

An Industry Comes Together

In a world of uncertainty it is comforting to know that some things remain solid and dependable.

Harrogate Week has held its well established place in the calendar for over 20 years and while recent years have proved more challenging it has continued to be a “must” for sports turf professionals.

This year is no different and visitors will have the opportunity to top up their knowledge base at

Europe’s premier education programme – Continue to learn – while at the same time keeping abreast of the latest developments and new products launched by the some of the most innovative and creative companies around.

In recent years BIGGA has worked hard to form alliances with other like-minded bodies and the success of this policy can be seen with the number of organisations who use Harrogate Week to host

their own events. This year the R&A, the EGU, the PGA, the GTC, the BALI, the GCMA and the CMAE are all in attendance ensuring that the mix of people grows and the opportunity to share knowledge increases.

I hope that all who attend make the most of the many opportunities that are available.
