

BUYERS' GUIDE

Irritech Limited

Independent irrigation consultants

Irritech Limited are independent irrigation consultants who offer a complete irrigation consultancy package including appraisal of existing irrigation systems through to full design/project management of new irrigation systems installation, ensuring that the client gets the best product specification for their particular project.

Currently Irritech have 56 projects in 17 countries and with an office in Dubai, this gives the company an unparalleled expertise in the industry. Projects range from the design of a new irrigation system for Chelsea Football Club (Stamford Bridge) to the upgrade of the irrigation system at Royal Jersey Golf Club, completion of a phased upgrade at Beverley Racecourse to the new Dubai Hills Golf Project.

Water conservation is key to all projects and all Clients, and on a majority of projects soil moisture sensors are now included, these coupled with PC based control systems can offer savings in excess of 25% over baseline irrigation system water usage figures.

With water cost increasing, these savings implemented with Irritech's borehole designs/lake design specifications can make a client self-sufficient in water.

Typically an average borehole can offer a payback over its capital cost within 3 – 4 years. Recent projects that include borehole installations include South Staffordshire Golf Club, West Kent Golf Club, and Ramsdale Park Golf Club.
