

# BUYERS' GUIDE

## A Quick Trim

**Introduced to the UK market 18 months ago by JSM Distribution, the TAS Trimmer range is gaining in popularity with clubs around the country.**

Sprinkler head and marker maintenance is now made easy, with various sizes to cover all popular makes of sprinkler head, valve boxes and yardage markers. One happy convert is John Scoones, Head Greenkeeper at Caversham Heath Golf Club. 'I heard about the TAS blades on the BIGGA website and ordered one to try. It arrived at 10.00am the next day and fitted straight onto my Stihl strimmer within 5 minutes. We had half the irrigation heads on the course (300) trimmed that afternoon. This is a real time saver which has made a previously laborious job a breeze!'

The TAS Trimmer will cut approximately 1300-1500 sprinkler heads when used for the first time, after which subsequent replacement units should have a trimming life of 1500-2000 heads. JSM Parts Manager, Peter Biddlecombe, says 'The TAS Trimmer fits any brand of straight shaft strimmer or brushcutter on the market and mounts easily like a brush cutter attachment. The feedback we are receiving from owners has been extremely positive, mainly informing us how easy to use it is and how neat the finished job looks. They also appreciate what good value it is with a relatively modest price and long-life.'

JSM stock a full range of TAS Trimmer sizes to cater for all makes of sprinkler head and valve box, a quick reference chart is available to help the customer match the right blade diameter to their make and model of pop-up head.
