

BUYERS' GUIDE

Irritech Limited

Irritech Limited is an independent irrigation consultancy practice specialising in existing irrigation system appraisal/evaluation, and new irrigation system design.

Irritech operates throughout the UK, Europe, and the middle East working with existing golf courses who need advice regarding irrigation upgrades or new golf courses who are seeking to install an irrigation system.

A full irrigation system appraisal and evaluation covers all aspects of system operation from watering sourcing and storage, through to sprinkler uniformity and system efficiency, enabling the client to pinpoint areas of concern and implement changes to improve operation and fine turf quality.

Recent projects include St Mellion Golf & Country Club, The Berkshire Golf Club, Aintree Racecourse, and Liphook Golf Club (where all aspects of irrigation system operation including borehole prognosis/water storage reservoir design have been undertaken to ensure a bespoke solution for the Client).

The role of an independent irrigation consultant is to allow the Client to procure the correct products for the golf club through a fair and even tender process; using a specification provided by the consultant, the Client can go to the 'market place' and achieve like for like competitive pricing.

Irritech is an established practice (approximately 9 years old) that have offered tailored designs and appraisal packages to over 350 Clients, improving irrigation system operation and in many cases reducing operating costs, for example Wildernesse Golf Club which has procured a borehole and 600m³ water storage tank to supplement their mains water supply – this in the event of a hosepipe ban will act as an insurance policy, protecting the Club's investment in the fine turf areas for many years to come.

Irritech can be contacted on:-
