### BUCKS, BERKS AND OXON

Hello, is anyone out there? If so, please contact me – write to Ray Clark, Flat 1, Temple GC, Henley Road, Hurley, Nr Maidenhead Berks SL6 5LH

You'll all be glad to know that our second winter lecture was a great success and we are most grateful to Sierra UK for both lecture and grub (though that was not the main reason we all turned up, I hasten to add!) and to Alan Collis and Sonning GC. An enjoyable evening was had by all.

Well, to say that our Gentlemen's Dinner was a success is like saying that Ben Crenshaw can putt a bit! Over fifty people attended, both greenkeepers and guests, on a beautiful day to enjoy a fine round of golf on the immaculate RED course at Frilford Heath, the greens made almost impossibly fast by the use of an Australian Greens Iron. The only people who didn't knock putts a mile past the pins were C Taylor, first with 38 points, S Edwards, second with 37, P Quiros third, also with 37, J Texiera, fourth, again with 37, and P Wheelerhan fifth, yet again with 37 points. A tight result! Unfortunately Mr Taylor could not pick up his prize as he was en route for Barbados (not much of a reason, is

## AROUND THE GREEN

it?). Congratulations also to Bernie Wall for his birdie on the 18th, although it is rumoured that he bribed his playing partners (a little birdie told me!).

Special thanks go to Peter Gunter, who delivered an excellent speech. As always, our thanks go especially to David Heads and Jacques Klemann's of Frilford Heath and to the catering staff for an excellent meal. To the trade, as always our gratitude, especially to Sisis, (thanks Russell, for doing the score cards), StaBrite and Bernie Wall for his dedicated hard work, Rhone Poulenc, Rigby Taylor, British Seed Houses and ICI. A special thanks finally to the committee and particularly to Jackie Morrison, who worked relentlessly to make the event a success.

Our good wishes to D Driver who moves from Henley to Denham, D Porter from Frilford Heath to Ragburn, and L Morrison from Calcot Park to Maple Durham. Good luck. See you all at Henley in May.

# A GREEN MACHINE THAT DOESN'T COST THE EARTH

Put other greens mowers alongside a Lesco and you'll notice the difference. Ours is simple in design, sophisticated in performance and built with that American expertise. Yet it has no fancy bodywork, no hard-to-get-at mechanics. So what you see is what you get. That makes it the best value professional greens mower on the market today. There's a choice of diesel or petrol power and all the optional extras you'd expect from one of the world's leading manufacturers. Best of all is the price. It's as low as we can get without compromising on quality and you'll find that a contrast to some other green mowers we could name! Call now for your local dealer details.

# Only one thing comes close to New Improved Turfex

The best ideas, the very best products, are rarely the result of some happy accident. Turfex is a classic example.

It was recognised five years ago, by Service Chemicals plc, that dry patch and compaction were growing problems for groundsmen and greenkeepers – problems that mechanical methods and wetting agents were not solving.

So Turfex was created out of a need. It was designed, tested, refined and re-examined before it was finally made available in 1989.

Its ability to reduce the surface tension of water is far greater than that of any simple wetting agent. But it also contains active ingredients that attach themselves to particles at the interface between the thatch and the root zone. They actually make this layer attract

water – reversing its natural water repellent effect.

Below this interface, other Turfex ingredients coat the sand-soil particles to attract and hold water.

No other product matches this performance. In experimental trials at the Sports Turf Research Institute, no other product was more effective, doubling the rate of infiltration to the root area.

Yet development continues, with Fisons taking over the marketing and support role. Now New Improved Turfex gives you even better performance.

So Fisons will advise you on how New Improved Turfex can be integrated into your turf management programme to help cure and prevent problems such as dry patch and compaction.

And Fisons will lend their experience in turf care to yet further improvement of Turfex so that the turf manager's trust in Turfex continues to be fulfilled.

Now you know everything, almost. If you'd like to find out the rest of the Turfex story and see the supporting data, just talk to your local Fisons representative or stockist.
