Exhibitors' Preview...

British & International Golf Greenkeepers Association

Greenkeeper International has long been regarded as the market leading publication and a must read magazine for everyone wishing to keep up to date with developments within the turf industry.

Editorial covering interviews with Course Managers and Head Greenkeepers at courses around the UK and beyond, technical articles from some of the foremost authorities in their fields, information on new developments, BIGGA and member information and news make Greenkeeper International the definitive publication. **Accept no imitation.**

Come and pick up the latest issue from the BIGGA stand.

Stand: Q128 - 129

Ecosolve

Ecosolve are exhibiting their unique Ecosol Aero-fil System and products at Harrogate for the 3rd year and urge every greenkeeper to visit this stand to witness state-of-the-art turf care in operation. The respected and established Drill'n'Fill and

Deep Drill aerators are renowned throughout the UK and Europe. Championship to council courses all use the machines. Shouldn't you too?

Now accompanying these are some equally innovative products never before seen in the turf market - WormZtat is a soil tonic that will help turf recover from the effects of worms and prevent their damaging activity. Nutribeau is a breakthrough in the struggle to establish and maintain turf grass plants in tough conditions. This product accelerates seed germination and establishment of the mature plant without inducing soft & fleshy cell structure in the plant. It is ideal for alleviating drought stress too, as it has unprecedented water retentive capacity.

Come and visit us for an informative yet relaxed chat and see our results!

OnCourse

The powerful organiser keeping your golf course green!

Golf Club members and owners are continually demanding better quality playing conditions, which brings the role of Golf Course Managers into sharp focus. Not only are they expected to keep the course in excellent condition they also have to be skilled administrators and personnel managers. Additionally, Golf Club Managers need detailed and well-structured reports on golf course operations, which can be a time consuming task. *OnCourse*™ has been developed to make all of these things easier.

For more detailed information and a **free** demonstration CD, please contact ken@bigga.co.uk **01347 833800**

Simon Tullett Machinery

IN THE ROUGH?

Get out of it with the STM range of heavy duty grasscare machinery. There are the SCAG Zero-Turn pedestrian and ride-on mowers; machines built to last and provide hours of reliable use. All the cutting options are available – traditional flail, cylinder, cutter bar and rotary. ALSO there's the new HUMUS cutting head that can be used on the SCAG range or tractor mounted. This is an entirely new cutting method that is effective, reliable and safe and can be used for heavy scrub clearance or as an ordinary mid-season cutting head.

All too good to miss, so come and see us on stand no A21.

Scotts UK Professional

Scotts UK Professional will be featuring a number of new products on their stand this year. Firstly we are pleased to announce the launch of the new Greenmaster range, showing the way forward in fine turf nutrition. There will be a live demonstration of the Scotts' weather station and we will be giving advice on the world's best selling turf fungicide, Heritage, which now has on label approval for Take-All disease - the only turf fungicide to do so. Also we are introducing Greenmaster Blade, an organic microbial activator.

Come along to our stand and we will explain it all!

Toro Products

TORO UNVEILS REVOLUTIONARY GREENSMOWER CUTTING UNIT THAT CLIPS CLOSER THAN EVER BEFORE

Toro is launching a revolutionary new cutting system that enables its ride-on greensmowers to shave golf greens closer than ever before. The unit will clip down as low as just 1/16th of an inch, which is 1/32nd of an inch lower than was previously possible.

The company is introducing the unit to meet the move by greenkeepers for faster greens that take advantage of new plant cultivars that can be cut right down. It features the popular Dual Point Adjustment System from the acclaimed Greensmaster 1000 pedestrian mower and offers a single, high-performance cutting unit with a choice of 8- or 11-blade reels.

Also making their debut are the new-look Workman 3000 and 4000 range of utility vehicles, plus the new ProCore 648 pedestrian green aerator which will core faster and wider than anything else in its class.
