jkSONICS
Remote First Aid Solutions
PPE and Safety Products

Suppliers of the G5 Defibrillator

First Aid Kits First Aid Refills
Personal Protective Equipment & Safety Products
Defibrillator Supply & Training

JK Sonics is a family run company whose aim is to provide affordable first aid solutions. We specialise in the supply of First Aid Kits specially selected for remote workers and activities as well as first aid kits compliant to the new British Standard BS-8599 for areas including the Clubhouse, Kitchen, Driving range and Maintenance Facility. In fact, any first aid item can be purchased from us so please contact us for a quote based on your individual needs. PPE and safety products are also available from us.

FEATURED PRODUCTS

First Aid: We have specific first aid kits designed with outside working in mind. A remote First Aid grab bag or a small first aid box designed for taking out on the course either attached to mowing equipment or utility vehicles. Our Remote Trauma grab bag kit is designed for higher risk tasks including tree work or construction. First aider pouches and personal protective pouches are also available including sun protection.

First aid site audits: Carried out to ensure you are covered anywhere on the site and fully compliant with first aid laws. Extremely cost effective for a one off audit fee starting from £30+vat. Clients receive continued support and refills when required only paying for the items needed.

Defibrillators: It's hard to predict sudden cardiac arrest (SCA), because many victims do not exhibit symptoms. In fact, more than 50% of SCA victims have no previous symptoms of coronary heart disease. It's important to know time is the critical factor in responding to a sudden cardiac arrest. According to the European Resuscitation Council (ERC), survival falls by 10 to 12% per minute. In addition, each minute the brain goes without oxygen diminishes the likelihood that the victim will return to normal neurological function. After 10 minutes, it's unlikely a patient will survive SCA. While CPR can extend this period, defibrillation is the only effective therapy for sudden cardiac arrest. We are providers of the iPAD SP1, Powerheart G3 or G5 defibrillators, a vital piece of equipment for remote locations including golf courses and cost effective.

TRAINING: HSE approved EFAW, FAW First Aid and defibrillator training can be arranged through us. Quotes will be based on individual requirements.
