ROTARY MOWER

Ransomes Jacobsen has launched an all-new out-front rotary mower, the Ransomes HR 3300T, specifically designed for the UK and European municipal and contractor market.

The R&D programme behind the launch of this new machine has been unprecedented with Voice of the Customer (VOC) research driving all stages of the design process.

Better mowing efficiency, more evenly dispersed grass clippings, the ability to cut a wide variety of grass, low maintenance, operator storage, reduced noise and vibration and better operator ergonomics were all areas identified by the VOC research.

NEW GUIDE

Syngenta has published a new Guide to Turfgrass Disease Control, containing all the detailed information to enable turf managers to make more effective decisions on disease control and creating higher quality playing surfaces.

Embracing the principles of Integrated Turf Management (ITM), the Guide addresses key areas of risk assessment, identifying potential problems and selecting the most appropriate course of action to minimise turf damage.

To accompany the Guide, Syngenta has also published a wall chart of the key factors and points to consider in creating an effective turf disease management programme. Copies of the Guide and the wall chart are available by emailing customer.services@syngenta.com

They can also be downloaded from the dedicated turf management website.

SOFTWARE EASES SET UP

The Jupiter Series 5 ATI precision grinders have incorporated new software to provide easy set up procedures when using the automatic grinders.

The new version 3 software identifies the various applications available for simple selection. including a dedicated programme for bed knife grinding with variable traverse speed. A new electronic braking facility also adds to the ease and accuracy of set up.

Any Golf Course that has 25 or more cylinder mower units should seriously look at investing in their own Hunter relief grinder, particulalry as Hunter Grinders now offer a range of finance packages to spread the cost over a period of time easing the financial burden.

PLANT AND SOIL TREATMENT

The appliance of science has resulted in the launch of a revolutionary new product, with the potential to transform the way that growing is done in the UK.

Quick-Sol is environmentally friendly, biodegradable and non-toxic and has been certified in its existing markets for organic use. Evaluations are well advanced for certification to the European equivalent standard. It can also dramatically reduce water requirements, one of our most precious resources, without affecting quality or productivity.

NEW AROUND THE GLOBE

Finland based company Actioneco recently launched the Actioneco, a greens mower they claim is totally unique and the first of its kind in the world.

Actioneco is an electric lithium-ion batterypowered, servo motor-driven electronicallycontrolled environment upkeep machine. It is designed specifically for golf courses, sports grounds and parks.

It is economical. With one quick charge, a full day's work can be put in. A full battery charge costs only about one euro.

Actioneco is non-polluting and practically silent. It won't disturb players, leave oil residues that tarnish playing balls and it doesn't damage the course.

www.actioneco.com

PEDESTRIAN ROTARY MOWER

Etesia has launched a new 'long range' pedestrian wheeled rotary – the Pro 46 PHG. Powered by a well-proven 5.5hp Honda GCV 160 engine, this 46cm walk-behind lawnmower has a large capacity 2.5 litre petrol tank designed to allow the operator to complete a full day's work without the need to re-fuel.

DUAL DRIVE

Rivendell has launched the 510 GOLF 20" 12-blade professional fine turf mower with dual drive system, shaver blade and turf brush as standard.

Specifically designed for golf courses, the 510 GOLF features uprated components for even greater reliability and accuracy.

www.rivendell-projects.co.uk

RANGE OF AERATORS & DECOMPACTORS

Campey Turfcare has been appointed as the sole UK and Ireland distributor for the Imants range of aerators and decompactors.

Imants BV is based at Reusel in the Netherlands and has been producing its own forged and smithed steel tools since 1885. Since developing one of the first spading machines in the 1960s, the company has specialised in innovative groundcare equipment.

The Imants RotoKnife slitter-aerator has recently been redesigned to offer even more functions, making it a highly versatile groundcare implement. Regular slitting results in a denser and healthier grass sward, and also helps to eliminate thatch and black layer.

The latest Mk II version of the Shockwave decompactor, named the Revenge, utilises a central all-gear drive for increased durability and a torque limiter on the pto rather than shear bolts, reducing downtime and boosting operator safety.

GOLF CAR

E-Z-GO has launched its new, much anticipated fleet golf car – the RXV – engineered to deliver reliability, superior performance, operating efficiency and safety through an array of enhanced features and innovations.

The RXV is available in electric and petrol models. The existing TXT model, introduced in 1995 and the best-selling fleet golf car in the company's history will remain a key component in E-Z-GO's lineup.
