

# BUYERS' GUIDE

## Stourton Forestry

**Stourton Forestry is a small, friendly company based in central Lincolnshire. We work throughout the East Midlands and often travel further afield. We have many years of experience working on prestigious courses throughout the country and can help you with all aspects of tree and woodland management.**

We specialise in tree planting schemes and offer a complete design, planting and maintenance service to enrich your course without the hassle. We also help you access grant funding; depending on certain criteria, you can receive up to £4,800/ha which usually covers costs with change left over to put towards club funds!

Stourton Forestry also undertake a wide range of woodland management operations, including small scale work with low impact machinery – ideal for sensitive sites such as golf courses. We can help you manage your existing trees by thinning overcrowded areas, felling and restructuring. If you have significant areas of woodland, a long-term management plan may be appropriate and we can also advise on the grants and licences that are applicable.

Timber can often be sold to offset costs. Hardwood timber is particularly in demand for firewood, and large, straight trees can be valuable for planking. If you have sufficient quantities, timber can be marketed as roundwood or we can advise on adding value yourselves, including processing material for biomass boilers.

While mature trees contribute enormously to the landscape and wider environment, they can also become unstable and dangerous. Landowners have a legal duty to protect people from harm caused by their trees. A survey by our professionally qualified tree safety expert will identify any trees that pose a significant risk and make sensible, pragmatic recommendations to manage your liability.

We are always happy to discuss your requirements, please do not hesitate to e-mail ([contact@stourtons.co.uk](mailto:contact@stourtons.co.uk)) or call us on 01507 578 080.
