Simon, Chris or Derek in the stand.

ISEKI UK LTD

Stand No. B22

Broadway, Bourn, Cambridge CB3 7TL

Tel: 0954 718981 Fax: 0954 719731

Contact: Arthur Wood

Iseki UK Ltd provide a complete range of compact tractors and turf maintenance equipment. Compact tractors ranging from 14 to 45 HP supported by various turf care attachments. In addition, for the first time at BTME Iseki will be introducing the new SF300 28HP ride on mower equipped with automatic or constant 4WD system, power steering and hydrostatic drive. Available with either 60" or 72" side or rear discharge decks or cylinder units.

JACOBSEN TEXTRON

Stand No. C13

Jacobsen House, Telford Way Industrial Estate,

Kettering, Northants NN16 8UN

Tel: 0536 417777 Fax: 0536 310245

Contact: Mr R G Orban

Jacobsen will be showing their full range of maintenance trucks, comprising the 810 Express (12.2 cu ft. 1000lbs capacity), Workhorse 2315 (16.6 cu ft. 1500lbs capacity) and for the first time in the UK, the all new Workhorse SV (Systems Vehicle) range. The Workhorse SV (19cu ft. 2200lbs carrying capacity) has more horsepower, higher capacity and more forward gears than any truck in its class. The SV Truck range, in either petrol or diesel powered versions, has an exclusive high range limited steering system which provides enhanced levels of operator safety, and is the only truck with hydraulic PTO for all attachments. Jacobsen will be unveiling a comprehensive range of attachments at the show.

Lamborghini

SEE US
ON STAND
C42 AT
BTME

From one of Europe's largest specialist tractor manufacturers comes a superb range of models eminently suitable for all groundcare work.

Compact models from 25-75HP. All with economical low emission diesel engines;

12 x 12 synchro-shuttle gearboxes; highly manoeuvrable 4 wheel drive;

4 wheel oil immersed brakes from 60HP for greater safety; powerful hydraulics and all with ground preserving low weight for reduced compaction.

Jacobsen will also be showing for the first time in the UK, the revolutionary Autofertil system of recycling grass cuttings. The Autofertil system breaks down the plant material to a liquid which with auxiliary additives if required, can be fed back directly over the surface of the ground providing high quality fertiliser. Using the Autofertil system, problems of cost on standard disposal or recycling methods are avoided and huge savings in fertilisers are possible.

JAVELIN WATER ENGINEERING LTD

Stand No. B51

The Pump House, Belvoir Way, Fairfield Industrial Estate, Louth, Lincolnshire LN11 0YA
Tel: 0507 607175 Fax: 0507 607521

Contact: Mr J R Harrison

Javelin Water Engineering Ltd specialises in the wholesale distribution of branded irrigation equipment and pumping machinery throughout the British Isles. The company is the master distributor for LR Nelson turf products. The LR Nelson turf products range comprising gear-driven sprinklers, valves, controllers and Rain Train self-travellers and Rovatti pumps represent the core business.

Many other irrigation accessories including the new concept of hand-held mobile controllers from Micro Process Applications, valve boxes, hoses and couplings and the Irrifrance Micro.44/120 hose reels complete a product range fully supported by sound free of charge technical advice.

JOHN DEERE LTD

Stand No. B17

Harby Road, Langar, Nottingham NG13 9HT
Tel: 0949 60491 Fax: 0949 60490

Contact: Mrs G Bailey

John Deere's commitment to the golf and turf industry in the UK and Ireland is reflected in a full range of golf course equipment being exhibited at Harrogate. Several major new machines have been launched for 1994 and are on show for the first time.

A tournament-quality finish is provided by the 3235 lightweight fairway mower. This 32hp machine features twice as much power to the reels as competitive makes. There is also a diesel-engined version of the popular 2243 greensmower available.

The Gator 18hp 6x4 and 10hp 4x2 utility vehicles combine high flotation and low ground pressure, making the ideal for all load-carrying operations on and off the turf.

These machines are joined by a 2653 utility mower, a 22-inch walk-behind greensmower and an 1145 ride-on front mower, illustrating John Deere's continuing development of quality equipment for the professional greenkeeper.

JOHNSON SEEDS

Stand No. A39

London Road, Boston, Lincs PE21 8AD
Tel: 0205 365051 Fax: 0205 359857

Contact: Duncan Beall

Johnson's staff will be available to give technical advice about grasses used in golf course maintenance and construction and also the proven merits of 'Apron T' as a dressing to combat seedling diseases.

From the finest green to the most environmentally sensitive wild flower area, our position as a major seed producer and plant breeder enables us to provide, not only the full range of varieties needed, but also the expertise and service that professional users should receive.

A brand new brochure and detailed technical literature will be available so please come and see us in Hall A stand A39.

KINGS HORTICULTURE LTD

Stand No. B12

4 Lancaster Way, Earls Colne Industrial Estate, Earls Colne, Colchester, Essex CO6 2NS
Tel: 0787 223300 Fax: 0787 224509

Contact: John Hinton

Kings Horticulture, as the UK importers of both the BASF Floranid Range and Ironite Superferrite granular iron, will be featuring them on their stand. These high performance products are both innovative and unique and are proving invaluable in the management of modern golf greens.

Easy and safe to use, they are already widely used in Europe and the UK.

Kings are also major distributors of chemicals and top dressings as well as other products to golf courses. Come and talk to their specialist team about what they can do to help you. Leading the way in technical products for modern golf green management.

KUBOTA (UK) LTD

Stand No. A20 & A21

Dormer Road, Thame, Oxon OX9 3UN

Tel: 0844 214500 Fax: 0844 216685

LELY (UK) LTD

Stand No. A23

Station Road, St. Neots, Huntingdon, Cambs PE19 1QH

Tel: 0480 476971 Fax: 0480 216167

Contact: Peter Mansfield

Toro commercial distributors Lely (UK) Ltd will be exhibiting the highly acclaimed 'Workman' utility vehicle at this year's BTME show at Harrogate. This closely follows the successful 'Workman' nationwide demonstration tour which took place throughout September and October where users were able to view and test drive a wide range of vehicles with accessories and attachments. Those who were unable to attend a 'Workman' tour event will be able to view the vehicle on the Lely stand along with products from Toro's extensive range of golf course and grounds maintenance equipment.

LINDUM SEEDED TURF

Stand No. B5

West Grange, Thorganby, York YO4 6DJ
Tel: 0904 448675 Fax: 0904 448713

Contact: Stephen Fell

Lindum Turf has a range of turf to suit all golf course requirements, be it new course construction or replacement and renovations. Some of our green and tee grades (grown on the ideal sandy medium) will be on display and we would be happy to discuss our exciting progress with new mixtures and varieties.

Many new courses bear witness to the excellence of Lindum's products and services. The Gleneagles Monarch's now in full play and the Carnegie Golf Course at Skibo Castle opening later in 1994 are but two examples.

LOCKWOOD GRASS MACHINERY (LESCO)

Stand No. C10

Unit 17, Greenwiche Close, Landser Road, Ipswich, Suffolk IP3 0DD

Tel: 0473 289158 Fax: 0473 289161

Contact: Clive Lockwood

With certain golf clubs concerned at excessive weight of machinery on golf greens, the Lesco 300 petrol greensmower will be shown for the first time at this year's show. A new type of cutting head is now available and can be fitted to the Lesco greensmower range, which has features of quick release units and full floating front roller assembly. Other products available are the popular Lesco Cyclone Spreader, drop spreaders and Lesco 30" trailed gang mowers.

LLOYDS & CO LETCHWORTH LTD

Stand No. B41

Letchworth, HERTS SG6 1JE

Tel: 0462 683031 Fax: 0462 481964

Contact: Derek Haley

Lloyds are pleased to announce an addition to the Paladin range of fine turf mowers. A new 24" is now available enabling your greens to have the quality finish expected from hand cutting but with less effort.

Naturally the famous Leda "Golf Course" gang mower, renowned for its quality and reliability, will be shown.

In addition Lloyds staff will be on hand to discuss all aspects of golf course mowing together with advice on maintenance of existing equipment.

MARTIN BROTHERS (UK) LTD

Stand No. B35

18 George Street, Alderley Edge, Cheshire SK9 7EJ

Tel: 0625 584571 Fax: 0625 586130

Contact: Andy Law

Martin Brothers supply top quality turf dressings for fine turf and winter sports pitches plus a full range of standard and bespoke rootzones. Also available are tees and fairway dressings, par-link, our new pathway material and money store bunker sand. Drainage gravels and other sand and aggregates can also be supplied for delivery anywhere in the UK all a competitive prices.

MOMMERSTEEG INTERNATIONAL

Stand No. C9

Station Road, Finedon, Wellingborough NN9 5WT

Tel: 0933 680674 Fax: 0933 682022

Contact: John Akers

Mommersteeg's new introduction for 1994 is MM9, a special blend of bents for overseeding golf greens.

The best way to improve the year round performance is to establish new plants of the ideal greens species. MM9 comprises 25 per cent each of the three browntop bents - Sefton, Tracenta and Highland - and 25 per cent of the creeping bent, Carmen, all tolerant of repeated close mowing.

John Akers, commercial director, and his golf and amenity marketing team will be on Stand C9 at BTME to tell you more about MM9 and the full range of established Mommersteeg MM blends for every part of the course.

MOORE UNI DRILL LTD

Stand No. B6

Newhill House, 33 Kirk Road, Ballymoney, Co. Antrim BT53 6PP

Tel: 02656 64444 Fax: 02656 65696

Contact: Sam Moore

The Moore 1-3m Uni Drill has been designed for over seeding fairways on golf courses using small tractors (25-50 hp). The Uni-Drill can follow ground contours accurately and plant seeds at a constant depth into its own prepared mini seedbed. It can also cut through dense grass thatch placing the seeds accurately in the soil.

The Uni Drill has a continuous slitting action and moves the soil enough to relieve surface soil compaction.

MULTI CORE AERATORS LTD

Stand No. A41

3 Hillside Close, Euxton, Chorley, Lancashire PR7 6JB

Tel & Fax: 0257 231861 Mobile: 0374 488508

Contact: Ian Waddington

Multi-Core have increased their exhibition space for 1994 and as a result are able to feature both the TM1000 and TM1500 tractor mounted aerators. Both combine robust construction with ease of maintenance, and therefore downtime is kept to a minimum. A vast choice of tine spacings and sizes are available, from mini hollow and solid to 19mm. Hollow giving up to 5 inch penetration, all these will be on display. Also featured will be the popular greenkeeper pedestrian aerator. Available as a 16 inch or 21 inch machine the greenkeeper offers ultra reliability at an affordable price. If you are looking for an aerator in 1994 why not visit our stand, where a warm welcome awaits customers old and new.

MYERSCOUGH COLLEGE

Stand No. A19

Myerscough Hall, Bilsborrow, Preston PR3 0RY
Tel: 0995 640611 Fax: 0995 640842

Contact: Lorna Tyson

Few colleges in the UK can better Myerscough's long association with the sportsturf industry.

This dynamic college offers sportsturf courses at National Certificate, BTEC National Diploma and Higher National Diploma level, as well as providing short courses designed

to meet individual needs.

The college is also leading the field in the development of commercial and educational links within the leisure industry. This relationship ensures that courses are delivered in such a way as to produce highly trained people who are capable of accepting responsibility, and are able to respond to the rapidly changing demands of the market. Come and visit us on Stand A19.

NATIONAL TURFGRASS COUNCIL

Stand No. C1
3 Ferrands Park Way, Harden, Bingley,
West Yorkshire BD16 1HZ
Tel: 0535 273188
Contact: John Shildrick

The UK organisation for top-quality outdoor amenity grass and non-grass playing surfaces. We link together more than 20 national professional organisations. Come to check our current events, publications and special concerns – NVQs, British Standards, Pesticides, Legislation, etc.

NETLON LIMITED

Stand No. B8
Kelly Street, Blackburn, Lancashire BB2 4PJ
Tel: 0254 262431 Fax: 0254 694302
Contact: Peter Langley

Netlon Advanced Turf is the unique combination of a mesh stabilised rootzone and natural turf. Together they provide tees with the inherent ability to recover rapidly from damage and equally ensure the divots are half the normal size. Advanced Turf greens possess unrivalled resistance to compaction so that the turf remains healthy and high infiltration rates are maintained. Walkways and cart paths are able to withstand frequent use as a result of the system's high load-bearing capacity.

NEW HOLLAND FORD LTD

Stand No. C32
Cranes Farm Road, Basildon, Essex, SS14 3AD
Tel: 0268 533000 Fax: 0268 292974
Contact: N MacKenzie

The Ford Compact Tractor range consists of five 4WD models from 16 to 41 Din hp. These include the 27hp 1720, the 1920 at 33hp and the 41hp 2120. Four cylinder engines and creep speed transmissions are standard on 1920 and 2120 models.

Models 1220 and 1520 (16 and 22hp respectively) are available with the optional Ford mid mounted mower deck. The Ford diesel mower range offers four models. The 22hp CM224 and 27hp CM274 utilise hydrostatic transmissions with automatic four wheel drive and are available with 60" side or rear discharge rotary decks. At 14 and 16hp, the GT65 and GT75 riding mower specifications include 48" mower decks, hydrostatic transmissions, and on the GT75, power steering.

OAKLANDS COLLEGE

Stand No. C26
Oaklands Campus, Hatfield Road, St. Albans, Herts AL4 0JA
Tel: 0727 850651 Fax: 0727 847987
Contact: Ian Merrick

The college offers a wide range of training courses for the professional Greenkeeper.

Full-time courses – 1 year course leading to National Certificate in Greenkeeping & Sports Turf Management.

Part-time courses – Level II Greenkeeping & Sports Turf Management

- Parts 1 + 2 Horticultural Mechanics

- Phase IV Business Management.

Short Course Programme – a full range of short one or two day courses designed especially for the greenkeeper.

The college also offers a full training and technical consultancy package to individual clubs and organisations. For full details, please write to the recruitment secretary.

OCMIS IRRIGATION UK LTD

Stand No. A28
Higher Burrow, Kingsbury, Martock,
Somerset TA12 6BU
Tel: 0460 241939 Fax: 0640 242198
Contact: Roger Davey

Ocmis are irrigation experts. Our aim is to promote improved performance and better long term value to the golfing industry, in providing efficient watering systems. Built to last from the outset, with a maintenance and refurbishment facility creating a reliable lifetime expectancy.

The designs we formulate, the products we select and the installation techniques we use provide effective individual solutions.

Our state of the art design capability extends beyond the requirements stipulated by the BTLIA regulations.

Our packaged pump stations, control panels and manifold assemblies were awarded the Rase Silver Medal for 1993.

OTTERBINE AERATORS

Stand No. A10
6 Stuart Road, Market Harborough,
Leicestershire LE16 9PQ
Tel: 0858 463153 Fax: 0858 410085
Contact: Mike Walker

We will again be showing the range of Otterbine Lake aerators. This year the new Air-Flo system, for lakes and ponds that needs aeration with no surface spray, will be shown. A small on-shore compressor drives air through weighted pipe, and diffusers on the lake bed then release a steady stream of bubbles to the surface.

Otterbine is the leader in lake and pond management on golf courses, with installations in this country at 'The Belfry', St Pierre, 'Weald of Kent' and many other prestigious clubs.

Come and say hello to

Tel: 050 278 481 Fax: 050 278 729
Contact: Glyn Prime

Prime Watermen are main agents for the Weather-matic range of irrigation equipment as well as being designers and installers of complete irrigation packages tailor-made for turf, landscape and sports applications.

The Weather-matic range comprises impact and gear driven pop-up sprinklers together with remote control valves from brass and plastic materials and also electrical controllers giving microprocessor accuracy at traditional mechanical controller costs.

Along with this Prime Watermen have introduced a three-wire, remote-valve control system which gives a visual display and permanent printed record of the date and time of irrigation periods, watering times for individual stations.

PSD AGRONOMY LIMITED

Stand No. A13
42 Garstang Road, Preston, Lancashire PR1 1NA
Tel: 0772 884450 Fax: 0772 774445
Contact: Pat Harbridge

PSD Agronomy Ltd provide a complete agronomic consultancy service for the golf course. Whether upgrading a mature course to cope with today's increased play or developing a new course, PSD Agronomy can help you.

Many mature golf courses are suffering severe agronomic problems and PSD Agronomy can provide the technical and analytical support necessary for a busy greenkeeping team.

New golf courses are being planned every week. Having PSD Agronomy as part of the team will help ensure a high quality, well managed project. See Mike Harbridge, John Hacker or David Stansfield on stand A13 for further details of services.

R&R (UK) LTD

Stand No. C45
Blackstone Road, Stukeley Meadows Industrial Estate, Huntingdon, Cambs PE18 6EF
Tel: 0480 411146 Fax: 0480 450091
Contact: Val Cody

R&R will be promoting their new Heftee lift which was launched in the Autumn at the loG. It has been a great success with golf courses and local authorities.

The Heftee is a brand new design which is capable of lifting virtually all mowers and compact tractors used in a professional field.

"We know exactly what the market has been waiting for," says R&R director Paul English "There is now an awareness that mechanics should not have to scramble over the floor on order to service mowers costing in excess of £20,000."

Heftee has a 2000lb capacity, 67" clear underneath working height, 3 or 4 wheel loading, jacking hoist and castors.

RAIN BIRD EUROPE

Stand No. B28
535 Rue George-Claude, Z.I Les Milles,
Aix-en-Provence, Cedex 03 13792 France
Tel: 33 42 24 44 61 Fax: 33 42 24 24 72
Contact: Bruno Windegger

Spanning six continents and touching more than 100 countries with its products and services, Rain Bird has grown to a position of industry leadership through a 60 year commitment to uncompromising quality. Dating from the introduction of its first product, the original impact sprinkler, the company has been known for its innovation in both the design and application of its products.

Today Rain Bird offers landscape and golf architects the widest choice of pop-up impact or closed-case sprinklers, electric valves and water management control systems. Whatever your irrigation needs are: bowling greens, football or rugby fields, horse race tracks, hockey fields, parks and city landscape developments, golf course or putting greens, there is always a Rain Bird solution.

RANSOMES, SIMS & JEFFRIES LTD

Stand No. A30
Ransomes Way, Ipswich, IP3 9QG
Tel: 0473 270000 Fax: 0473 276300
Contact: Mrs K C Smith

Ransomes' position as a world leader in the production of grass cutting and turf maintenance machinery will be illustrated at the exhibition where the company will be showing a range of machines for the golf course market including aerators, greens and fairway mowers.

The Fairway 300, a new high performance 5 unit ride-on fairway mower designed to cope with world grass growth conditions. The Fairway 300 features include 4 wheel drive providing exceptional traction, excellent fuel economy, low exhaust and noise levels. Hydraulically driven 26 inch wide cutting units provide a cutting width of 114 inches.

Triple Classic which offers high standards of finish with precise hand operated hydraulic controls and a choice of cutting units.

Also on show will be a three wheel diesel Cushman Turf Truckster. The multi-purpose system vehicle available with a range of attachments for all aspects of turf care will be shown with the new Wide Top Dresser. The Super Certes fitted with verti groom will also be on display, this pedestrian mower always provides a consistent finish to a green.

REASEHEATH COLLEGE

RIGBY TAYLOR LTD

Stand No. A43
Rigby Taylor House, Garside Street, Bolton, Lancs BL1 4AE
Tel: 0204 394888 Fax: 0204 385276

Following the launch of Mascot Rimidin in January 1993 and the outstanding response it has received from customers, Rigby Taylor are continuing to lead the way with further new products on display this week. The demands now made by sportsmen and women on greenkeepers are very exacting so it is important that products used for the preparation of fine turf playing surfaces are specifically formulated for that purpose. Rigby Taylor have a policy of continuing research and development to bring a supply of new generation products to the market place.

ROLAWN LIMITED

Stand No. A29
Elvington, York, North Yorkshire YO4 5AR
Tel: 0904 608661 Fax: 0904 608272
Contact: Terry Ryan

Rolawn (Turf Growers) Limited will be exhibiting for the first time at the BTME exhibition its new Turfmaster big roll

laying machine.

This highly innovative and practical piece of turf laying equipment has been well received by all in the turf industry since its launch in late 1993 with the company receiving enquiries from as far afield as Japan and Spain.

The company will also be exhibiting its Advantage turf which has been used during 1993 at the Belfry (which hosted The Ryder Cup), St Andrews and on several new courses such as the Leeds Golf Centre.

Also on show will be Rolwan's Medallion turf, which is being increasingly specified for use on tees because of its rapid establishment habit and its extremely hard wearing properties.

RUFFORD TOPDRESS SUPPLIES LTD

Stand No. A46
Fairway House, South Stage, Broadway, Salford Quays, Manchester M5 2UQ
Tel: 061 877 8550 Fax: 061 877 8554
Contact: Peter Jefford

Over the last decade there has been a tremendous upsurge in awareness of users of technical requirements of sands and soils. Through research and development we aim to continually achieve greater excellence in the manufacture of Top-Dressing and Rootzone Construction mixtures for today's informed user.

Our quarries benefit from the latest technology in mineral extraction and processing. With our own in-house laboratory we can monitor materials for consistency at regular intervals. A visit to the Rufford stand is recommended to see their full range of products.

Winkersham, Wokingham, Berkshire RG11 5HF
Tel: 0734 788044 Fax: 0734 785805
Contact: Duncan Stewart

Standard Golf will exhibit the most comprehensive range of quality golf course furniture available in the world today from Standard Golf of the USA. Quality and value are the hallmarks of Standard Golf from rakes to consoles, all are designed with innovation in mind as exhibited by their patented new tour smooth rake.

The Cylex unique signs will be introduced and displayed. Standard Golf UK are the "one stop" company for all your driving range equipment. Their new range mat system and the Golpet tee-up mechanical machines will be demonstrated.

Envirogreen Ltd, the sister company, will exhibit their hazardous waste collection service.

SUPATURF PRODUCTS LTD

Stand No. A5
Amenity House, 2 Maize Field, Hinckley,
Leicestershire LE10 1YF
Tel: 0455 234677 Fax: 0455 234714
Contact: David Rodda/Marcus Palmer

Already making its mark on golf courses throughout the country, Arena GUR is Supaturf's latest workmate for busy greenkeepers, a system specially designed for marking ground under repair areas. The apparatus is compact and lightweight and uses a particularly long-lasting water-based marking liquid which is completely harmless to wildlife and plants. Having good ground clearance the Arena GUR machine will glide over the roughest areas. The trigger assembly can be detached and hand held whilst spraying lines in restricted or difficult areas.

Technical representatives will be presenting Supaturf's traditional range of fertilisers, spreaders and Barenbrugs grass seeds together with the well-known wetting agent Aqua-Gro, with its handy application system called Dilute 'n' Shoot.

SUPREME MOWING LTD

Stand No. A32

Contact: Linda Adams

Supreme Mowing proudly present the Supreme Grinding System designed to accommodate all sharpening needs.

At your request we can provide from single function cylinder or bottom blade grinders to our unique design dual purpose cylinders and bottom blade grinders.

Cylinders can be spun and/or single blade relief ground in frame or on bearings.

Supremes designs incorporate the highest safety levels including integral shatterproof canopies and recirculating coolant system and very importantly 24 volt switch gear.

Also on display will be a full range of high quality replace cutting cylinders and bottom blades.

Why not visit Supreme on Stand A32 at Harrogate.

SYMBIO

Stand No. B49
Sutton Business Centre, Restmor Way, Wallington,
Surrey SM6 7AH
Tel: 081 669 0011 Fax: 081 773 8449
Contact: Guy Longshaw

Over the past year Symbio 'Green Circle' has been cutting fertiliser and fungicide use on many more golf clubs in Britain and Ireland.

Greens are firmer and faster, are less prone to disease and rare disease attacks have not been used to beat fusarium, thatch fungus and anthracnose.

Many greenkeepers are now making cost savings by using Green Circle.

At BTME this year Symbio will also be introducing a recently developed biological treatment for 'black layer', with successful trials backed by plant tissue analysis and photographs.

T & G Turf Irrigation will once again be sharing a stand with Watermatation. T & G have had another successful year installing many large scale automatic irrigation systems using the famous GR sprinklers and TW2 control. Among these installations are Antrobus Golf Club at Warrington in Lancs, Cleethorpes Golf Club in South Humberside and Holme Hall Golf Club in Scunthorpe. T & G are an old established company who believe in quality equipment and pride themselves on giving their customers careful and personal attention. The two partners, Tony Teggins and Noel Glover have over 20 years experience in irrigation installation.

TACIT

Stand No. B2
48 Hillmorton Road, Rugby,
Warwickshire CV22 5AD
Tel: 0788 568818 Fax: 0788 537485
Contact: Richard Webb

TACIT, renowned for the quality of their golf course accessories, will be showing their complete range, including the refined Lazer Holecutter which continues to cut its way to becoming the market leader, the one piece construction ball washer with post and litter basket, the telescopic switch with large grips for those cold mornings, the ever successful swivel flagpoles with anti wear bung and hole-cups, convenient velcro clip on or tie on flags, also logo flags (our speciality). And especially for 1994 a granite style yardage plinth complete with information for only £35.00 complete. New to the range - The Big Bird - all purpose rake.

T.I.L. IRRIGATION LTD

Stand No. A17
Unit 7, Millstream Trading Estate, Ringwood,
Hampshire BH24 3SD
Tel: 0425 476261 Fax: 0425 472380
Contact: Peter Roberts

With water resources at a premium, the pressures put on new or existing golf clubs to become self-sufficient especially with irrigation water, has led to a major increase in the construction of on site reservoirs or the use of in play lakes.

Having stored water it is important to understand that it must be managed properly, as untreated water must be kept clean to prevent anaerobic decay.

The Toro AquaScape range of aeration systems, displayed by T.I.L. Irrigation Ltd., comprising of Surface Fountain

Aerators, Surface or Submersible Aspirators, Diffused Air and Air Stripping Systems, are designed to enhance the quality of stored water naturally - by movement, to prevent stagnation and by maintaining correct oxygen levels.

TILDENET LIMITED

Stand No. B16
Longbrook House, Ashton Vale Road,
Bristol BS3 2HA
Tel: 0272 669684 Fax: 0272 231251
Contact: Ruth Hensman

Tildenet will be exhibiting their established germination material whilst introducing their new lightweight product. With a new price structure for all germination materials and the added protection for greens against frost and snow, a visit to the stand will prove beneficial for all.

In addition to the wide variety of perimeter, ball stop and soil support netting, new products on display include golf target nets and a new material which stops golf balls from plugging on driving ranges.

TILLERS TURF CO LTD

Contact: Mrs Eileen Hawthorn

Watermation, the British irrigation manufacturer, will once again be sharing a stand with their distributor and installer in the north of England, T & G Turf Irrigation of Ripon, Yorkshire, who are listed separately.

Watermation have not stood still over the past 12 months and have developed their new valve in head range of golf

sprinklers, which will be available on the market in time for next Spring. The series, known as GRV20/30/50, incorporates the well proven mechanism of the Watermation GR2, GR3 and GN5 sprinkler for all aspects of golf course irrigation from greens to tees, approaches and fairways. They are designed to give total programming flexibility, coupled with maximum water saving.

WEST DESIGN PRODUCTS LTD

Stand No. A18

Unit 14, Mitcham Industrial Estate,

Streatham Road, Mitcham CR4 2XX

Tel: 081 646 8585 Fax: 081 646 8757

Contact: R C Hanrott

West Design Products, established in 1888, is a specialist manufacturer of high quality signs for the golfing industry. The company can supply all types of signs including tee and distance markers, name plates, entrance and door signs and competition trophies. A unique chemical etching process allows the company to reproduce in metal intricate designs such as logos and armorial devices in a quality not available to golf clubs until now. West Design can also supply engraved plastic signs where clubs are working to a tight budget. Northern Office (Nicholl Graphics) 051 264 7221, Southern Office 081 646 8585.

WRITTLE COLLEGE

AGRILAND

LIQUID GROWTH STIMULANTS

ONE 25 LITRE CONTAINER TREATS 18 GOLF GREENS

AGRIMASTER®

100% natural high nutrient seaweed and protein foliar feed for better grass coverage, robust rooting, durability and healthy sward.

AGRICROP®

Organic-based foliar feed with added nitrogen (5%) and sulphur (4.8%). Perfect rapid uptake, high nutrient treatment for golf courses, wickets, sports grounds and all amenity turf.

Both products tested by The Sports Turf Research Institute, Bingley, and found to increase grass cover.
