MOLES

Mole hills formed throughout the year by soil excavated from deep tunnels.

Manage the problem with poison bating, fumigation and trapping deep runs. Best results are usually achieved between October and April before breeding begins, when moles are usually most active, and when soil disturbances are most easily seen. Poison bating using strychnine applied to worms placed in deep runs is the most cost effective method but you will need a licence to use it.

Recruiting? Perfect timing...

If you are looking to recruit new members to your team for the coming year, then **STOP!** Look no further!

The **GREENKEEPER INTERNATIONAL RECRUITMENT PAGES** are here to help you match the right person to the right job.

With a monthly circulation reaching over 9,000 people, targeted direct to your industry, you will be guaranteed to find a high calibre of candidates to fill your positions.

All adverts placed will go on to our website for a month **FREE OF CHARGE.** Plus all design work is included in the price.

So, how can you take advantage of this?

Simply select the size of the advert you require:

- 1/8 page = £435
- 1/4 page = £560
- 1/2 page = £910

Add 20% to the price if you want a colour advert and then...

Call **Kirstin** on **01347 833800** to book your space
