PATHWAYS

We were asked by Dunlop Regis Golf Course what we thought of our rubber being used for buggy paths and walkways. Our answer to that was we didn't know, so we tried it with great success.

It is highly efficient on flat surfaces especially in or around the T-tux but not on steep hills or downhill slopes. The reason being it is very quiet and does not detract the roller being off. It drains very quickly and does not freeze in winter. It should be combined between two borders.

The rubber will cover 60 square meters at 2" depth. One 20kg bag will cover one square meter at 2" depth. Also used for saturated soggy areas i.e. T's & T-junctions.

Available in 20 kg bags or 500kg bags.
20kg bag - £4.95 plus VAT
500kg Loose - £180 Plus VAT
Delivery at extra cost

For further information please
call 01293 515353 or 07768 602420

TREES

FAST-GROWING TREES

Growth of 6-8 feet per year

For rapid improvement to new and developing Golf Courses

Hybrid Poplars used for specimen and group plantings to make handsome trees and perimeter windbreaks.

Hybrid Willows used for screens, hedges, wind-breaks, and dense cover on course.

Both are tolerant of poor soils and sites and require little post-planting care. All sizes available from 12 inch slips to 8 foot well-rooted trees.

Prices including delivery to most areas from £48 per 100, plus VAT or £439 per 1000, plus VAT

Free information pack and advice without obligation
