The Gazelle and the award winning Buffalo complete the range of pedestrian equipment. Tractor drawn equipment will include the Ranger ground driven gang mowers.

AMENITY LAND SERVICES

Stand No. A10
 Long Lane, Wellington, Telford TF6 6HA
 Tel: 01952 641949, Fax: 01952 247369
 Contact: Ivan Toon

ALS supply and advise on the use of a wide range of turf related products and services, i.e. pesticides, fertilisers, seed and top dressing. All our staff are highly qualified and are always at your service. ALS "contract Services" apply herbicides and other pesticides in accordance with the standards laid down by the NAAC and Monsanto's quality circle. We are widely accepted as being the best in the business and in addition to all this we carry out a full free agronomy service. Our ultimate aim is to breathe fresh life back into golf courses, with ALS organic systems.

AMENITY TECHNOLOGY PRODUCTS LTD

Stand No. C40
 The Clock House, 286 Kings Road, Reading,
 Berkshire, RG1 4HP
 Tel: 0118 9510033, Fax: 0118 9510044
 Contact: Stephen Wells

These days obtaining the perfect playing environment is a never ending job. With products becoming more and more technically based the market has become a minefield of jargon. Let Amenity Technology help to cut through the confusion, by supporting our product with

technical information rather than blinding you with science. Our products are tried and tested throughout the world where they have been proven in a variety of climatic conditions. Once you have perfected your turf why not complement it with some of the best golf course equipment from Canada and Sweden.

ANCHOR INDUSTRIES EUROPE

Stand No. D9B
 Unit 1, Airport Executive Park, Luton LU2
 9NY Tel: 01582 400630, Fax: 01582 401939

Aqua-Vive: Biological Water Clarifier "Are your water hazards really hazardous?" Prevent algae bloom: remove surface scum: get rid of suspended solids and bottom sludge. Eliminate odours. All these by applying only one product: Aqua-Vive. A natural biological process for converting organic wastes into water and harmless, odourless gases. Completely safe for humans, animals, birds, fish, aquatic life, plants, and the environment. Takes minutes to apply using water soluble sachets directly into the body of water.

ASKHAM BRYAN COLLEGE

 APPLIED SEED TECHNOLOGY

SEE US ON
 STAND D29
 AT BTME

Muswell Hill's Cream Tees

Moulded out of intractable London clay, Muswell Hill GC currently suffers from tees that are far too small to cope. "After rain, they become very greasy," explains head greenkeeper, Mick Sherris. "Any re-seed doesn't stand a chance, and can be lost if we cut too early."

Last spring though, Mick was persuaded to try some Fortiva treated seed by Kings Horticulture. He found it gave him the time needed to keep tees in good shape and playable.

"It is very fast to germinate, establishes within 10 days and quickly knits-in. We find we can cut it three times a week without the fear of mowing out.

"Fortiva also allows us to bring into play areas on some tees that have not been used for years knowing they will recover quickly once re-seeded."

The golfers also play their part and are becoming used to using divot boxes. Regulars notice the speed with which the Fortiva seed works. "I have even had members asking where they can get hold of 'that green seed' for their own lawns," says Mick.

Contact: David Smart

Bioseed Probiotic products have been developed to provide turf managers with the ability to supply the precise nutritional requirements of both soil micro biological systems and healthy plant growth. Examples of Bioseed's unique soil and tissue testing service and products will be on display. Sustane has made a major commitment to integrated turf management and the research required to support it. Years of test data clearly show that regular applications of Sustane fertilisers/soil builders add the humus and beneficial soil microbes required to increase a soil's nutrient and water holding capacity, cation exchange capacity, nutrient availability and microbial activity. Research has also proven that Sustane increases disease suppression, improves turf grass quality and colour.

...don't miss anything in the SHOW of the year!

Baddow, Chelmsford CM3 4DD
Tel: 01245 222750, Fax: 01245 222755
Contact: Richard Fry
Information on a major industry initiative awaits the visitor to the Blazon stand at this year's BTME. BIGGA and manufacturers of Blazon have cooperated to provide head greenkeepers with a valuable spraying aid specifically designed to promote safer more effective spraying. In addition to learning how to obtain a free spray management aid, visitors will receive information on other promotions and how they can win for their club a brand new Hardi spraying machine or one of ten Cooper Pegler Series 2000 knapsacks. Blazon, since its launch in 1990 has established itself as the undisputed first choice spray pattern indicator.

When added to the spray solution Blazon provides greenkeepers and groundsman with a simple, inexpensive answer to the effective, efficient and economical application of sprays onto turf and landscaped surfaces.

Many golf courses and local authorities have had Geoblock grass protection system installed by Bourne Amenity and have had excellent results when 'invisible

how hard is your bunker?

Perma-Soil Stabiliser

Perma-Soil stabiliser is a proven soil additive that dries, strengthens, and bonds soil into usable backfill. It minimises subsidence of restored excavations and potholes. It can even hold utility poles in position. Perma-Soil stabiliser increases strength 3 to 16 times more than untreated soil, while retaining original size and shape. Use it for a wide variety of applications to save both time and money.

How can Perma-Soil Stabiliser help you?

Waterline breaks turns wet soil into usable backfill within minutes. Trenches and excavations - minimises settling of backfill.

How is Perma-Soil Stabiliser applied?

As soil is excavated, add Perma-Soil stabiliser to the backfill. While your crew makes repairs, your backhoe operator can turn the backfill to mix properly. Place the mixture back into the hole in 6-to 8-inch layers, tamping each layer as you go.

Perma-Soil is environmentally friendly

Environmentally friendly construction aid which is totally harmless to man, flora and fauna.

ENGLISH GOLF UNION

Stand No. D26
 The National Golf Centre, The Broadway, Woodhall Spa, Lincolnshire, LN10 6PU
 Tel: 01526 354500, Fax: 01526 354020
 Contact: Karen Manning
 The English Golf Union are the Governing Body for Men's Amateur Golf in England with responsibilities for membership, tournaments, handicapping, golf development, golf course management and administration on behalf of its 1820 affiliated clubs. The Golf Development Department remains active in assisting potential developers and local authorities with guidance on the many aspects of this increasingly more involved subject. The Golf Course Committee, formed to assist existing clubs with the management and presentation of their courses, continue to provide sound advice on agronomic and environmental management policies through their continuing series of workshop seminars.

ERIC HUNTER GRINDERS LTD

Stand No. C29
 Hobson Industrial Estate, Burnopfield, Newcastle upon Tyne NE16 6EB
 Tel: 01207 270316, Fax: 01207 270312
 Contacts: Eric and Michael Hunter
 Hunter Grinders will be demonstrating their Jupiter and Juno precision mower grinding machines which are proving popular with golf courses anxious to save maintenance costs and improve grass cutting standards. Hunter machines are market leaders in the technique of accurate 'relief angle' grinding cutting reels. This

method of grinding has become widely recognised for improving the performance of grass cutting machinery and by reducing friction, takes the load from engines and transmissions. Bed knives last 3-4 four times longer with longer intervals between adjustment and it eliminates the 'tram-lining' or 'striping' syndrome associated with tightly set blades and dry weather. Hunter machines grind reels and bed knives accurately on the same machine eliminating the need for a separate bottom blade grinder. They are also water cooled to suppress dust and overheating of blades. The majority of mowers can also be ground 'in-situ' if required. A visit to Hunter's stand would certainly be interesting, educational, save money and could give the greenkeepers more job satisfaction.

ETESIA UK LTD

Stand No. B52
 Unit 12 Hiron Way, Budbrooke Industrial Estate, Warwickshire, CV34 5WP
 Tel: 01926 403319, Fax: 01926 403323
 Contact: Robin Taylor
 New at BTME the Attila 80 ride-on brushcutter tames the roughest areas including gentle slopes and keeps vegetation under control. When it comes to wild flower areas, woodland paths and infrequently mown sites on golf courses, there is nothing to beat an Etesia mower. Etesia's Hydro 100 cuts and collects all types of grass, long or short, wet or dry. In autumn they are ideal for leaf collection. Fitted with a brush they will keep car parks and paths tidy. Amongst Etesia's Viva and Pro ranges of pedestrian rotary mowers there is a model suitable for all types of terrain and conditions.

EUROPEAN TURFGRASS LABORATORIES LTD

Stand No. D6
 3 Cunningham Road, Springkerse, Stirling FK7 7SL
 Tel: 01786 449195, Fax: 01786 499195
 Contact: Ann Murray
 European Turfgrass Laboratories Ltd was established by a number of the Country's leading independent Turfgrass Agronomists in February 1996. The laboratory undertakes a wide range of tests for sportsturf and golf course facilities including PH, nutrient analysis, particle size analysis and USGA root-zone testing procedures. The laboratory has applied for accreditation to the United States Golf Association which is likely to be granted in early 1997. For further details please contact Mrs. Ann Murray on 01786 449195.

FAIRWAY CREDIT

Stand No. D7
 Premium Credit Ltd, The Kirkgate, Church Street, Epsom, Surrey
 Tel: 01372 748833, Fax: 01372 748811

Walk this way

...don't miss anything in the SHOW of the year!

FENCHURCH INSURANCE BROKERS LIMITED

Stand No. D31
17 Manor Row, Bradford, North Yorkshire, BD1 4PB
Tel: 01274 378400, Fax: 01274 392131
Contact: Andrew Lawrence
 Fenchurch is a truly independent broker: our business is won on merit and performance. Independence means that our advice is always objective. In addition, without the bureaucracy inherent in large groups, we are free to channel our collective energies and skills more effectively to meet our clients' requirements and market conditions. The knowledge, expertise and dedication of our personnel are the principal reasons why we continue to win new business and retain existing clients. We place a high priority on innovation and problem solving. We maintain the quality of our service and also secure a high level of continuity among senior staff.

FLOWTRONEX PSI LTD

Stand No. D24
Begonienweg 33, Hamburg 22047, Germany
Tel: 69692390, Fax: 69692391
Contact: Martin Goulding
 Flowtronex PSI Ltd, the golf industry's largest manufacturer of prefabricated pumping systems, combines the finest craftsmanship with the latest technology in producing the new standard in irrigation pumping systems. Whether you need a conventional system or the energy-efficiency of Variable Frequency Drive (VFD), vertical turbine or horizontal centrifugal. Flowtronex PSI will provide the most reliable and cost-effective system available. Flowtronex PSI Ltd, has recently introduced the EF Series fixed speed pumping systems. The EF Series systems are specifically designed for the smaller flowrate turfgrass irrigation market. The EF Series uses a conventional control configuration and vertical in line fixed speed pumps to provide smooth, efficient, and economical operation.

FORCE LIMAGRAIN LTD FORTIVA

Stand No. D29
The Old School, Fen Drayton, Cambridge CB4 5SJ
Tel: 01954 232020, Fax: 01954 232270
Contact: Simon Mitchell
 A new and unique concept of applied seed technology that provides faster, better, grass establishments. Fortiva was introduced as a cost-effective means of ensuring good establish-

ment and rapid return to ideal playing conditions. Especially when renovation time is short or high levels of disease are expected. Fortiva produces more grass in a shorter time and even when the seedbeds and drainage are poor. Fortiva buys time for the turf manager.

GARFITS INTERNATIONAL LTD

Stand No. B27
Cross Scythes Works, New Street, Holbrook Trading Estate, Halfway, Sheffield S19 5GH
Tel: 0114 2513344, Fax: 0114 2513000
Contact: Derek Cooper
 Garfitts International, the sole distributor of Easy Rake equipment in the UK will be exhibiting the range of Easy Rake de-thatchers on their stand at BTME. A selection of the high quality original and pattern replacement parts, on which Garfitts has built its reputation will also be on view. New to Garfitts is a comprehensive range of high quality protective and work clothing, which meets both British and European safety standards. This, and the most comprehensive range of replacement parts for grass and turf care machinery in the UK are detailed in the new 1997 season catalogue, available from the stand.

GEM PROFESSIONAL

Stand No. B31
Brookside Lane, Oswaldtwistle, Lancashire, BB5 3N
Tel: 01254 356611, Fax: 01254 236775
Contact: Chris Nickson
 Now that Sta-Brite Supplies have become integrated into the Gem Professional operation a comprehensive nationwide service is offered for the first time. The Sta-Brite name has been changed giving the company two divisions: Gem Professional (North) and Gem Professional (South). Our team of experienced representatives would welcome the opportunity to discuss your requirements for quality turf dressings and fine turf fertilisers. With spring approaching we would be particularly interested in showing you our range of high performance feeds; Super 1, Super 2, Golf Green 1 and Turf Tone + Iron, plus our highly rated Hi-Flier grass seeds.

GEOSYNTHETIC TECHNOLOGY LTD

Stand No. D9A
Nags Corner, Colchester C06 4LT
Tel: 01206 262676, Fax: 01206 262998
Contact: Duncan Alexander
 Geosynthetic Technology Ltd supply and install high performance corners to fully waterproof lakes, reservoirs, ponds and similar. The company's works – which are undertaken naturally – are covered by long term performance warranties. We welcome enquiries from greenkeepers looking to build a lake or reservoir 'from scratch' or seeking to refurbish an existing leaking pond.

GOLF CLUB MANAGEMENT

Stand No. D8
Harper Trade Journals, Harling House, 47-51 Great Suffolk Street, London SE1 0BS
Tel: 0171 261 1604, Fax: 0171 633 0281

 This is the only official journal of the Association of Golf Club Secretaries, published every month. The journal carries association news, 'Secretary at Work', articles on clubs, courses, and the many aspects of golf management, plus informative and entertaining news in the golf world. The invaluable AGCS handbook is published with the July issue, and the colourful 1998 wall calendar will be issued in November, to help golf executives plan their work and play. The secretaries and their captains receive 'Golf Club Management' automatically, but it is also available on subscription. Find out more about the magazine when you come to collect your free copy!

GOLF COURSE NEWS

Stand No. D24A
38 Lafayette Street, Yarmouth, Maine, USA 04096
Tel: (207) 8460600, Fax: (207) 8460657
Contact: Hal Phillips
 Golf Course News, the news source for the golf industry, reports news and trends regarding the development, maintenance, management and supply of golf courses. A monthly US edition of GCN was launched in 1988. Since then, this four-colour tabloid newspaper has extended its coverage – first, to the East with GCN Asia-Pacific in 1993, and now worldwide with the January 1997 launch of Golf Course News International, circulated six times yearly to more than 15,000 golf courses in Europe, Africa, Asia-Pacific, Australia, Central and South America and Canada. Published by United Publications Inc. – headquartered in Yarmouth, Maine, USA – GCN now reaches decision-makers at more than 30,000 golf courses worldwide. Its readers are course developers, owners, general managers, architects, builders and superintendents/greenkeepers. GCN's seasoned editorial staff keeps readers informed via authoritative, accurate, concise reporting gathered from an international clearing house of golf industry contacts unrivaled in size and scope. Golf Course News also prides itself in being out front when it comes to reporting new course development, agronomic innovation and research, and product development.

 Tel: 011423 324342, Fax: 011423 32444120
 Contact: Richard Kay
 Green-Tech will be displaying their extensive range of environmentally friendly turf and landscaping products, which is distributed promptly by our own transport throughout the Midlands and the North of England. On hand will be Richard Kay, Paul Moore and Melvyn Guy to answer any technical or product queries you may have. There will be samples of Martin Bros. top dressing and pathway material, Headland "Multi-Gro" resin coated fertiliser, Sharpes International Grass Seeds Designer Range, Tech-Guard mesh tree and shrub shelters, buckles and belting, Rainbow "Defender" tree shelters, Vita-grow fertilisers and PBI Amenity Range. We look forward to receiving customers, old and new, to discuss any requirements.

GROUNDSMAN INDUSTRIES LIMITED

Stand No. B21
 The Mill, Seymour Street, Ballymoney, Co. Antrim, Northern Ireland, BT53 6JR
 Tel: 012656 67049, Fax: 012656 66855
 Contact: Billy Warke
 Groundsman Industries, the specialist fine turf aeration company, display at BTME Harrogate '97 the very latest in their range. The new tractor and turf vehicle mounting model 8120 aerator will be on display featuring its 'Rolling Terrain' kit and a unique core gathering system. All models now feature the new box section tining arms giving greater strength for the more difficult compaction jobs. The three pedestrian models have operator comfort in mind with their new Flexi-handles fitted as standard. Six different Tine Holder combinations all interchangeable in

minutes make this impressive line up ideal for all aeration tasks in all seasons. Groundsman continues its policy of product development to offer all professional users the very best in aeration equipment.

HADLOW COLLEGE

Stand No. D15
 Hadlow, Tonbridge, Kent, TN11 0AL
 Tel: 01732 850551, Fax: 01732 851957
 Contact: David Butler
 Hadlow College in Kent offers an extensive range of custom built courses for professional greenkeepers and groundsman. These include day-release courses in groundsman and golf greenkeeping at NVQ levels II & III. There is a sports turf management option available on the full-time First Diploma and National Diploma in Horticulture. The College has its own dedicated training area, including greens and tees built to USPGA specifications. The College's links with the industry ensures the course meet the needs of both employers and trainees and comply with the greenkeepers training committee regulations.

HARDI LTD

Stand No. B38
 4/5 Watling Close, Sketchley Meadows Business Park, Hincley, Leicestershire, LE10 3EX
 Tel: 01455 233811, Fax: 01455 233815
 Contact: Bill Oliver
 Hardi Ltd has established itself as a leading supplier to the industry, by developing a specialised range of Amenity sprayers. This range covers tractor mounted, trailed, de-mountable and skid units. In short we have a comprehensive range of products which is designed to meet the needs of the golf course, park or sports ground. By recognising the need for environmental controls, Hardi Ltd in association with Rogers Innovative are marketing the Windfoil Boom in mounted and pedestrian operated forms, also the Root Zone Injector. Hardi Ltd are also European importers for the renowned range of

Greencare aeration equipment. This range includes the Coremaster pedestrian and tractor mounted corers and the Shattermaster sub-surface aerator. Finally, Hardi Ltd are distributors for the Greens Iron range manufactured by Wood-bay Enterprises.

HAYTER LTD

Stand No. C42
 Spellbrook, Bishops Stortford, Herts CH23 4BD

Tel: 01279 7233444, Fax: 01279 600338

Contact: Barbara Garton

Hayter have been producing top quality grass cutting products for over 50 years without compromising on quality. On Stand C42 this is more than evident with the products on display for golf course and local authority markets. Launched at SALTEX, the new Triple Turf Mower the LT324 featuring a 4 wheel drive "on-demand" system, will make its first visit to BTME. The successful FMS14 Fairway machine now features an attractive cab and our pedestrian greens mower will show why this machine is fast becoming one of the most sought after greens mowers both at home and abroad.

HEADLAND AMENITY

Stand No. C19
 Norfolk House, Great Chesterford Court, Great Chesterford, Essex, CB10 1PF
 Tel: 01799 530146, Fax: 01799 530229
 Contact: Mark De'ath

Headland will introduce their new range of resin coated fertilisers for the first time at BTME. Multi-Gro fertilisers release N, P & K in a controlled manner over 5-6 months. Sustain-FC will also be on show - a slowly available granular iron. In addition Headland will be showing their broad range of liquid fertilisers, seamac range, adjuvants and liquid sulphur. Something for every club. Come and see for yourself.

HEPWORTH MINERALS AND CHEMICALS LTD

Stand No. B19

Brookside Hall, Sandbach, Cheshire CW11 4TF
 Tel: 01270 752700, Fax: 01270 752701

Contact: Trevor Leadbeater

Hepworth Minerals and Chemicals Ltd (HMC) produces under the brand name of Pro-Sport a comprehensive range of graded sands, root-zones and top dressings for application within the leisure industry. Pro-Sport root-zones are available as USGA, Premier Golf, Golf and Sports Pitch. A new product will be on display at BTME 97 - Pro-Sport Eco-Zone, made using a green waste (peat free) product. The new Pro-Sport Leighton Buzzard White Bunker sand will also be on display. Pro-Sport Top Dressing products will also be on display, including the new Pro-Sport Eco-Dress, which again uses the Green Waste technology to provide a peat free top dressing product for the industry.

HLD LTD

Stand No. B24
 The Old Shipyard, Gainsborough, Lincs, DN21 1NG

Tel: 01427 6118000, Fax: 01427 612867

Contact: Martyn Spence

HLD provide a total design and construction service for all forms of timber landscape and engineering structures. Products include low cost kit bridges, elegant large span footbridges, lake edging timers, pergola walkway, decks, shelters and fencing. All structures are fully guaranteed against decay and manufactured to the highest standards.

HUMATE INTERNATIONAL

Stand No. C27
 50A Market Place, Thirsk, North Yorkshire
 Tel: 01845 525585, Fax: 01845 523133

Contact: John McLauchlan

On display will be the full range of Humate products. These include granular Humate, liquid Humate, Humate Stress Reliever and Humate chelates. Aqua-Root wetters, containing Humate, will also be featured. These are in liquid, granular and six ounce pellet forms. Also on show will be our Bio-System MS micro-organism

products which are now widely used by greenkeepers. They are applied with Humates to suppress disease and algae and to reduce thatch and anaerobic conditions such as black layer. Newly featured will be our HW pellets which contain micro-organisms for consuming hydrocarbon spills on greens. Liquid and granular Aquifer omnidirectional wetters for greens and other turf areas will also be introduced.

HUXLEYS GRASS MACHINERY LTD

Stand No. A32
 The Dean, New Alresford, Hampshire
 Tel: 01962 733222, Fax: 01962 734702

Contact: Paul Huxley

New from Huxleys are the Soil Reliever Junior deep tine aerator and Groundforce 104 off-road transport vehicle. The 48" Soil Reliever Junior is a heavy duty machine for smaller tractors, and can aerate to 12" depth. Faster than competitors, it's ideal for greens and small to medium size areas. The Groundforce 104 has a 1500 lb payload capacity, automotive type transaxle, excellent traction and rugged construction. A low cost, economical "working vehicle". The Grainskeeper Greens Brush is used by golf courses throughout Britain for integrating top-dressings quickly and effectively, and to help produce faster, more even putting surfaces. Huxleys also manufacture and sell a wide range of grass maintenance machinery.

THE HYDROSCAPE GROUP

Stand No. C26
 Water House, 10 Carvers Industrial Estate, Southampton Road, Ringwood, Hampshire, BH24 1JS

Tel: 01425 476261/2, Fax: 01425 472380

Contact: Graeme Francis

The Otterbine range of water aeration equipment and floating fountain are being used increasingly on golf courses around the country. The range, distributed in the UK solely through The Hydroscape Group, is particularly geared to oxygenating and circulating water and has

proved to be the most cost effective long term way in which to tackle the causes, and not just the symptoms, of poor water quality. New Otterbine products for 1997 include the Tri-Star floating fountain/aerator and Otter Clear, which complements aeration and bio-augmentation, a process of introducing bacteria which improves water clarity, reduces pH and removes sludge from the pond bottom.

INDUSTRIAL POWER UNITS LTD

Stand No. C5
 Sutherland Avenue, Wolverhampton WV2 2RA
 Tel: 01902 452138, Fax: 01902 454159

Contact: Michael Tinning

Industrial Power Units are exhibiting the SubAir turf aeration and drainage enhancement system. This unique approach to the process of aeration utilises the drainage pipes as a non disruptive access to the rootzone. The suction applied by SubAir allows the green to truly breathe. SubAir aids in control of moisture content within the rootzone and can accelerate surface drainage. IPU will also be showing the SubAir IPU2000 soil gas analyser. This valuable management tool displays and records the levels of important soil gases to monitor the effect of aeration and to give long range warning to the turf manager for potential problems

INSTITUTE OF GROUNDSMANSHIP

Stand No. D22
 19-23 Church Street, The Agora, Wolverton, Milton Keynes
 Tel: 01908 312511, Fax: 01908 311140

Contact: Chris Costello

The IOG has maintained its highly accredited education scheme since 1953. The present format, recently reviewed, reflects the latest requirements in education whilst ensuring that modern techniques and skills, combined with ongoing research and development, are passed on to students through the demanding syllabuses of the IOG's Certificates and Diplomas. The IOG organises varying courses, throughout

Our newly-developed top quality grass variety is particularly suited to close mowing to give you the leading edge in preparing golf greens, tees, bowling greens and ornamental lawns.

New Mocassin, a slender creeping red fescue, gives superb disease resistance and high shoot density for a close-knit, even-textured turf which leads to a true run of the ball.

As part of our MM10 mixture, it offers fresh opportunities for variations in greens mixtures adding resilience to the turf.

For free technical advice on how you can take the lead with new Mocassin and our MM10 mixture, or for your nearest distributor, call the Mommersteeg Main Line on 01480 459500.

Number one seed. Mommersteeg

KAWASAKI MOTORS (UK) LTD

Stand No. C14
 1 Dukes Meadow, Millboard Road, Bourne End, Bucks, SL8 5XF
 Tel: 01628 851000, Fax: 01628 850886
 Contact: James Houlton

With a well earned reputation for reliability and durability in the turf and ground care industries the Kawasaki range of Mule Utility Vehicles is added to with the new Mule 550 model to be seen for the first time in the UK at this year's BTME. With the same engine and automatic transmission as the previous Mule 500 the main difference is the bench seat is now fitted allowing a passenger to be carried. With a cargo bed capacity of 160 kg (352lbs) and 550 makes the ideal economical workhorse for sensitive surfaces and comes with 12 months warranty. The larger 2500 and 2510 Mules of both 2x4 and 4x4 drive configuration continue to increase sales where the requirement is for a sturdy 2 person all weather workhorse. A full range of accessories is available from any of the countrywide Kawasaki Mule dealer network.

KINGS HORTICULTURE LTD

Stand No. B10
 4 Lancaster Way, Earls Colne Industrial Park,
 Earls Colne, Colchester, Essex, CO6 2NS
 Tel: 01787 223300, Fax: 01787 224509
 Contact: John Hinton

Innovative, award winning, practical, exclusive. King's will be exhibiting selections from their exclusive produce range. Powerhead is a unique cutting device for the use in maintenance of golf course irrigation. The Powerhead attachment fits neatly onto a strimmer and in 2 seconds each sprinkler head is cut clear of grass, ensuring your irrigation system works efficiently and freeing up vital labour time. The Floranid range of quality high performance fertilisers from BASF is expanding all the time and details of the new developments will be available at the show, including Nitrophoska Perfekt the conventional fertiliser especially suitable for golf fairways.

Ironite and Saturaid, specialist products for turf from across the world, combine the advantages of granules with the efficiency of "slow releases" to give proven performance against all kinds of stress and dry patch. King's Amenity Specialists will be available to discuss with you, all of your turf requirements.

KUBOTA (UK) LTD

Stand No. A40
 Dormer Road, Thame, Oxon OX9 3UN
 Tel: 01844 214500, Fax: 01844 216685
 Contact: Stuart Ellis

'Kubota's Super Bs Out In Force.' Kubota, the UK's number one compact tractor supplier is out in force at BTME '97. Leading the show line-up is Kubota's latest range of 18-24hp compact tractors, the Super B series. A high mowing deck clearance, a modern Buisard Cab and Bi-Speed Turn (two larger models only) make the Super Bs ideal for operators in the golf and amenity sectors. The three-strong Grandel range of 35-45hp compact tractors is also featured along with the best in ride-on mower technology from Kubota's 'F' series of front mounted mowers. Visit the Kubota stand and see why more people choose a Kubota.

LEVINGTON HORTICULTURE LIMITED

Stand No. B2
 Paper Mill Lane, Bramford, Ipswich, Suffolk
 Tel: 01473 830492, Fax: 01473 830386
 Contact: Natalie McBride

Levington Horticulture Ltd will be emphasising the key spring products from their range at BTME - Greenmaster Mosskiller and Turfclear for casting worm control. Greenmaster Mosskiller is specially formulated to revitalise turf after the stresses of the winter period, providing the optimum 14:0:0 nutrient formulation for vigorous and healthy grass growth combined with an 8.9% iron content for excellent moss control. In common with all the Greenmaster range, Greenmaster Mosskiller is manufactured to stringent quality standards for accuracy, ease of use and reliable turf growth and colour response. Levington Turfclear, based on carbendazim, is the dual acting turf fungicide and worm cast control product - now available in the 5 litre economy pack.

LINDUM SEEDED TURF

Alan Shepard played golf on the moon - we helped put him there! LE oils and greases are currently being used by over 600 golf clubs and turf management companies throughout the United Kingdom. LE's high performance grease contains Almagard, LE's exclusive wear reducing additive which won't wash or pound out. All our products are designed to deliver higher performance levels than others. Maintenance and downtime costs are cut dramatically so you, the end user, will recover the initial cost of the lubricant many times over. Don't just take our word for it, come and see for yourself how our products compare with our competitors. Demonstrations will be given throughout the exhibition.

Weldon Road, Corby, Northants NN17 5US
Tel: 01536 402182, Fax: 01536 204254
Contact: David Evans

New research has shown that Maxicrop Bio-stimulants increase soil microbe activity around plant roots, which in turn act to exclude disease and improve early nutrient uptake, ensuring strong, early grass growth. At the same time, leaf chlorophyll levels are increased, boosting the photosynthetic process, leading to hardy plant growth. Talk to us about a turf management programme which gets the best results from bio-stimulants.

**MOMMERSTEEG INTERNATIONAL
Stand No. C4**

Spitfire Close, Ermine Business Park,
Huntingdon PE18 6XY
Tel: 01480 459500, Fax: 01480 459990
Contact: Phil Davies

A comprehensive line-up of grass seed varieties and mixtures to suit every greenkeepers need awaits visitors to the Mommersteeg International stand. The display features Mocassin a highly-rated slender creeping red fescue in STRI trials. Mocassin has been included for the first time in two specialist mixtures for the golf course - MM12 a mixture for tees and fairways and MM13 a fine fescue mixture for tees and fairways without smooth stalked meadow grass. Also featured will be the Mommersteeg biological seed treatment - Improved Headstart. The reformulated seed treatment is used on all Mommersteeg MM mixtures and ensures better root and shoot development, greater water absorption and improved photosynthesis.

MOORE UNI-DRILL LTD
 Stand No. B20
 33 Kirk Road, Ballymoney, Co Antrim,
 Northern Ireland, BT53 6PP
 Tel: 01265 65696, Fax: 012656 64444
 Contact: Sam Moore

'Moore Sportsfield Drill 1.2M.' The drill can follow ground contours accurately and plant seeds at a constant depth in its own prepared mini seedbed. Seeds planted at 12mm give an excellent rooting structure, which holds the grass sward together better than shallow planted seeds which tend to be more easily scuffed off. To obtain a hard wearing playing surface, the drill should be used at regular intervals. Root pruning helps to develop and strengthen

the root structure thus giving a much improved playing surface. Fairways on Golf Courses should be seeded every Autumn. Root pruning which relieves surface compaction and aerates the soil, simulates root growth and encourages the existing native grasses to grow between rows.

MULTI-CORE AERATORS LIMITED
 Stand No. B13
 6 Chestnut End, Boson Spa, Wetherby,
 West Yorkshire, LS23 6JG
 Tel/Fax: 01937 843281
 Contact: Katharine Waddington

Designed and manufactured in the UK and to be launched at the BTME show by Multi Core Aerators Ltd will be the new MC15 tractor mounted aerator. Both the MC10 and MC15 models now feature a one piece steel floor plan for added strength and rigidity. Larger bearings, stronger tine arms, fully sealed flexible link units and a fully floating turf holder have now been incorporated. Lower hitch points and a larger roller allow for greater ground clearance and easier coupling to the tractor. Both the MC10 and MC15 are CE marked and this assures the cus-

tomers that they comply fully with current EU health and safety laws. Both machines are supplied as standard with 61mm spacing heads, mini tine heads, one set of 13mm hollow tines, one set of 9.5mm mini solid tines, turf holders, parking stands, core windrow assembly and power take off shaft.

MYERSCOUGH COLLEGE

NEW HOLLAND UK LTD

Stand No. C47
 Cranes Farm Road, Basildon, Essex
 Tel: 01268 292590, Fax: 01268 292974
 New Holland Series 20 tractors are renowned for their strength and durability which is achieved through their robust construction. With engine and transmission forming the main chassis structure, Series 20 models combine outstanding hydraulic performance with superb handling characteristics. CM commercial mowers have a specification which includes automatic 4WD engagement and a hydraulic deck weight transfer system for improved traction. For mowing in confined areas, GT mowers with their three cylinder diesel engines, are available with 48" side or rear discharge decks. High torque reserves are a feature of the Iveco diesel engines used in the new Series 35 multi purpose and micro tractors. With hp levels from 45 to 95, these tractors offer a specification to suit most applications.

NORTH STAFFS IRRIGATION COMPANY

Stand No. D11
 Ivy Mill, Longton Road, Stone, Staffs, ST15 8TB
 Tel: 01785 812706, Fax: 01785 811747
 Contact: Martin Hinchliffe
 North Staffs Irrigation is a well established, reliable, family run business staffed by qualified engineers and operated without the use of sub-contractors. The company has been trading for almost thirty years and in that time has completed work at many of the Championship courses in the UK including Royal Lytham & St. Annes which North Staffs Irrigation prepared for the "Open" this summer. Our Principal Roger Hinchliffe and his sons Martin and Andrew will be available throughout the Exhibition to answer your questions and give advice.

NORTH WEST TURF

Stand No. A1
 Mickering Lane, Aughton, Nr Ormskirk, Lancs
 Tel: 01695 422144, Fax: 01695 424251
 Contact: Ian Mercer
 North West Turf offers a wide range of cultivated turf for all golf course requirements. Our 'Royal Blend' is our greens turf. 'Aughton Green' is our tees turf. Budget downgrade turf is sometimes available at reduced prices making turf more affordable for larger areas, such as fairway

repair work. Giant roll or standard rolls available. Grown on a sandy soil, please ask for details. We are also able to offer TPI approved turf, with a declaration of turf characteristics declaring exactly what the turf consists of. This is your guarantee of quality. We look forward to meeting customers new and old at our stand A1.

ment's Best New Sports Turf Product at SALTIX 96 – the Little John self-propelled pedestrian hydraulic scarifier and verticutter. This unique machine has a hydrostatically driven, fully floating head that takes interchangeable options including scarifier, verticutter, sorrel roller or brush. Other turf care equipment on show includes the 24" Big Willy aerator, sorrel rollers, dragmats, rakes and brushes. Neary's Cup Cutter grinder keeps a keen edge on cup cutters and lessens the risk of disrupting turf surfaces around the hole. Acrow ballpickers are suitable for most types of terrain and confined areas.

RITEFEED LIMITED

Stand No. C12
 Electron House, Electron Works, Brook Street, Preston, Lancashire PR1 7WH
 Tel: 01772 253521, Fax: 01772 881338
 Contact: John Walker/Richard Lawrence
 Ritefeed, Britain's fastest growing supplier of organic fertilisers will once again be supporting BTME. On display will be Ritefeeds unique computer based soil analysis, as well as, the most extensive range of liquid fertilisers available. John Walker Managing Director of Ritefeed commenting on his companies continued support of BTME said "Harrogate is without doubt the most important show for our company. We have concentrated on developing relationships with Course Managers and it is an ideal opportunity for us to meet many existing friends as well as meeting new ones. This year has been an exciting one, with us now supplying the vast majority of Britain's leading golf clubs, including Gleneagles and The Belfry."

ROFFEY BROTHERS LTD

Stand No. C30
 Throop Road, Throop, Bournemouth BH8 0DF
 Tel: 01202 537777, Fax: 01202 532765
 Contact: David Roffey
 With golf courses and other sports facilities subject to intensive use, the selection and application of appropriate top dressings is a key consideration for everyone involved in the upkeep of such surfaces. Roffey will be featuring a technically superior range of rootzone materials and dressings, including their unique Xylor-ganic. Roffey will also be showing their range of slow and controlled release fertilisers which were introduced earlier this year and which have been enthusiastically received by many greenkeepers.

Contact: Mark Hunt

Scotts UK Ltd will be displaying their successful range of fertilisers for close mown and fine turf applications featuring Scotts unique Poly S and Methylene Urea technology. Alongside these products will be the market leading controlled release fertiliser - Sierrablend Turfmix, available in both 5-6 and 8-9 month longevities for once per season application to tees, fairways, wear

areas and new course 'grow in'. Also on show will be the popular R8-A spreader with its unique patented helical cone for even application of fertilisers to most areas on the golf course, together with new product literature.

SEWARD GRASS MACHINERY LIMITED

Stand No. C28
Windmill House, Sutton Road, Wigginton, York YO3 3RA
Tel: 01904 765949, Fax: 01904 760016
Contact: Paul Seward

Specialising in turf compaction Seward is the first company in the UK to operate the vertidrain and now has available two 2.5m fairway and two 1.45 greens machines. Swards have now added their own developed sand and gravel slitting machine to their range for both sale and hire marketed under the Jemison Agri Bander trade name. Overseeding is carried out with various types of drills, stone burying, hollow tining, fairway grooming with a collector is also available. Top dressing is carried out with a 1 and 4 ton spreader. We are also distributors for Force Limagrain Fortiva grass seeds, fertilisers and top dressing.

SHARPES INTERNATIONAL

Stand No. B28
Sleaford, Lincs, NG34 7HA
Tel: 01529 304511, Fax: 01529 413928
Contact: Ian Backhouse

Sharpes International are highlighting four new varieties of perennial rye grass which have been added to the 1997 STRI list. The varieties are Bellevue, Brightstar, Fancy and Repell. Bellevue is fine leaved and scores highly for shoot density. Its growth pattern will make the variety useful in low maintenance conditions. Brightstar, which originates from the USA, will perform well in mixtures where wear and appearance are important. Fancy and Repell are two mid-table varieties which give a good performance for those whom economy is a key consideration. Technical staff will be available to discuss these and other varieties in more detail.

SHELTON TRENCHING & SYSTEMS LTD

Stand No. C46
Fir Tree Farm, Darfield, Barnsley S73 9JB
Tel: 01226 751762, Fax: 01226 755481

More new innovative products and services from Supaturf. At Harrogate 1997 Supaturf will have their biggest stand yet and will be launching new innovative products such as Aqua-Pro, a new technology wetting agent. Aqua-Pro completes Supaturf's range of soil surfactants offering all the new technology benefits of not needing to be watered in and guaranteed not to burn, all at an attractive price. The new even-spray sprayer will be launched offering a compact and highly effective electric sprayer and the award winning clean carbon will be demonstrated. The new "Supaturf On-Line" service will be demonstrated, offering greenkeepers access to information and technical advice 24 hours a day, 7 days a week. Another innovative year for Supaturf.

SWAN PLANT SERVICES LTD

Stand No. C45
9 The Grove, Parkgate Industrial Estate, Knutsford, Cheshire
Tel: 01565 650567, Fax: 01565 650769
Contact: Ted Mitchell

Swan Plant Services is in its fourth season as the country's leading business specialising solely in the hire of horticultural equipment to local authorities, NHS Trusts and professional groundsmen. Its free delivery and collection ser-

vice provides state of the art plant, from hedge cutters to ride-on out front rotary mowers, catering for a multitude of disciplines and individual seasonal requirements. Managing Director Ted Mitchell, who has more than 25 years' experience in the hire business, identified a niche market by recognising that short term hire meant customers' capital was no longer tied up in valuable plant used just periodically each year.

SYMBIO BIOTECHNOLOGY

Stand B25
 38 Bookham Industrial Park, Church Road, Great Bookham, Surrey, KT23 3EU
 Tel: 01372 456101 Fax: 01372 456099
 Contact: Guy Longshaw
 BTME 1997 will be an exciting show for Symbio. In November '96 we expanded into new premises giving much larger and more flexible manufacturing output. This allows for the long awaited launch of Symbio Granular and Symbio Liquid Bug Booster maintenance products designed for regular convenient and cost effective application to prevent problems and maintain excellence. Many more clubs will now be able to reap the benefits of Symbio Biotechnology with preventative management rather than waiting until they have problems before calling us in. So whether you have problem greens or you are interested in how biotechnology can be used to turn good green into great greens, come along and meet us on stand B25.

TALBOT FARM LANDSCAPES

Contact: David Rae

At this year's show, Wiedenmann UK will be displaying the popular Terra-Spike P160 with new speed linkage which enables the machine to be operated at higher speeds, producing work rates of up to 3,200 sq. metres per hour. The Terra-Spike comes with all the usual operator friendly features. David Bate, who has 20 years experience within the industry has just joined Wiedenmann UK as Regional Sales Manager for England and Wales and will be on the stand with Director David Rae to deal with your enquiries on Wiedenmann's full range of products. For further information, please contact Wiedenmann UK on 0141 884 2552.
