Scotsturf is an annual event which Scottish greenkeepers have "ring fenced" in their diaries from very early on indeed and only a dire emergency would keep them away from keeping the date. Coming at the end of the growing season - although the seasonal element of the British weather seems to have been consigned to history if the last two years are any measure - the show is an ideal opportunity to assess new or replacement machinery or take a look at the seed, fertiliser or chemical products which are currently on the market.
