

BUYERS' GUIDE

Need Turf?

Tillers Turf is a leading supplier of turf to golf courses. With 25 years experience we have established a reputation for working closely with Greenkeepers to provide turf that performs well on the golf course.

We consider regular communication with Greenkeepers as being essential in the continuing drive to improve our products. Our range includes turf for greens, tees, surrounds, fairways, pathways and bunkers. The greens turf grown on USGA rootzone is used on new constructions and renovations, including the West Course at Wentworth and the new Donald Trump course, near Aberdeen. The turf is mown at 6mm and regularly top-dressed with the same USGA sand. We regularly export to Norway, France, Holland, Belgium, Ireland, Luxemburg and Switzerland using refrigerated lorries to ensure the turf arrives in prime condition.

Arena Gold is a favourite for tees because the ryegrass component combines a fine appearance with the ability to stand up to wear and tear. Mown at 10-12mm it produces top quality tees.

Our 100% Fescue now contains 20% hard fescue which gives improved winter colour and better drought hardiness. It's primarily used on links courses both here in the UK and on the Continent. We have supplied it to Muirfield this year in preparation for The Open in 2013.

Our revetting turf was introduced as part of the range three years ago. It's a very fibrous sod, cut 40mm thick, to give a tough long-lasting bunker wall.

Last, but not least, is the RTF, which contains rhizomatous tall fescue. RTF is proving itself on golf courses for use on pathways. Its ability to withstand long periods of drought while being subjected to the wear from feet and trolleys means that it can survive where other grasses fail.

For more information please call 01652 678000 or visit www.tillersturf.co.uk
