

AMAZONE GROUNDKEEPER

The
all-rounder
for grass
control plus
scarifying and leaf
and litter collection

Amazone Groundkeeper flail grass cutting machines are available in standard and hi tip linkage mounted ranges with working widths of 1.20, 1.35, 1.50 and 1.80 metres. They will cope with grass of any height to leave a clean 'lawn' finish.

Features include generous hopper capacity, quick change reversible flails, easy height adjustment, slip clutch drive train protection, rugged construction, superb service back up.

A special spring-loaded top link enables the machines to follow ground contours.

Hook on flails are easily attached and detached (no tools) and 3mm scarifying blades can be fitted individually or in combination with cutting flails. For fine turf scarification 2mm blades are available.

GROUNDKEEPER HI TIP MODELS

Groundkeeper Hi Tip models (1.20, 1.35 and 1.50 metre working widths) enable hydraulic tipping from the tractor seat for easy disposal of cuttings or litter to lorries and trailers.
