

BUYERS' GUIDE

Turfdry

Golf course drainage specialist Turfdry has just completed further golf-green drainage installations for the 16th and 18th greens at Long Ashton Golf Club, Bristol, for Head Greenkeeper, James Braithwaite, following the success of the earlier Turfdry (Greens) Drainage System installations for the 8th and 15th greens at the course in 2009.

The unique Turfdry Drainage System, using Hydraway Sportsdrain, had already been proven on the course for fairway drainage as far back as 1998, when two new holes on the course, 7th and 8th, needed comprehensive drainage systems, and the Turfdry Drainage System was chosen because it could provide a highly effective post-construction drainage solution, with minimum disturbance to the newly constructed fairways.

The width of Hydraway Sportsdrain is considerably less than the diameter of a golf ball, and it can therefore slot into very narrow trenches. At the same time, it has a much greater surface area than a conventional 80mm plastic land drainage pipe and collects water far more efficiently. The company slogan for its unique Turfdry Drainage System is "Maximum Efficiency with Minimum Disruption".

The Turfdry Drainage System has a proven-track record in UK golf courses stretching back over 16 years, and the system has been satisfactorily installed in over 50 UK courses.

The Turfdry Drainage System is competitively priced and costs no more than an equivalent plastic pipe system, despite being more effective and less disruptive to install. Turfdry operates a friendly in-house team of experienced operatives using modern equipment with laser-grading facilities.

The Turfdry (Greens) Drainage System was also introduced in 1995. Turfdry's close liaison with its customer base enables the firm to demonstrate that the greens drainage systems installed back then are still working just as well today. The system can provide a long-term solution to waterlogged clay-based greens at a fraction of the cost of rebuilding.

Further information is available at the firms new web
