**ON COURSE WITH BIGGA EDUCATION**

Practical Greenkeeping by Jim Arthur

No one knows more about golf greenkeeping than Jim Arthur, who with a career spanning six decades has given priceless guidance and advice to over 530 golf clubs throughout the UK and Europe, while also acting as consultant agronomist to the Championship Committee of the Royal and Ancient Golf Club of St Andrews. Now in Practical Greenkeeping, Jim Arthur reveals how golf courses can flourish by following traditional methods, which the reader will soon discover are not only the most simple but also the most effective.

For the new generation of student and trainee greenkeepers, Practical Greenkeeping will be indispensable, providing a valuable insight into the nuts and bolts of traditional golf course management, while it should be required reading for all golfers who seek a greater understanding of what goes on behind the scenes. Seasoned golf course managers also will be inspired by Jim Arthur's championing of their cause, while praising the confirmation that they are firmly on the right lines, his words their finest ally.

Finally, every chairman and member of a golf club green committee, clutching their copy of Practical Greenkeeping, should beat a path down Jim Arthur's well-proven route. It could well lead to the salvation of their golf courses, while making them look awfully clever into the bargain!

Golf Course Presentation

"This booklet is a must for all course managers because when a tournament player, or even an amateur golfer, leaves a golf course they remember how it looked, not how fast it played." Mike Merrick, Course Manager, Penina Golf Complex, Algarve, Portugal.

"Presentation is one of the most important features for the staff to devote their time to and this booklet is full of valuable advice." Jack McMillan, ex-Course Manager, Summingdale and Course and Consultant.
