

SALTEX 2007

Like BTME & ClubHouse, held every January in Harrogate, all Saltex displays focus on labour and money saving products for the effective maintenance and management of turf and sports surfaces.

More than 15,000 visitors attend the annual three-day event at Windsor Racecourse, Berkshire, where approximately 400 exhibitors display the latest developments in fine turf and sports surfaces; turf maintenance equipment; landscaping; contractors; commercial vehicles; outdoor leisure and facilities and estate management, as well as software and security equipment.

Launched in 1938 as a grounds care show, IOG Saltex has grown in size and stature to cover every aspect of open space management. The show covers every open space profession from groundsmen and greenkeepers to play officers, architects, designers and surveyors.

The Greenkeepers' Training Committee (GTC) will again occupy a joint stand with the British and International Golf Greenkeepers Association (BIGGA), reinforcing a link that has served the fine turf profession well for many years. The strong relationship between the GTC, BIGGA and the key education and training stakeholders, coupled with the progress in the professional development of greenkeepers and greenkeeping, is the envy of many.

The GTC represents golf clubs and greenkeepers with regard to qualifications, training standards and all associated matters including assessor and management training. Visit the stand and view the latest materials that are used by the GTC Approved Training Providers. You can now purchase these together with the internationally acclaimed Training Manual.

With over 6,500 members BIGGA is the UK's leading professional organisation for greenkeepers and all those persons involved in the management of turf. In addition to providing a wide range of member benefits the Association also acts as training provider, supporting in particular the work of the GTC.
