Presented by Stuart Yarwood MG, Golf Course Manager, Lymm Golf Club.

1.00 pm – 2.00 pm
Go in Green.....Come Out Clean

Winter disease on golf greens is particularly problematic since there is little turf growth to allow recovery and for scars to heal. This can impact the playability of greens right through into the spring period leading to the dissatisfaction of golfers. An integrated approach to disease management can reduce the disease pressure, improve turf health and enhance the performance of fungicide applications. New findings on disease management will be presented along with practical advice for how to deliver smooth, disease free greens right through the high risk autumn and winter periods.

Presented by Dr Simon Watson, Syngenta Technical Manager, EAME Turf and Landscape.
