

Toro Fever

BIGGA HOUSE was alive to the sound of sharp answers to incisive questions when the third combined running of the Toros was held in October.

The six finalists of the Toro Award for Excellence in Greenkeeping and the eight in the Toro Student Greenkeeper of the Year were put under the spotlight by the two sets of judges and it would be fair to say that if any one of the 14 had taken the place of Brian Turner, of Sunningdale, and Tommy Givnan, of Bowring Golf Course and Myerscough College, there could have been no complaints.

To have even made the final each of the Excellence finalists had to impress a judge on a course visit at regional level - there was one wild card used at the judges' discretion - while the students had to be nominated by their college before surviving another regional interview.

It ensured a rich crop of talent arrived at BIGGA HOUSE to be put before the judges.

The Excellence judging panel was Walter Woods, who had also visited each of the finalist's courses; Graham Dale, Managing Director of Lely (UK); Bob Buckingham, Toro's European Sales Manager, and Neil Thomas, BIGGA's Executive Director. The Student judging panel comprised Andrew Brown, Toro's Corporate Accounts Manager for Europe, the Middle East and South Africa; Pete Mansfield, of Lely (UK); Jim Paton, BIGGA's Education Sub Committee Chairman, and Ken Richardson, BIGGA's Education and Training Manager.

In the end after a full day of interviews and deliberations, at which Walter's assessment of the finalist's golf course and course management practices were built into the final marking, Brian Turner, emerged as the narrow winner.

Brian received a trophy, a trip to the GCSAA Show in New Orleans and visit to Toro's US Headquarters; Sunningdale wins a Toro 3000 triple and his team a set of BIGGA waterproofs each.

The five runners-up each received a crystal trophy to commemorate their achievement in reaching the National final.

The winner of the Student Award was announced as Tommy Givnan, with the two runners-up Michael Bush, of St Mellion G&CC and Cannington College and Andrew Wood, of Singing Hills GC and Plumpton College.

Tommy won a residential study course in the States while Michael and Andrew won all expenses paid trips to BTME.

Brian Turner has no doubt about what becoming Toro Excellence in Greenkeeping Award winner means to him as he told Scott MacCallum

Icing on the cake

When Sunningdale Course Manager, Brian Turner, was asked what becoming the third Toro Excellence in Greenkeeping Award winner meant to him he said "It's the icing on the cake."

And in Brian's case, when the cake in question means his own greenkeeping career, you can tell he is particularly proud of his achievement.

Sunningdale Golf Club has always played a huge part in his life. He is a native of the town, he'd caddied at the club, he was, and still is, an Artisan member and, when he started greenkeeping, it was as a 19 year-old member of the Sunningdale staff having shelved thoughts of becoming a professional golfer - his current handicap is 1 and he has been as low as +1.

That affection was the magnet that drew Brian back to the club three years ago when he had an excellent job at Worplesdon Golf Club.

"It was always my dream to return to Sunningdale as Course Manager and I was delighted when I got the job in '96," said Brian.

His CV contains the names of three prestigious golf clubs located within a radius that would be covered by very few number of Tiger Wood drives.

"I left Sunningdale to move to Wentworth. I was in my early 20s, about to get married and there was accommodation with the Wentworth job," explained Brian.

Over the next 12 years he rose to become Head Greenkeeper on the West Course before the job of Head Greenkeeper at Worplesdon came up. He spent 13 years at the club, even winning the famous Worplesdon Foursomes during his time there.

"Sunningdale was the only place I would have left Worplesdon for

as I had a really good job there - I could play golf with the members and had a very good relationship with everyone at the club. I thoroughly enjoyed my experiences," he said.

When the job became available in '96 Brian wasn't going to apply as, for him to get it, a tradition going back to when the club was founded, would have to be broken.

"All the club's Head Greenkeepers or Course Managers had been Scotsmen until I came along," explained Brian.

"But the club also broke with tradition when appointing its last club professional because when Keith Maxwell got the job he was the first not to have been a Ryder Cup player. They obviously don't mind breaking with tradition now and again... which was good for me."

"Finally I decided to give it a go as there was no harm in trying and I made the short list."

The fact that he felt he had nothing to lose relaxed him come the big day.

"I went in and it was a carefree interview for me. I've played here

all my life so I knew the courses inside out and when I was asked questions I gave totally honest answers," said Brian, who was 50 when he took the post.

Since taking on one of the most sought after jobs in greenkeeping, Brian has concentrated on the presentation of the Willie Park-designed Old Course and the Harry Colt-designed New while he has also worked hard to reduce the thatch build up in the greens.

"We do a tremendous amount of aeration which can be a nightmare for the golfer and, as a result, a nightmare for us...you know you're going to get flak but you just have to bite the bullet."

Should the golfing calendar oblige, Brian likes to do his major aeration in August, something he started while at Worplesdon.

"Hollow tining was always something that was done in spring and autumn but I never felt it was the right time of year because the recovery rate is slower and the greens are bobblier because they are softer. I thought August would be a great month to do it as the soil is warm and the grass is still growing, while you don't have to worry about smearing as the cores come out nice and cleanly."

"I said to Worplesdon that I'd like to do it, we tried it and within two weeks you wouldn't have known we'd hollow tined. You'd be surprised how many people now hollow tine in August," said Brian.

In addition he makes a point of combining his hollow tining with vertidrainage.

"The vertidrain does leave the surface a little bobbly and uneven but if you put the hollow tiner on it smooths out the vertidrain holes to the extent that you can't tell it's been vertidrainaged."

Brian has a team of 22 plus a gardener and this includes a full time mechanic a mechanic/greenkeeper
