Supplement: Climate Change...A Closer Look

The summer of 2006 saw the UK experience some of
their highest temperatures on record and hosepipe
bans were put in place in many areas. Fast-forward a
year and the summer of 2007 was almost non-existent,
temperatures hit a low and many areas suffered greatly
due to flooding. Is climate change to blame? Melissa
Jones takes a look at the erratic changes in our weather
and finds out what measures greenkeepers can put in
place to prepare themselves for every eventuality.
