Micro site Maxi info

Major new developments to the BTME microsite

As part of BIGGA's existing website - bigga.org.uk - a BTME Microsite has been added to make pre-registering for the Show, booking accommodation, and reserving stand space, just a few clicks away. It also means that exhibitors can have their stand and company information available to everyone much earlier than in the past, while visitors can familiarise themselves with the show layout months before they arrive in Harrogate.

In a new departure for 2002 and in response to the queues, which were a direct result of the record numbers who visited Harrogate last January, everyone who attended BTME2001 will automatically be pre-registered for BTME2002.

If you didn't attend January's show, however, or your personal circumstances have changed - new job or residential address for example - you can pre-register using the Microsite.

Pre-registration

Simply click on the Pre-registration option in the navigation bar at the left hand side of the page. You'll then go to the pre-registration page where you will find a number of ways in which you can sign up for your free ticket. By clicking on the email link, you will open up a separate page containing an easy-to-use form. Fill this in, click the submit button, and there you are. You will receive confirmation that your form has arrived and that your registration will be processed.

Please note that all badges will be mailed in early January 2002

Alternative means of registering are the telephone option Tel: 01423 856062 Fax: 01423 528686 or the mail option by calling BIGGA HOUSE Tel: 01347 833800 and asking for a pre-registration card.

Exhibitor information

The new BTME Microsite gives so many added benefits for exhibitors.

Existing exhibitors can list important contact information for themselves, plus 100 words on their new launches or general company details. These are then activated by microsite visitors when they click on the relevant stand within the on-site Show map.

Visitors to the site can then access individual company websites using this advanced function.

Potential exhibitors can identify an available stand and click on it to learn the size and cost - as space

only or with shell scheme. If they wish to proceed, they can then fill in an online form and reserve that stand for themselves. Easy!

The site also includes an online accommodation booking service, up to the minute information on the Education Programme and important information about the social side of the week.
