

# BUYERS' GUIDE

## GreenTek launch World's widest Sarel-Roller

GreenTek have launched their new Multi-Sarel, which they claim to be the world's widest sarel-roller, and is ideal for busy sports facilities and training grounds. With a massive 5.4m working width, the Multi-Sarel provides rapid surface aeration for keeping heavily used fairway turf healthy throughout the playing season.

The Multi-Sarel is built on the same patented principle as GreenTek's proven Multi-Brush and Multi-Roller. The Multi-Sarel has three separate elements, and folds out hydraulically. The picture shows the a display model which for illustrative purposes has also got one section configured in the Multi-Brush format, and one as a Multi-Roller.

The Multi-Sarel can also be used folded in, with all three sarel rollers in line for extra intense surface aeration of heavily used areas, and to provide an ideal pre-treatment for overseeding.
