

# HARROGATE WEEK

Exhibition: 22-24 January 2008 Education: 20-24 January 2008

## WHY SHOULD I VISIT HARROGATE WEEK?

If your business is in Groundscare, make it your business to attend Harrogate Week. It's your best opportunity to meet all the players under one roof where buyers and suppliers from 30 different countries gather to network, exchange ideas and do business in a superb environment.

## WHAT WILL I SEE?

Harrogate Week is the launch pad to the new season - it is so much more than an exhibition. It's packed with new and innovative ideas and has an outstanding education programme. With a Careers' Clinic, Job Shop and AGM's running throughout the week along with Dinners, Receptions and a Banquet, it's the only place to be each January.

With the industry's major players showcasing their latest equipment, technology and innovations all under one roof, your only difficulty may be having enough time to take it all in!

## WHO WILL BE THERE?

Everybody that's serious about the groundscare industry and club facility management. Whatever your particular interest you'll find it covered during Harrogate Week, an event that combines both elements of turf management and clubhouse management. To see the full up to date exhibitors list visit the website [www.harrogateweek.org.uk](http://www.harrogateweek.org.uk)

## WHAT ELSE IS ON OFFER?

### Careers Clinic:

Free careers' advice from experts.

### Job Shop:

Opportunities from all aspects within the industry.

### Internet Café:

Get online, onsite.

### Workshops & Seminars:

Leading the world in quality and content.

### Have We Got Views for You:

Ask the panel a leading question.

## EDUCATION

As the seasons alter and our climate changes, greenkeepers face an uphill struggle dealing with drought one minute and flooding the next. The following courses are just a sample of those taking place at Harrogate Week, designed to provide you with the perfect opportunity to get your questions answered and to share your problems and views:

- **The Disturbance Theory**
- **Environmental Management**
- **Noise and Vibration Management**
- **Current Environmental Legislation**
- **Drought, Drainage & Conservation**
- **Moving Toward Greater Sustainability**
- **The Practical Guide to Growth Regulators**
- **Golf & Turfgrass Management in the Future**
- **Water Management - An American Perspective**
- **Golf Green Fertilisation in our Changing Climate**
